in this classic work of feminist political thought iris marion young challenges the prevailing reduction of social justice to distributive justice the starting point for her critique is the experience and concerns of the new social movements that were created by marginal and excluded groups including women african americans and american indians as well as gays and lesbians young argues that by assuming a homogeneous public democratic theorists fail to consider institutional arrangements for including people not culturally identified with white european male norms consequently theorists do not adequately address the problems of an inclusive participatory framework basing her vision of the good society on the culturally plural networks of contemporary urban life young makes the case that normative theory and public policy should undermine group based oppression by affirming rather than suppressing social group differences provided by publisher a pillar of african american literature richard wright is one of the most celebrated and controversial authors in american history his work championed intellectual freedom amid social and political chaos despite the popular and critical success of books such as uncle tom s children 1938 black boy 1945 and native son 1941 wright faced staunch criticism and even censorship throughout his career for the graphic sexuality intense violence and communist themes in his work yet many political theorists have ignored his radical ideas in the politics of richard wright an interdisciplinary group of scholars embraces the controversies surrounding wright as a public intellectual and author several contributors explore how the writer mixed fact and fiction to capture the empirical and emotional reality of living as a black person in a racist world others examine the role of gender in wright s canonical and lesser known writing and the implications of black male vulnerability they also discuss the topics of black subjectivity internationalism and diaspora and the legacy of and responses to slavery in america wright s contributions to american political thought remain vital and relevant today the politics of richard wright is an indispensable resource for students of american literature culture and politics who strive to interpret this influential writer s life and legacy political change doesn t always begin with a bang it often starts with just a whisper from the discussions around kitchen tables that led to the dismantling of the soviet bloc to the more recent emergence of internet initiatives like moveon org and redeem the vote that are revolutionizing the american political landscape consequential political life develops in small spaces where dialogue generates political power in the politics of small things jeffrey goldfarb provides an innovative way for understanding politics a way of appreciating the significance of politics at the micro level by comparatively analyzing key turning points and institutions in recent history he presents a sociology of human interactions that lead from small to large dissent around the old soviet bloc life on the streets in warsaw prague and bucharest in 1989 the network of terror that spawned 9 11 and the religious and internet mobilizations that transformed the 2004 presidential election to name a few in such pivotal moments he masterfully shows political autonomy can be generated presenting alternatives to the big politics of the global stage and the dominant narratives of terrorism antiterrorism and globalization empire of hope asks how emotions become meaningful in political life in a diverse array of cases from recent japanese history david leheny shows how sentimental portrayals of the nation and its global role reflect a durable story of hopefulness about the country s postwar path from the medical treatment of conjoined vietnamese children victims of agent orange the global promotion of japanese popular culture a tragic maritime accident involving a us navy submarine to the 2011 tsunami and nuclear disaster this story has shaped the way in which political figures writers officials and observers have depicted what the nation feels expressions of national emotion do several things they construct the boundaries of the national body they inform and discipline appropriate expression and they depoliticize messy problems that threaten to produce divisive questions about winners and losers most important they work because they appear to be natural simple and expected expressions of how the nation shares feeling even when they paper over the extraordinary divergence in how the nation s citizens experience each incident in making its arguments empire of hope challenges how we read the relations between emotion and politics by arguing unlike those who build from the neuroscientific turn in the social sciences or those developing affect theory in the humanities that the focus should be on emotional representation rather than on emotion itself how did we get into

