why has the world been unable to address global warming science policy expert roger pielke jr says it s not the fault of those who reject the kyoto protocol but those who support it and the magical thinking that the agreement represents in the climate fix pielke offers a way to repair climate policy shifting the debate away from meaningless targets and toward a revolution in how the world s economy is powered while defanging the venomous politics surrounding the crisis the debate on global warming has lost none of its power to polarize and provoke in a haze of partisan vitriol the climate fix will bring something new to the discussions a commonsense perspective and practical actions better than any offered so far
