Yoni Massage

2009-03-02

a tantric massage practice for awakening and enhancing women's innate sensual, emotional, and spiritual energies provides emotional healing by releasing traumatic memories stored in the yoni. It includes exercises that use sexual energy to cleanse and stimulate the chakras, empowers women to draw strength and radiant vitality from the restored connection to their innermost core. Yoni is the Sanskrit word for the female genitalia, describing not only the anatomy but also encompassing the energetic and spiritual dimensions. While a yoni massage offers women the opportunity to enhance their sexuality, Michaela Riedl shows that the effects of this practice are much more profound and have ramifications affecting every area of life. Long-held inhibitions in the West about sexuality and the shame and guilt associated with the sexual zones of the body have created deep-seated barriers that prevent individuals from fully expressing themselves. The practices provided in yoni massage are designed to allow women to overcome these barriers and reconnect to their innermost core and deepest feminine nature. Yoni massage is not simply a hands-on technique but involves the conscious direction of energy throughout the body through deep breathing and visualization. It provides women the ability to cleanse and energetically stimulate the chakras as well as achieve emotional healing by releasing the traumatic pain that often becomes seated in the yoni. The author explains that the relegation of this important spiritual and energetic center to a private part hinders the process of enlightenment. Once women are able to be in touch with their yoni energy, their connection to the entire web of life is restored to its rightful place.

psst my clitoris has written a book excuse me your what has done what and what s it called i clitoris are you kidding the autobiography of a woman s sexual organ who would even think of reading something so weird let alone writing it well remember vagina monologues remember how liberating it was to listen to all those women talk about their vaginas this is different it s a kind sexual re education for women the kind of education that can only come from the clitoris because only the clitoris knows what it s like to be the only organ in all biology whose sole purpose is pleasure i clitoris will help you to empower yourself not necessarily as the love goddess of the millennium but as a real woman one who knows her sexual self enough to share herself with dignity passion and intelligence but only when she chooses if you are a mother wondering how to talk sensitively to your daughter about teen pregnancy and sexual desire and how confusing it is to feel all that stuff let alone talk about it you probably want to first read this yourself and then share it with her if you are a woman recovering from sexual abuse in a world where female violation is globally rampant and has been for centuries you will get some unique and profound not to mention fun and pleasurable techniques for starting the process of healing yourself enough that you can enjoy healthy intimate relationships again or maybe for the first time ever spoiler alert true sexual healing is not about talking if you are a guy wondering what is going on in the opposite sex apart from what you thought you had found out from online porn this book will offer you some very different insights about what it might be like to be a woman i clitoris will make you reconsider what lies between your thighs in ways mostly sacred and sometimes playfully profane it offers you a chance to see yourself in a whole new way oh and it is written as a kind of poem hand illustrated and totally unlike any sex education book you ever even dreamed of definitely weird
