drawing watercolor oil acrylic and pastel features up to date information on all the latest techniques with step by step photographs and practical guidance on how to treat the classical subjects portraits figures buildings landscapes and flowers this book is a tremendous resource for any early years setting it enables us and encourages us to explore the process of artistic development through a fresh and inclusive lens nursery world this book is a welcome update of an informative text describing the process of children s mark making as a visual physical and interactive process urging us to consider how we as adults perceive and support young children s mark making activities both at home and school john matthews demonstrates the cognitive function of this early mark making in relation to general individual development early years a thought provoking and informative book this is essential reading for anyone involved in the education of young children times educational supplement teacher drawing and painting is a fascinating and delightful read for tutors practitioners and students and is highly recommended an essential text for early years courses at level 3 and above under five this book has been revised to reflect recent developments in early childhood education in developmental psychology and in our understanding of children s development in the arts the author shows how this new model of children s development in visual representation has important implications for education the author examines children s development in visual expression and suggests how this development might be supported the book takes issue with the inherited wisdom about children s development in visual representation the traditional approach describes children s development in terms of supposed deficits in which children progress from primitive earlier stages to superior ones until the defects in their representational thinking are overcome and they arrive at an endpoint of visual realism this approach is the pervasive influence on curricular planning in arts education and in early years education the author explains recent different models of development in visual expression instead of measuring children s efforts against an adult paradigm the new models identify the modes of representation used by children as consequences of children s own intentions motivations and priorities the writing is accessible and assumes no specialist knowledge of psychological theory art its history or interpretation this book is essential reading for early childhood educators at nursery and pre school level for other professionals who work with very young children and parents as well as students and tutors on early years courses this is a revised edition of helping children to draw and paint children and visual representation originally published in 1994 for centuries artists have learnt from the art that came before them this book explains how to make paint meaningful and imaginative responses to the works of the masters there are step by step examples to illustrate how to get started and how to use thumbnail pencil sketches advice is given on how to make larger and slower drawings and then oil sketch copies of the masters work the author studies the composition rhythms and colours of the masters and uses their work as a source to practise and understand paintings and as a springboard for your own discovery and invention this book explores how a brave and imaginative use of colour can reinterpret paintings to achieve a greater and more expressive effect images from the earliest art to the twentieth century
