## **The Law and the Dead**

2016-04-14

the fate of the dead is a compelling and emotive subject which also raises increasingly complex legal questions this book focuses on the substantive laws around disposal of the recently deceased and associated issues around their post mortem fate it looks primarily at the laws in england and wales but also offers a comparative approach drawing heavily on material from other common law jurisdictions including australia new zealand canada and the united states the book provides an in depth contextual and comparative analysis of the substantive laws and policy issues around corpse disposal exhumation and the posthumous treatment of the dead including commemoration topics covered include the legal frameworks around burial cremation and other disposal methods the hierarchy of persons who have a legal duty to dispose of the dead and who are entitled to possession of the deceased's remains offences against the dead family burial disputes and the legal status of burial instructions the posthumous use of donated bodily material and the rules around disinterment and creating an appropriate memorial a key theme of the book will be to look at the manner in which conflicts involving the dead are becoming increasingly common in secular multi cultural societies where the traditional nuclear family model is no longer the norm and how such legal contests are resolved by courts as the first comprehensive survey of the laws in this area for decades this book will be of use to academics lawyers and judges adjudicating on issues around the fate of the dead as well as the death industry and funeral service providers

## **The Railway Preservation Revolution**

2017-06-30

a ride on a steam train is a popular family outing more than 100 heritage railways cater for that demand capturing the spirit of nostalgia while preserving the engines and equipment of past days of rail travel their interests even extend to the modern era of 1960 s 70 s diesels those heritage railways themselves have a long pedigree back to 1951 when a group of enthusiasts saved the talyllyn railway in mid wales from closure they ran this railway as volunteers out of their love of the little trains and a desire to keep it going their example was followed by many more preservation societies who preserved and restored branch lines country lines and industrial lines for our enjoyment now six decades have passed and we are now beginning to realize what an impressive history the heritage railway movement has this book traces that history from the humble beginnings the hopes and ambitions of the pioneers on the different railway projects there were times of failure and frustration as some fell by the wayside but others have made it through times of adversity to become the major heritage businesses of today

## **e-Pedia: Captain America: Civil War**

2017-02-11

this carefully crafted ebook is formatted for your ereader with a functional and detailed table of contents captain america civil war is a 2016 american superhero film based on the marvel comics character captain america produced by marvel studios and distributed by walt disney studios motion pictures it is the sequel to 2011 s captain america the first avenger and 2014 s captain america the winter soldier and the thirteenth film of the

## ***You Can't, You Won't***

2017-06-13

gary skyner s autobiography you can t you won t a life of unarmed combat provides an honest detailed account of his life as a thalidomide child gary was born severely disabled in 1959 after his mother was prescribed the thalidomide drug during pregnancy originally devised in 1957 by a german pharmaceutical company as a free sedative designed to combat morning sickness thalidomide was first licensed in the uk in 1958 however it became apparent that there was a surge in rare birth defects after pregnant women had been prescribed the drug as one of the earliest in the uk to be born damaged by the deadly drug gary s life was destined to be difficult and challenging as it impaired his physical development expected not to live let alone to achieve much gary is living proof that there is nothing you cannot achieve if you believe you can born with foreshortened arms in the toxteth area of 1950 s liverpool gary explores how his parents marital breakdown and his difficult relationship with his father were all caused in gary s eyes by the strains of raising a disabled child in addition to his troubles at home gary s tears turned to anger as he became aware of the government s reluctance to make

provision for thalidomide victims leading him to become active in campaigns in order to shame them into proper negotiation you can't you won't also explores how gary's dreams came crashing down on him due to his limitations as a thalidomide child as a lifelong liverpool fc supporter he always wanted to be a star player but he soon realised he had to accept his limitations working first as a telephone operator gary later became a welder a housing officer and a trained paralegal despite his difficult life you can't you won't also explores the happier times including having two daughters and his comic and motivational speaker career there has never been a dull moment and this autobiography explores his belief that life should be spiced with jokes and laughter written with conviction and humour you can't you won't is a story of courage and triumph that will appeal to those who enjoy memoirs but also to those interested in the background of thalidomide births

## **Design for Life**

2017-04-21

stuart walker's design work has been described as life changing inspiring disturbing and ferocious drawing on an extraordinarily diverse range of sources and informed by creative practice design for life penetrates to the heart of modern culture and the malaise that underlies today's moral and environmental crises the author argues that this malaise is deep seated and fundamental to the modern outlook he shows how our preoccupation with technological progress growth and the future has produced a constricted view of life one that is both destructive and self reinforcing based on over twenty five years of scholarship and creative practice he demonstrates the vital importance of solitude contemplation inner growth and the present moment in developing a different course one that looks squarely at our current precarious situation while offering a positive hopeful way forward a way that is compassionate context based human scale ethically motivated and critically creative design for life is an intensely original contribution that will be essential reading for design practitioners and students written in

a clear accessible style it will also appeal to a broader readership especially anyone who is concerned with contemporary society's rising inequalities and environmental failings and is looking for a more constructive balanced and thoughtful direction

