nikon d70s camera review 2023 digital cameras world Feb 12 2023

pros high image quality the nikon d70s delivers excellent quality photos with good detail and clarity thanks to its 6.1 megapixel resolution and powerful image processing engine fast performance the d70s is capable of capturing photos quickly even in burst mode which is useful for photographers who need to capture fast moving subjects

nikon d70 review digital photography review Jan 11 2023

the d70 is revealed by nikon exactly two years since the d100 the d70 appears to share quite a lot with its sibling

including a six megapixel ccd sensor and multi cam900 auto focus system the d70 also appears to have quite a bit going for it which are the primary complaints for eos 300d owners flash exposure compensation being one of them
