## ***Encyclopedia of Law Enforcement***

2005

all americans should welcome the opportunity to move forward into a better future for america and for all americans while mending ancient wounds from the nations original sin and at the same time seek to remediate the lingering ills and inflicted hardships still present to this day that divides the nation s people such that some americans still feel relegated to second class citizenship courageous people of all faiths of goodwill and of conscience can impart heartfelt support for a new emancipation that moves toward freeing both black and white americans from the racial disharmony and acrimony that surrounds the issue of racial discrimination in america it is now possible to seek a new direction that promotes self reliance and economic progress from within the black community by redirecting black earned resources through black individuals not through the endless ineffective government programs and bureaucracies it has been more than half a century since the civil rights act of 1964 outlawed the racial discrimination and segregation that persists to this day and the government has clearly failed to abate such daily pathologies government poverty and affirmative action programs have not reduced the racial wealth gap that remains virtually unchanged since 1964 the black middle class suffers from consistently higher unemployment rates while also being burdened with increasing high student loan debt and home mortgage debt that reduces the opportunity for home ownership and family net worth growth president john f kennedy in a 1961 speech repeated the time worn saying that the only thing necessary for the triumph of evil is that good men do nothing this book suggests a new direction of self reliance and hope with a new emancipation proclaimed for all americans if only there is finally the will to put the nation s dark past behind us and move out of the shadows and into the sunlight of a just and moral new future

cop doc s guide to public safety complex trauma syndrome is written in response to the need for an advanced specialized guide for clinicians to operationally define understand and responsibly treat complex post traumatic stress and grief syndromes in the context of the unique varieties of police personality styles the book continues where rudofossi s first book working with traumatized police officer patients left off theory is wed to practice and practice to effective interventions with police officer patients the how and why of a clinician s approach is made highly effective by understanding the distinct personality styles of officer patients rudofossi s theoretical approach segues into difficult examples that highlight each officer patient s ecological field experience of loss in trauma with a focus on enhancing resilience and motivation to otherwise left disenfranchised thus this original work expands the ecological ethological existential analysis of complex ptsd into the context of personality styles with an emphasis on resilience without ignoring the pathological aspects of loss that often envelop officer patient trauma syndromes