## Torn between East and West

2016-08-05

this book is a very timely account of the legal economic and political consequences for border states caught in the current tug of war between the west and russia the ukraine crisis of 2014 focused policy makers attention on a geographical area full of dangers that had gone relatively unnoticed since the breakup of the soviet union namely the security dynamics of the border states of eastern europe and the black sea twenty five years after the collapse of the soviet union a strong russia returns alternatively threatening and cajoling but at risk itself of suffering economic injury from western reprisals over its nostalgia for the map drawn at yalta that conflict which hotted up over the ukraine was soon being played out over and in the air space over syria and turkey while the border states themselves are likely to be drawn into the european refugee crisis and have the potential after the 2015 paris atrocities to be breeding grounds for international terrorists this groundbreaking book contains prescient warnings that must be heeded by leaders and diplomats on both sides of the east west divide

from the authors of the international bestseller the babylon code comes an explosive exposé of the chilling truth about the fierce opposition to the trump presidency and why the globalist elite and deep state will stop at nothing assassination military coup staged economic collapse or worse to overthrow him trumpocalypse it s the media coined meme inciting panic and fear that america has elected an unstable man who will barge into delicate international affairs like a bull in a china shop and incite nations bent on america s destruction to trigger world war iii an unprecedented nuclear apocalypse ending the world as we know it but is the media telling us the truth no say internationally recognized prophecy expert and fox news and history channel commentator paul mcguire and pulitzer prize nominated investigative journalist troy anderson america s most insidious enemies are not hostile nations they are elite globalists the establishment that is making the 1 percent even richer while working and middle class people watch their incomes and net worth s flatline or plummet the authors fearlessly expose the globalist elite s secret plan for humanity and campaign of mass deception using documentation gleaned from years of journalistic investigation and extensive interviews with over fifty of the world s most respected geopolitical economic and military affairs experts faith leaders and biblical scholars mcguire and anderson unmask these elites as members of secret societies with deep occult connections who have gained control of america s dominant institutions government education entertainment international banking and even the media trumpocalypse explores the enigmatic prophecies and biblical codes involving

trump and asks whether god raised up president trump as a fearless leader to guide america and the free world through a series of major crises as the biblical end time narrative unfolds as many people with prophetic gifts are predicting and shows why everyday americans and evangelicals have rallied around trump as their last hope of saving america and averting the horrors of the apocalypse it further reveals why trump and millions of deplorables are fighting to stop the hidden agenda of the establishment and how the perplexing chaos enveloping the planet could paradoxically signal the beginning of the great end times awakening that millions are praying for here is an invitation to join the anti establishment surge what evangelist franklin graham calls the christian revolution and discover how to fulfill your own destiny in the run up to the second coming of jesus christ

the public intellectual as a person and ideal has a long and storied history writing in venues like the new republic and commentary such intellectuals were always expected to opine on a broad array of topics from foreign policy to literature to economics yet in recent years a new kind of thinker has supplanted that archetype the thought leader equipped with one big idea thought leaders focus their energies on ted talks rather than highbrow periodicals how did this shift happen in the ideas industry daniel w drezner points to the roles of political polarization heightened inequality and eroding trust in authority as ushering in the change in contrast to public intellectuals thought leaders gain fame as single idea merchants their ideas are often laudable and highly ambitious ending global poverty by 2025 for example but instead of a class composed of university professors and freelance intellectuals debating in highbrow magazines thought leaders often work through institutions that are closed to the public they are more immune to criticism and in this century the criticism of

public intellectuals also counts for less three equally important factors that have reshaped the world of ideas have been waning trust in expertise increasing political polarization and plutocracy the erosion of trust has lowered the barriers to entry in the marketplace of ideas thought leaders don't need doctorates or fellowships to advance their arguments polarization is hardly a new phenomenon in the world of ideas but in contrast to their predecessors today's intellectuals are more likely to enjoy the support of ideologically friendly private funders and be housed in ideologically driven think tanks increasing inequality as a key driver of this shift more than ever before contemporary plutocrats fund intellectuals and idea factories that generate arguments that align with their own but while there are certainly some downsides to the contemporary ideas industry Drezner argues that it is very good at broadcasting ideas widely and reaching large audiences of people hungry for new thinking both fair minded and trenchant the ideas industry will reshape our understanding of contemporary public intellectual life in America and the West

polling shows that since the 1950s americans trust in government has fallen dramatically to historically low levels in at war with government the political scientists amy fried and douglas b harris reveal that this trend is no accident although distrust of authority is deeply rooted in american culture it is fueled by conservative elites who benefit from it since the postwar era conservative leaders have deliberately and strategically undermined faith in the political system for partisan aims fried and harris detail how conservatives have sown distrust to build organizations win elections shift power toward institutions that they control and secure policy victories they trace this strategy from the nixon and reagan years through gingrich s contract with america the tea party and donald trump s rise and presidency conservatives have promoted a political identity opposed to domestic state action used racial messages to undermine unity and cultivated cynicism to build and bolster coalitions once in power they have defunded public services unless they help their constituencies and rolled back

regulations perversely proving the failure of government fried and harris draw on archival sources to document how conservative elites have strategized behind the scenes with a powerful diagnosis of our polarized era at war with government also proposes how we might rebuild trust in government by countering the strategies conservatives have used to weaken it
