this is the magnum opus on digital printing and the book to read before color calibrating your monitor or wondering about differences in pigmented and dye based inks with little in the way of how to the book focuses more on why and showcases eloquent photographs including a heartbreakingly beautiful portrait of marilyn monroe a naked world war ii bomber tail gunner and the inevitable emperor s new clothes work equally heartbreaking for far different reasons is henry wilhelm s essay a history of permanence that includes a section called the totally lost kodacolor era that will leave you stunned by the corporate callousness that s described this book not only deserves to be on the bookshelf of anybody who cares about photography it deserves to be read