this mess every morning many americans ask this as with a cringe they pick up their phones and look to see what terrible thing president trump has just said or done regardless of what he s complaining about or whom he s attacking a second question comes hard on the heels of the first how on earth do we get out of this alan wolfe has an answer in the politics of petulance he argues that the core of our problem isn t trump himself it s that we are mired in an age of political immaturity that immaturity is not grounded in any one ideology nor is it a function of age or education it s in an abdication of valuing the character of would be leaders it s in a failure to acknowledge even welcome the complexity of government and society and it s in a loss of the ability to be skeptical without being suspicious in 2016 many americans were offered tantalizingly simple answers to complicated problems and like children being offered a lunch of pop rocks and coke they reflexively and mindlessly accepted the good news such as it is that we ve been here before wolfe reminds us that we know how to grow up and face down trump and other demagogues wolfe reinvigorate the tradition of public engagement exemplified by midcentury intellectuals such as richard hofstadter reinhold niebuhr and lionel trilling and he draws lessons from their battles with mccarthyism and conspiratorial paranoia wolfe mounts a powerful case that we can learn from them to forge a new path for political intervention today wolfe has been thinking and writing about american life and politics for decades he sees this moment as one of real risk but he s not throwing up his hands he s bracing us we ve faced demagogues before we can find the intellectual maturity to fight back yes we can provides a balanced comprehensive account of contemporary trends in world regional and nation state government and politics captures the global changes both theoretical and factual of the past three decades to give an unprecedented overview of political science and political affairs clearly and incisively written to meet the needs of students lecturers and practitioners at all levels helpful bibliographies of new and classic material and suggestions for further reading extensive index of topics and people provides a comprehensive introduction to both the theoretical and practical issues of government and politics it will be an essential purchase for libraries with in depth collections in these areas reference reviews this up to date and well executed work provides a sound introduction to all aspects of political study choice this is a work of immense scholarship and usefulness political studies in addition to copious citations to the research literature there are brief bibliographies listing major works for further reading at the conclusion of each article this up to date and well executed work provides a sound introduction to all aspects of political study suny college at purchase the politics of the textbook analyzes the political economic and cultural factors that shape the production distribution and reception of school texts thinking psychoanalytically about the nature of social exclusion involves a self questioning on the part of the interpreter while we may all have some experiences of having been subject to stereotyping silencing discrimination and exclusion it is also the case that as social beings we all to some extent participate in upholding these practices often unconsciously the book poses the question of how psychoanalysis can be used to think about the invisible and subtle processes of power over symbolic representation in the context of stereotyping and dehumanization what forces govern the state of affairs that determine who is an i and who is an it in the public sphere thinking in terms of containment a communication which is denied a social space for expression can be said to be actively stripped of meaning through its original contribution of attending to and interpreting material that so far had seemed meaningless psychoanalysis demonstrates a capacity to reinstall meaning where none was before but how are such acts performed on a social level fills a gap in scholarship on an increasingly important field within political science comparative politics the discipline devoted to the politics of other countries or peoples has been steadily gaining prominence as a field of study allowing politics to be viewed from a wider foundation than a concentration on domestic affairs would permit introduction programmed sociality the multiplicity of algorithms neither black nor box un knowing algorithms life at the top engineering participation affective landscapes everyday encounters with algorithms programming the news when algorithms come to matter conclusion algorithmic life schulz examines the ways in which palestinian identity has been formed in the diaspora through constant longing for a homeland lost in so doing the author advances the debate on the relationship between diaspora and the creation of national identity unlike some other reproductions of classic texts 1 we have not used ocr optical character recognition as this leads to bad quality books with introduced typos 2 in books where there are images such as portraits maps sketches etc we have endeavoured to keep the quality of these images so they represent accurately the original artefact although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations

to enjoy for undergraduate and taught masters courses on modern south africa as part of a politics area studies development studies or combined social sciences degree this book provides an appraisal of critical moments in south africa s history segregation and racial supremacy black opposition politics under apartheid and violence and terror the authors include up to date information such as the transfer of power in 1994 enfranchisement and political realignment the post electoral period of adjustment and socio economic transition the findings of the truth and reconciliation commission and the 1999 elections publisher description this volume is an edited collection of essays on various aspects of the 2010 kosovo advisory opinion of the international court of justice the main theme of the book is the interplay between law and politics regarding kosovo s independence generally and the advisory opinion specifically how and why did the court become the battleground in which kosovo s independence was to be fought out or not how and why did political arguments in favour of kosovo s independence e g that kosovo was a unique sui generis case which set no precedent for other secessionist territories change in the formal legal setting of advisory proceedings before the court how and why did states supporting either kosovo or serbia choose to frame their arguments how did the court perceive them what did the court want to achieve and did it succeed in doing so and how was the opinion received and what broader implications did it have so far these are the questions that the book hopes to shed some light on to do so the editors assembled a stellar cast of contributors many of whom acted as counsel or advisors in the case as well a number of eminent scholars of politics and international relations whose pieces further enrich the book and give it an interdisciplinary angle the book thus tells the story of the case places it within its broader political context and so attempts to advance our understanding of how such cases are initiated litigated and decided and what broader purposes they may or may not serve this comprehensive text provides a detailed overview of the party system and politics of one of the most powerful states in the international arena noted scholar gerard braunthal surveys the parties in the federal republic of germany and in the german democratic republic after world war ii and in united germany since 1990 by illustrating the cent despite the widespread attention attracted by spain s remarkable transition from general franco s repressive dictatorship to a dynamic democracy this is the first comprehensive study in english of the new spanish political system the book introduces the main institutions and features of the contemporary spanish state and assesses to what extent these still bear the imprint of the francoist legacy despite some remaining obstacles and difficulties paul heywood argues the country is now decisively in the political mainstream of the new europe this book originally published in 1982 begins with an examination of space and its role in the process of public provision and collective consumption variations in provision are linked to the weberian notion of social status and political struggles over consumption and externality issues health care and education are considered in spatial contexts and the whole basis of the electoral system is also discussed together with geographic underpinnings in each case emphasis is placed on the jurisdictional organization of space by public bodies the author examines the various examples of spatial cleavages in which political events are redirected by issues such as nuclear power airport location road construction and urban renewal india with its 900 million inhabitants is the world s most populous democracy whose success in sustaining its democratic institutions in the face of deep internal divisions and cleavages makes it of special interest to the student of comparative politics ramesh thakur s new text provides a lively and up to date introduction to the government and politics of india and offers a wealth of empirical detail combined with sophisticated critical analysis it explains the historical legacies that have shaped the structures of indian government and influenced patterns of politics the author describes the network of indian institutions at federal and provincial level and conveys a sense of where power is located how it is used and the constraints on its exercise special attention is devoted to caste religion and regionalism in indian society and to the nature of democratic politics in relation to third world development this volume first published in 1973 brings together a wide range of professor landau s work on recent middle eastern history and politics reflecting the breadth of the author s concern and research the first section deals with aspects of political organisation in the middle east largely egypt towards the end of the nineteenth century a little known plan of the islamic reformer al afghani is discussed showing him in a rather more political light than the religious haze which normally surrounds this pan islamic campaigner the role of the influential secret societies in modern egypt is outlined and the politics behind the fluctuations in the degree of responsibility allowed to egyptian ministers is examined this section is concluded by a chapter on two proposals for the establishment of a jewish homeland in the sudan in the early days of zionism throwing interesting

light on the differing aims of early zionists and alternative historical paths that might have been taken the second section of the book contains studies on the jewish situation in nineteenth century egypt focusing on their position within the larger muslim society and on socio economic factors as well as on the career of james sanua abu naddara an egyptian jew who played a prominent part in nationalist agitation the two final parts of the book turn to recent and contemporary electoral politics in the middle east with special attention being paid to the political leadership and voting behaviour of the arabs in israel other studies deal with elections in lebanon and turkey and the final chapter analyses the militant right wing elements in the turkish political spectrum this timely book surveys political change in postcommunist europe it concentrates on the western periphery of the former soviet empire and covers the countries of four regions east central europe poland the czech republic slovakia and hungary the balkans bulgaria romania slovenia croatia the third yugoslavia macedonia and albania the baltic rim lithuania latvia and estonia and eastern europe belarus and ukraine the book charts the changes in each of these countries it provides a brief overview of the history and communist legacy of each country then reviews the new constitutional framework the principal political parties and their orientation the direction and scope of economic reform and the foreign and security policies throughout it evaluates the extent and direction of postcommunist transformation in each country and its prospects for becoming a viable member of the new european order by its concentration on the actual elements of the emerging political systems and its currency this is essential reading for students and scholars of eastern europe and contemporary international affairs patrons of public and school libraries will find it an important resource as well religion and politics in the united states fifth edition offers a comprehensive account of the role of religious ideas institutions and communities in american public life while maintaining that religion is too politically potent to be left out or consigned to the margins in accounts of american politics wald and calhoun brown also argue against the common tendency to treat religion as the dominant force in politics today early topics include the nature and persistence of religion in the united states its contribution to the founding and the continuing debate over the role of religion in government and law following a discussion of how religious factors encourage political action the book concludes by discussing basic political attitudes and behavior among members of mainstream american religious traditions and minority religious communities defined by ethnicity race gender and sexual orientation the new edition greatly expands coverage of various religious minorities with a new chapter on politics and religion among african americans latinos muslim americans latter day saints mormons and other faith traditions there is larger focus on how religion influences the politics of local communities more urgent than ever two landmark essays by the legendary political theorist on the greatest threat to democracy gathered with a new introduction by david bromwich no one hannah arendt observed has ever counted truthfulness as a political virtue but why do politicians lie what is the relationship between political lies and self delusion and how much organized deceit can a democracy endure before it ceases to function fifty years ago the century s greatest political theorist turned her focus to these essential questions in two seminal essays brought together here for the first time her conclusions delivered in searching prose that crackles with insight and intelligence remain powerfully relevant perhaps more so today than when they were written in truth and politics arendt explores the affinity between lying and politics and reminds us that the survival of factual truth depends on the testimony of credible witnesses and on an informed citizenry she shows how our shared sense of reality the texture of facts in which we wrap our daily lives can be torn apart by organized lying replaced with a fantasy world of airbrushed evidence and doctored documents in lying in politics written in response to the release of the pentagon papers arendt applies these insights to an analysis of american policy in southeast asia arguing that the real goal of the vietnam war and of the official lies used to justify it by successive administrations was nothing other than the burnishing of america s image in his introduction david bromwich american breakdown the trump years and how they befell us engages with arendt s essays in the context of her other writings and underscores their clarion call to take seriously the ever present threat to democracy posed by lying deadlock and disillusionment american politics since 1968 is an insightful consideration of the events people and policy debates that have shaped and continue to influence even control the current political era rejects conventional wisdom that the dominant force shaping recent american politics in the last half century has been the rise of the right considers the achievements and frustrations of each administration from nixon to obama in its assessment of contemporary u s politics features authorship by an expert scholar in the field who takes a thematic rather than a partisan approach to recent american politics offers a concise comprehensive and

