At the Creation

2003

at the creation by herbert wagner brings to life the human side of harley davidson s quest to motorize the bicycle and then to promote it as a powerful fast reliable and thrilling means of personal transportation this book examines the origins of two wheeled transportation from a time when combining the gasoline engine with the bicycle was the province of dreamers and con men this is the definitive account of the beginnings of the only american motorcycle brand to ultimately succeed and survive backed by a decade of research at the creation documents for the first time the early years of the harley davidson motorcycle in its birthplace of milwaukee wisconsin an area that was an early center of motorcycle manufacturing previous books on harley davidson have failed to adequately cover this critical period which has been described as the era of mystery by harley davidson company historian martin jack rosenblum at the creation takes on several long standing puzzles and myths and then through the use of period documents and original photographs recreates the actual events of harley s first years as they most plausibly occurred

Indian Motorcycle Data

2017-04

want to amaze friends with your knowledge of those first indian motorcycles are you restoring a 1909 model big twin 61ci and need to know what was new for that year wondering when the model single frame height was shortened to 19 inches maybe you re curious what year the oil tank was separated from the fuel tank ever wonder how much fuel the tank held in 1906 do you need to know the first year of monkey on a stick racers well look no further the indian motorcycle data book 1901 1909 is your one stop information source for all the models that rolled off the lines featuring year by year data listings including new features production totals specialty models paint colors retail prices technical specifications and model notes including catalog articles and historic notes

The Motorcycle Industry in New York State, Second Edition

2023-05-01

the motorcycle industry in new york state is the first book to focus on the over 120 year history of motorcycle construction in the empire state beginning

with experimental motorized bicycles in the 1890s new york s motorcycle industry experienced its golden years for innovation and production in the 1900s and 1910s from that promising start the state s motorcycle industry declined when the public adopted automobiles for everyday transportation however since the late twentieth century the rise of custom one of a kind motorcycles has brought a new focus toward the industry also a new effort to reach mass production comes in the form of e motorcycles and e bicycles that are being designed in new york the first edition published in 2001 was the product of nine years of research by new york state museum nysm curator geoffrey n stein this second edition has been revised and updated by nysm senior historian and curator brad l utter for anyone who loves motorcycles or for those enthusiasts collectors that wish to know more about these unique makers and the bikes that they created the motorcycle industry in new york state is the ideal companion
