this book constitutes the refereed proceedings of the 5th asia pacific conference ap2003 held in xian china in april 2003 the 39 revised full papers and 16 short papers presented together with two invited papers were carefully reviewed and selected from a total of 136 submissions the papers are organized in topical sections on xml and database design efficient xml data management xml transformation mining clustering ranking and profiling payment and security application architectures advanced applications multimedia network protocols workflow management systems advanced search and data allocation and replication

Monthly Catalogue, United States Public

Documents

1984

issued four times a year this publication provides data for assessing demographic and economic trends in countries and areas of the asia and the pacific region data presented for multiple years on a month by month basis facilitate comparative studies

House Document

1999

for centuries ships commanders kept journals that recorded their missions these included voyages of discovery to unknown lands engagements in war and sea and general trade many of their logs diaries and letters were lodged at the national archives and give a vivid picture of the situations that they encountered entries range from captain james cook s notes of his discovery of the south pacific and australia to logs of the great naval battles such as trafalgar and the battle of the Nile from the ships that attempted to stop piracy in the caribbean to the surgeons

who recorded the health of the men they tended and naturalists who noted the exotic plants and animals they encountered comes a fascinating picture of life at sea richly illustrated with maps drawings and facsimile documents found alongside the logs in the archives

Monthly Catalog of United States Government Publications

1988

includes the city manual along with the annual reports of the city s various departments and offices

108-2: House Document No. 108-154, Statement of Disbursements, Part 1 of 2, October 1, 2003 to December 31, 2003

2004

this book continues first one of the same authors adaptive image processing algorithms for printing and presents methods and software solutions for copying and scanning various types of documents by conventional office equipment offering techniques for correction of distortions and enhancement of scanned documents techniques for automatic cropping and de skew approaches for segmentation of text and picture regions documents classifiers approach for vectorization of symbols by approximation of their contour by curves methods for optimal compression of scanned documents algorithm for stitching parts of large originals copy protection methods by microprinting and embedding of hidden information to hardcopy algorithmic approach for toner saving in addition method for integral printing is considered described techniques operate in automatic mode thanks to machine learning or ingenious heuristics most the techniques presented have a low computational complexity and memory consumption due to they were designed for firmware of embedded systems or software drivers the book reflects the authors practical experience in algorithm development for industrial r d

like richard ellmann s james joyce richard zenith s pessoa immortalizes the life of one of the twentieth century s greatest writers nearly a century after his wrenching death the portuguese poet fernando pessoa 1888 1935 remains one of our most enigmatic writers believing he could do more in dreams than napoleon yet haunted by the specter of hereditary madness pessoa invented dozens of alter egos or heteronyms under whose names he wrote in portuguese english and french unsurprisingly this most multifarious of writers guardian has long eluded a definitive biographer but in renowned translator and pessoa scholar richard zenith he has met his match relatively unknown in his lifetime pessoa was all but destined for literary oblivion when the arc of his afterlife bent suddenly and improbably toward greatness with the discovery of some 25 000 unpublished papers left in a large wooden trunk drawing on this vast archive of sources as well as on unpublished family letters and skillfully setting the poet s life against the nationalist currents of twentieth century european history zenith at last reveals the true depths of pessoa s teeming imagination and literary genius much as nobel laureate josé saramago brought a single heteronym to life in the year of the death of ricardo reis zenith traces the backstories of virtually all of pessoa s imagined personalities demonstrating how they were projections spin offs or metamorphoses of pessoa himself a solitary man who had only one ultimately platonic love affair pessoa used his and his heteronyms writings to explore questions of sexuality to

obsessively search after spiritual truth and to try to chart a way forward for a benighted and politically agitated Portugal although he preferred the world of his mind Pessoa was nonetheless a man of the places he inhabited including not only Lisbon but also turn of the century Durban South Africa where he spent nine years as a child Zenith re-creates the drama of Pessoa's adolescence when the first heteronyms emerged and his bumbling attempts to survive as a translator and publisher Zenith introduces us too to Pessoa's bohemian circle of friends and to Ophelia Quieroz with whom he exchanged numerous love letters Pessoa reveals in equal force the poet's unwavering commitment to defending homosexual writers whose books had been banned as well as his courageous opposition to Salazar the Portuguese dictator toward the end of his life in stunning magisterial prose Zenith contextualizes Pessoa's posthumous literary achievements especially his most renowned work the book of disquiet a modern literary masterpiece Pessoa simultaneously immortalizes the life of a literary maestro and confirms the enduring power of Pessoa's work to speak prophetically to the disconnectedness of our modern world

travel time to destinations in the austin area continues to rise during both peak and off peak hours with increased congestion and higher gas prices some individuals are traveling more selectively and viewing public transit as a cost saving alternative to the automobile however a substantial number of austinites remain solely dependent on their automobiles for transportation this study analyzes the travel patterns of students attending houston tillotson university ht an historical black college and university hbcu this population does not utilize public transit and is mostly car dependent reasons given include the need to be independent the inefficiency of capital metropolitan transportation authority bus travel time and routes condition of bus stops and the fear of crime while waiting for a bus during the spring of 2009 focus groups were held on ht s campus and surveys were distributed to the broader student body from september 2009 may 2010 an environmental analysis of the built environment surrounding 38 bus stops in three locations was performed using an established survey tool the researchers determined that both studies were necessary to test whether an environmental analysis would support the findings of the focus groups and student surveys using

gis a cluster analysis of bus stop environments and cumulative distribution functions to explore bus travel time to reported destinations the researchers found that the students perceptions were not always consistent with the environmental analysis the cluster analysis revealed spatial differences when identifying negative attributes however none of the bus stop structures in the three areas were in very poor condition the researchers suggest that a transit training program for ht students would be beneficial in improving ridership