thoroughly up to date synthesis of the literature in the field and concludes with a comprehensive bibliographical essay an aid to student research intense interest in past injustice lies at the centre of contemporary world politics most scholarly and public attention has focused on truth commissions trials lustration and other related decisions following political transitions this book examines the political uses of official apologies in australia canada new zealand and the united states it explores why minority groups demand such apologies and why governments do or do not offer them nobles argues that apologies can help to alter the terms and meanings of national membership minority groups demand apologies in order to focus attention on historical injustices similarly state actors support apologies for ideological and moral reasons driven by their support of group rights responsiveness to group demands and belief that acknowledgment is due apologies as employed by political actors play an important if underappreciated role in bringing certain views about history and moral obligation to bear in public life this book engages with politics and political discourse that relate to and qualify immigration in europe it brings together empirical analysis of immigration both topically and contextually and interprets such empirical evidence with the use of policy and discursive analyses as methodological tools thematically this volume focuses on how discourse and politics operate in issue areas as varied as immigrant integration and multilevel governance roma immigration and their respective securitization the uses of language in determination of asylum applications gendered immigrants in informal economy perceptions of integration by the migrants economic interests and economic nationalism stimulating immigration choices ideology and entry policies and asylum processes and the institutional evolution of immigration systems these issues are analyzed with empirical evidence investigating the discursive formulation of immigration systems in political contexts such as the netherlands france united kingdom turkey switzerland scandinavian states and finland tony blair has often said that he wishes history to judge the great political controversies of the early twenty first century above all the actions he has undertaken in alliance with george w bush this book is the first attempt to fulfill that wish using the long history of the modern state to put the events of recent years the war on terror the war in iraq the falling out between europe and the united states in their proper perspective it also dissects the way that politicians like blair and bush have used and abused history to justify the new world order they are creating many books about international politics since 9 11 contend that either everything changed or nothing changed on that fateful day this book identifies what is new about contemporary politics but also how what is new has been exploited in ways that are all too familiar it compares recent political events with other crises in the history of modern politics political and intellectual ranging from seventeenth century england to weimar germany to argue that the risks of the present crisis have been exaggerated manipulated and misunderstood david runciman argues that there are three kinds of time at work in contemporary politics news time election time and historical time it is all too easy to get caught up in news time and election time he writes this book is about viewing the threats and challenges we face in real historical time emphasizing the relevance of politics and government in everyday life we the people seventh edition continues to provide tools to help students think critically about american government and politics this book explores and analyzes how the arab spring has affected the political and economic relationships between the west the brics brazil russia india china and south africa and the mena middle eastern and north african states it locates continuity and change in these relations within the broader context of democratization energy security arms relationships and the shift towards a multi polar system each chapter charts a history of ideological engagement which has generally given way to more pragmatic energy economic and security interests and defines and analyzes the fundamental and emerging factors that shape foreign policy the volume pays special attention to the un security council authorization of all necessary measures against qaddafi s libya and the subsequent deadlock in getting china and russia to pass further resolutions for intervention in syria in the 1960s when students everywhere were coming alive politically and when the latin american student activist in particular became as archetypal of radicalism as the latin american dictator was of repression puerto rican students remained strangely silent with the exception of fupi a radical student group with only a small following student political behavior conformed to that of puerto rican society in general center to conservative historically puerto rico has been economically and politically dominated first by spain and then by the united states but unlike other colonial dependencies in latin america puerto rico has never rebelled puerto rican politics centers on the status issue independence statehood or association for the island but no legendary victories no heroic defeats offer a battle cry for nationalists leftists and independistas overwhelming

