Making Sense of Emotion

2017-08-31

offers perspective and guidance on how to love without fear at the end of the day none of us have a fairy godmother or pixie dust at our disposal and so we must do the work ourselves dr andrea gurney we've all grown up watching the fairy tales that promise happily ever after with our one true love whether we like it or not whether we think we believe it or not chances are we've internalized that story of love and despite the technology to find connection with more people than ever before somehow we are also lonelier than ever before even when we're in relationships although we were created for loving intimate

relationships we've lost our understanding of how to find and maintain them andrea gurney wants readers to discover more authentic connections that aren't made of wishes so she equips us with practices from psychology biblical truths and lessons from relationship science she also helps us examine our developmental history including how cultural and familial messages take root in our psyches together these tools craft a solid foundation on which lasting love can be built rather than a pumpkin carriage that disappears when the clock strikes midnight if you are disillusioned by unattainable societal standards in need of healing from damaged relationships or simply want to improve at relating well with others you're ready for reimagining your love story

IAP Handbook of Developmental and Behavioral Pediatrics

2021-02-28

while firmly acknowledging the importance of play in early childhood this book interrogates the assumption that play is a birthright it pushes beyond traditional understandings of play to ask questions such as what is the relationship between play and the arts theatre music and philosophy and between play and wellbeing how is play relevant to educational practice in the rapidly changing circumstances of today s world what do australian aboriginal conceptions of play have to offer

understandings of play the book examines how ideas of play evolve as children increasingly interact with popular culture and technology and how developing notions of play have changed our work spaces teaching practices curricula and learning environments as well as our understanding of relationships between children and adults this multidisciplinary volume on the subject of play combines the work of some of the world s leading researchers in the field of early childhood education with contributions from distinguished and emerging scholars in areas as diverse as education theatre studies architecture literature philosophy cultural studies theology and the creative arts reconsidering the common focus on play in early education to investigate its broader impact this collection offers a refreshing and valuable addition to studies on play reconceptualizing it for the 21st century

Routledge Handbook of Adapted Physical Education

2020-01-21
