0000000 000000000ielts000 in the immediate aftermath of the second world  
war and with british political influence over greece soon to be ceded to  
the united states there was nonetheless a degree of cultural interaction  
between greek and british literati sponsored or assisted by the british  
council this interaction was notable for its diversity and quality alike  
indeed the british council in greece made a more significant contribution  
to local culture in that period than at any other time and perhaps in any  
other country many of the participants among them patrick leigh fermor  
steven runciman and louis macneice are well known while others deserve  
to be better known than they are today but what has been less fully  
discussed and what the volume sets out to do is to explore the two way  
relations between greek and british literary production in which the  
british council played a particularly important role until the outbreak of  
armed conflict in cyprus in 1955 which rendered further contacts of this  
kind difficult close attention is paid to the variety of ways marked by  
personal affinities and allegiances but also by political tensions in which  
the british council functioned as an agent of interaction in a climate  
where a complex blend of traditional anglophilia or philhellenism found  
itself encountering a new post war and cold war environment what is  
distinctive about the volume beyond the inclusion of much recent  
archival research is its attention to the british council as part of the story  
of greek letters and not just as a place in which various british men and  
women of letters worked the british council found itself sometimes more  
through improvisation and personal affinities rather than through careful  
planning at the heart of some key developments notably in terms of  
important periodical publications which had a lasting influence on greek  
letters though in the cultural forum that influence was arguably to be less  
pervasive than that of france with its more ambitious cultural outreach or  
than that of the usa in later decades the role of the british council in  
greece in this crucial period of greek and indeed european post war  
history continues to make a rich case study in cultural politics this  
volume thus fills a gap in the rich bibliography on anglo greek relations  
and contributes to a wider scholarly and public discussion about the  
politics the most authoritative and comprehensive guide available to

this report concludes that the government is right to continue to support turkey s accession to the european union as long as ankara meets the accession criteria and subject to the government imposing restrictions on the right to free movement from turkey after it joins however at the moment shortcomings in turkey s justice system are leading to human rights abuses including as regards freedom of expression and the media and making it harder to advocate turkey s eu membership turkey s eu accession process is in any case stuck effectively it is hostage to the cyprus dispute the committee said that by undermining the force of eu leverage the stalemate is having consequences that are detrimental to uk objectives in turkey across a range of fields including not only human rights but also energy and market access issues the committee found

this especially regrettable given that turkish democracy may be in a critical phase and given the influence that turkey may have at the moment over reforming arab states the committee also said that by creating uncertainty over the timing if not the fact of turkey s eu accession the stalemate was discouraging both the eu and turkey from starting to address some of the most difficult issues that would be involved in turkey s eu membership the government s continuing support for turkey s eu membership has provided a strong basis for the further development of uk turkey bilateral relations which has significant potential as a foreign policy partner turkey could potentially add value to uk foreign policy

this book presents a searing critique of the global take on education questioning why the idea that education should be international has come to dominate the field and positing that the discourse of internationalisation has altered the way we conceptualise education using diverse examples from the middle east the uk and south east asia the book gathers insights from international schooling refugee education and the internationalisation of higher education to argue that the global gaze renders other ways of looking at education as invisible it suggests that an oversaturation of international comparison amongst individuals and institutions alike creates a culture of powerlessness exclusion and silencing furthermore this volume also debates the issues that are caused when education is required to transcend national boundaries ultimately questioning the global education system in its current form this book will be an important contribution for academics researchers and students in the fields of higher education education policy and politics and education and development more broadly