foreign influence in the church the schools the economy and eventually the mass media deprived the island of any strong indigenous institutions that might foster nationalism militancy lies outside the mainstream of puerto rican tradition against this historical and cultural backdrop arthur liebman closely examines the social background and political activity of students at the rio piedras campus of the university of puerto rico based on personal interviews with students faculty and administrators as well as on a survey of the student body his study reveals the strength of political inheritance among university students in puerto rico the student left is small and weak largely because the left of the parents generation is small and weak to date puerto rican students have been the children of their parents and of their society within a university that emphasizes practicality the nonmilitant majority of the students study education business engineering and medicine being trained to participate in and to reap the rewards of the status quo student leftists in the minority generally study history economics sociology and law fields that open wider perspectives on their society and its problems and offer no immediate guarantee of its benefits brighter less religious and more dissatisfied with their role as a student the student leftists stand apart from their cohort at the university of puerto rico like their adult counterparts they are an anomaly in an acquisitive relatively conservative society over the last 20 years change in china has been breathtaking reform has affected every facet of life and has left no policy and institution untouched how did china move from being one of the most isolated nations to being a major international player written by a leading expert who has also lived and worked in china this major new textbook provides a thorough introduction to these changes and to all aspects of politics and governance in china from the revolution of 1949 to the present day examining political and socioeconomic change in the yemen arab republic yar this book first published in 1987 focuses primarily on the quarter century following the overthrow of the imamate in 1962 the problems and politics of the period s republican leaders and their regimes are analysed against the backdrop of yemen s traditional islamic theocracy the zaydi imamate which ruled for over a millennium a country very similar to afghanistan in its mountainous terrain tribal social organization and traditional islamic culture the yar was almost completely isolated and insulated from the modern world and modern politics until the ousting of the imamate this book explores in detail the processes of change the political leaders involved and the impact of domestic and external forces dr burrowes draws on his extensive conversations with yar leaders to provide a unique view of a country trying to cope with change and modernization epic orality and politics the language of heroes and the language of heroines storytelling in oral traditional epic elizabeth minchin summoning together all the people variant tellings of the mwindo epic as social and political deliberation nathalia king orality and textual criticism the homeric hymns franco ferrari orality and the politics of scholarship annette tefeteller political manipulation of texts written lists of military personnel in classical athens geoffrey w bakewell why the athenians forgot cleisthenes literacy and the politics of remembrance in ancient athens greg anderson lycurgus and the state text of tragedy ruth scodel myth and writing in aeschines against timarchus guy olding orality and the politics of roman peacemaking linda t zollschan the oral and written controversy privileging literacy theognis sphregis aristocratic speech and the paradoxes of writing thomas hubbard thucydides history live reception and politics james v morrison from orality to literacy the moral education of the elite in fourth century athens frances pownall writing divine speech greek transliterations of near eastern languages in the hellenistic east matthew j martin the oral and written controversy privileging orality fighting the future euripidean letters and thucydides athens emma m griffiths elitist orality and the triviality of writing margalit finkelberg neronian oral politics the case of musonius rufus niall slater orality and written law oral agreement written contract and the bonds of law at athens edwin carawan did the athenian courts attempt to achieve consistency oral tradition and written records in the athenian administration of justice edward m harris

as societies have become ever more complex coupled with the increased power of the media electoral campaigns have become a key focus of political communication research in this important new book an international team of experts critically examines issues of democratic representation in three culturally diverse nations whose governments are elected under systems of proportional representation new zealand germany and italy the authors examine the power plays at work in the development and implementation of proportional representation in their respective countries and they consider the ways in which the electoral system has impacted election

campaign strategies the final chapter by douglas kellner george f kellner philosophy of education chair social sciences and comparative education ucla relates the issue to contemporary politics in the united states by using the 2000 u s presidential election to investigate the ways in which democracy is served and disserved by the electoral system

