The Survey of Best Practices in Developing Online Information Literacy Tutorials 06/2013

2007-09

the survey of best practices in developing online information literacy tutorials is a benchmarking report for online tutorial development presenting a wealth of information on the practices involved in and the cost of developing online information literacy tutorials the 285 page report also looks at how tutorials are marketed and accessed and at popular access points such as facebook the library website and others as well as how tutorials are used in for credit classes and more ad hoc use the study looks at how tutorial designers are trained and at how they inter relate to non library departments and other departments of the library the study also looks at the use of tutorials of other colleges and vendor produced tutorials and at efforts to evaluate how students use tutorials and how colleges should make decisions on what kinds of

tutorials to produce and how to best produce them the questionnaire for the report was largely developed by librarians at the university of arizona libraries