Justice and the Politics of Difference 2011-09-11

The Politics of the New South Africa 2001

this volume is an edited collection of essays on various aspects of the 2010 kosovo advisory opinion of the international court of justice the main theme of the book is the interplay between law and politics regarding kosovo s independence generally and the advisory opinion specifically how and why did the court become the battleground in which kosovo s independence was to be fought out or not how and why did political arguments in favour of kosovo s independence e g that kosovo was a unique sui generis case which set no precedent for other secessionist territories change in the formal legal setting of advisory proceedings before the court how and why did states supporting either kosovo or serbia choose to frame their arguments how did the court perceive them what did the court want to achieve and did it succeed in doing so and how was the opinion received and what broader implications did it have so far these are the questions that the book hopes to shed some light on to do so the editors assembled a stellar cast of contributors many of whom acted as counsel or advisors in the case as well a number of eminent scholars of politics and international relations whose pieces further enrich the book and give it an interdisciplinary angle the book thus tells the story of the case places it within its broader political context and so attempts to advance our understanding of how such cases are initiated litigated and decided and what broader purposes they may or may not serve

The Radical Middle Class *2003*

this comprehensive text provides a detailed overview of the party system and politics of one of the most powerful states in the international arena noted scholar gerard braunthal surveys the parties in the federal republic of germany and in the german democratic republic after world war ii and in united germany since 1990 by illustrating the cent

The Law and Politics of the Kosovo Advisory Opinion *2015-03-19*

despite the widespread attention attracted by spain s remarkable transition from general franco s repressive dictatorship to a dynamic democracy this is the first comprehensive study in english of the new spanish political system the book introduces the main institutions and features of the contemporary spanish state and assesses to what extent these still bear the imprint of the francoist legacy despite some remaining obstacles and difficulties paul heywood argues the country is now decisively in the political mainstream of the new europe

Parties And Politics In Modern Germany *2019-06-18*

this book originally published in 1982 begins with an examination of space and its role in the process of public provision and collective consumption variations in provision are linked to the weberian notion of social status and political struggles over consumption and externality issues health care and education are considered in spatial contexts and the whole basis of the electoral system is also discussed together with geographic underpinnings in each case emphasis is placed on the jurisdictional organization of space by public bodies the author examines the various examples of spatial cleavages in which political events are redirected by issues such as nuclear power airport location road construction and urban renewal

The Government and Politics of Spain* *1995-08-16

india with its 900 million inhabitants is the world s most populous democracy whose success in sustaining its democratic institutions in the face of deep internal divisions and cleavages makes it of special interest to the student of comparative politics ramesh thakur s new text provides a lively and up to date introduction to the government and politics of india and offers a wealth of empirical detail combined with sophisticated critical analysis it explains the historical legacies that have shaped the structures of indian government and influenced patterns of politics the author describes the network of indian institutions at federal and provincial level and conveys a sense of where power is located how it is used and the constraints on its exercise special attention is devoted to caste religion and regionalism in indian society and to the nature of democratic politics in relation to third world development

The Politics of Location *2015-12-14*

this volume first published in 1973 brings together a wide range of professor landau s work on recent middle eastern history and politics reflecting the breadth of the author s concern and research the first section deals with aspects of political organisation in the middle east largely egypt towards the end of the nineteenth century a little known plan of the islamic reformer al afghani is discussed showing him in a rather more political light than the religious haze which normally surrounds this pan islamic campaigner the role of the influential secret societies in modern egypt is outlined and the politics behind the fluctuations in the degree of responsibility allowed to egyptian ministers is examined this section is concluded by a chapter on two proposals for the establishment of a jewish homeland in the sudan in the early days of zionism throwing interesting light on the differing aims of early zionists and alternative historical paths that might have been taken the second section of the book contains studies on the jewish situation in nineteenth century egypt focusing on their position within the larger muslim society and on socio economic factors as well as on the career of james sanua abu naddara an egyptian jew who played a prominent part in nationalist agitation the two final parts of the book turn to recent and contemporary electoral politics in the middle east with special attention being paid to the political leadership and voting behaviour of the arabs in israel other studies deal with elections in lebanon and turkey and the final chapter analyses the militant right wing elements in the turkish political spectrum

The Government and Politics of India 1995

this timely book surveys political change in postcommunist europe it concentrates on the western periphery of the former soviet empire and covers the countries of four regions east central europe poland the czech republic slovakia and hungary the balkans bulgaria romania slovenia croatia the third yugoslavia macedonia and albania the baltic rim lithuania latvia and estonia and eastern europe belarus and ukraine the book charts the changes in each of these countries it provides a brief overview of the history and communist legacy of each country then reviews the new constitutional framework the principal political parties and their orientation the direction and scope of economic reform and the foreign and security policies throughout it evaluates the extent and direction of postcommunist transformation in each country and its prospects for becoming a viable member of the new european order by its concentration on the actual elements of the emerging political systems and its currency this is essential reading for students and scholars of eastern europe and contemporary international affairs patrons of public and school libraries will find it an important resource as well

Middle Eastern Themes *2015-07-24*

religion and politics in the united states fifth edition offers a comprehensive account of the role of religious ideas institutions and communities in american public life while maintaining that religion is too politically potent to be left out or consigned to the margins in accounts of american politics wald and calhoun brown also argue against the common tendency to treat religion as the dominant force in politics today early topics include the nature and persistence of religion in the united states its contribution to the founding and the continuing debate over the role of religion in government and law following a discussion of how religious factors encourage political action the book concludes by discussing basic political attitudes and behavior among members of mainstream american religious traditions and minority religious communities defined by ethnicity race gender and sexual orientation the new edition greatly expands coverage of various religious minorities with a new chapter on politics and religion among african americans latinos muslim americans latter day saints mormons and other faith traditions there is larger focus on how religion influences the politics of local communities

The Government and Politics of Postcommunist Europe 1994-05-30

more urgent than ever two landmark essays by the legendary political theorist on the greatest threat to democracy gathered with a new introduction by david bromwich no one hannah arendt observed has ever counted truthfulness as a political virtue but why do politicians lie what is the relationship between political lies and self delusion and how much organized deceit can a democracy endure before it ceases to function fifty years ago the century s greatest political theorist turned her focus to these essential questions in two seminal essays brought together here for the first time her conclusions delivered in searching prose that crackles with insight and intelligence remain powerfully relevant perhaps more so today than when they were written in truth and politics arendt explores the affinity between lying and politics and reminds us that the survival of factual truth depends on the testimony of credible witnesses and on an informed citizenry she shows how our shared sense of reality the texture of facts in which we wrap our daily lives can be torn apart by organized lying replaced with a fantasy world of airbrushed evidence and doctored documents in lying in politics written in response to the release of the pentagon papers arendt applies these insights to an analysis of american policy in southeast asia arguing that the real goal of the vietnam war and of the official lies used to justify it by successive administrations was nothing other than the burnishing of america s image in his introduction david bromwich american breakdown the trump years and how they befell us engages with arendt s essays in the context of her other writings and underscores their clarion call to take seriously the ever present threat to democracy posed by lying

Religion and Politics in the United States 2007

deadlock and disillusionment american politics since 1968 is an insightful consideration of the events people and policy debates that have shaped and continue to influence even control the current political era rejects conventional wisdom that the dominant force shaping recent american politics in the last half century has been the rise of the right considers the achievements and frustrations of each administration from nixon to obama in its assessment of contemporary u s politics features authorship by an expert scholar in the field who takes a thematic rather than a partisan approach to recent american politics offers a concise comprehensive and thoroughly up to date synthesis of the literature in the field and concludes with a comprehensive bibliographical essay an aid to student research

On Lying and Politics 2022-09-06

intense interest in past injustice lies at the centre of contemporary world politics most scholarly and public attention has focused on truth commissions trials lustration and other related decisions following political transitions this book examines the political uses of official apologies in australia canada new zealand and the united states it explores why minority groups demand such apologies and why governments do or do not offer them nobles argues that apologies can help to alter the terms and meanings of national membership minority groups demand apologies in order to focus attention on historical injustices similarly state actors support apologies for ideological and moral reasons driven by their support of group rights responsiveness to group demands and belief that acknowledgment is due apologies as employed by political actors play an important if underappreciated role in bringing certain views about history and moral obligation to bear in public life

Deadlock and Disillusionment *2016-04-04*

this book engages with politics and political discourse that relate to and qualify immigration in europe it brings together empirical analysis of immigration both topically and contextually and interprets such empirical evidence with the use of policy and discursive analyses as methodological tools thematically this volume focuses on how discourse and politics operate in issue areas as varied as immigrant integration and multilevel governance roma immigration and their respective securitization the uses of language in determination of asylum applications gendered immigrants in informal economy perceptions of integration by the migrants economic interests and economic nationalism stimulating immigration choices ideology and entry policies and asylum processes and the institutional evolution of immigration systems these issues are analyzed with empirical evidence investigating the discursive formulation of immigration systems in political contexts such as the netherlands france united kingdom turkey switzerland scandinavian states and finland

The Politics of Official Apologies *2008-01-28*

tony blair has often said that he wishes history to judge the great political controversies of the early twenty first century above all the actions he has undertaken in alliance with george w bush this book is the first attempt to fulfill that wish using the long history of the modern state to put the events of recent years the war on terror the war in iraq the falling out between europe and the united states in their proper perspective it also dissects the way that politicians like blair and bush have used and abused history to justify the new world order they are creating many books about international politics since 9 11 contend that either everything changed or nothing changed on that fateful day this book identifies what is new about contemporary politics but also how what is new has been exploited in ways that are all too familiar it compares recent political events with other crises in the history of modern politics political and intellectual ranging from seventeenth century england to weimar germany to argue that the risks of the present crisis have been exaggerated manipulated and misunderstood david runciman argues that there are three kinds of time at work in contemporary politics news time election time and historical time it is all too easy to get caught up in news time and election time he writes this book is about viewing the threats and challenges we face in real historical time

The Discourses and Politics of Migration in Europe *2013-07-31*

emphasizing the relevance of politics and government in everyday life we the people seventh edition continues to provide tools to help students think critically about american government and politics

The Politics of Good Intentions* *2006-01-22

this book explores and analyzes how the arab spring has affected the political and economic relationships between the west the brics brazil russia india china and south africa and the mena middle eastern and north african states it locates continuity and change in these relations within the broader context of democratization energy security arms relationships and the shift towards a multi polar system each chapter charts a history of ideological engagement which has generally given way to more pragmatic energy

economic and security interests and defines and analyzes the fundamental and emerging factors that shape foreign policy the volume pays special attention to the UN Security Council authorization of all necessary measures against Qaddafi's Libya and the subsequent deadlock in getting China and Russia to pass further resolutions for intervention in Syria

Pressure Groups and Politics of Influence *1997*

In the 1960s when students everywhere were coming alive politically and when the Latin American student activist in particular became as archetypal of radicalism as the Latin American dictator was of repression Puerto Rican students remained strangely silent with the exception of FUPI a radical student group with only a small following student political behavior conformed to that of Puerto Rican society in general center to conservative historically Puerto Rico has been economically and politically dominated first by Spain and then by the United States but unlike other colonial dependencies in Latin America Puerto Rico has never rebelled Puerto Rican politics centers on the status issue independence statehood or association for the island but no legendary victories no heroic defeats offer a battle cry for nationalists leftists and independistas overwhelming foreign influence in the church the schools the economy and eventually the mass media deprived the island of any strong indigenous institutions that might foster nationalism militancy lies outside the mainstream of Puerto Rican tradition against this historical and cultural backdrop Arthur Liebman closely examines the social background and political activity of students at the Rio Piedras campus of the University of Puerto Rico based on personal interviews with students faculty and administrators as well as on a survey of the student body his study reveals the strength of political inheritance among university students in Puerto Rico the student left is small and weak largely because the left of the parents generation is small and weak to date Puerto Rican students have been the children of their parents and of their society within a university that emphasizes practicality the nonmilitant majority of the students study education business engineering and medicine being trained to participate in and to reap the rewards of the status quo student leftists in the minority generally study history economics sociology and law fields that open wider perspectives on their society and its problems and offer no immediate guarantee of its benefits brighter less religious and more dissatisfied with their role as a student the student leftists stand apart from their cohort at the University of Puerto Rico like their adult counterparts they are an anomaly in an acquisitive relatively conservative society

We the People *2009*

Over the last 20 years change in China has been breathtaking reform has affected every facet of life and has left no policy and institution untouched how did China move from being one of the most isolated nations to being a major international player written by a leading expert who has also lived and worked in China this major new textbook provides a thorough introduction to these changes and to all aspects of politics and governance in China from the revolution of 1949 to the present day

The International Politics of the Arab Spring *2014-12-04*

Examining political and socioeconomic change in the Yemen Arab Republic Yar this book first published in 1987 focuses primarily on the quarter century following the overthrow of the Imamate in 1962 the problems and politics of the period's republican leaders and their regimes are analysed against the backdrop of Yemen's traditional Islamic theocracy the Zaydi Imamate which ruled for over a millennium a country very similar to Afghanistan in its mountainous terrain tribal social organization and traditional Islamic culture the Yar was almost completely isolated and insulated from the modern world and modern politics until the ousting of the Imamate this book explores in detail

the processes of change the political leaders involved and the impact of domestic and external forces dr burrowes draws on his extensive conversations with yar leaders to provide a unique view of a country trying to cope with change and modernization
