Operations Research 2012 though many separation processes are available for use in today's analytical laboratory chromatographic methods are the most widely used the applications of chromatography have grown explosively in the last four decades owing to the development of new techniques and to the expanding need of scientists for better methods of separating complex mixtures with its comprehensive unified approach this book will greatly assist the novice in need of a reference to chromatographic techniques as well as the specialist suddenly faced with the need to switch from one technique to another

Advertising Principles and Practice 2000 for introductory courses in advertising offered in marketing and journalism departments everyone has experienced memorable advertising the ad or jingle that stays in your mind but memorable advertising may not sell products or build market share it may not be effective advertising in these days of accountability clients are asking that advertisers create advertising that meets measurable goals the challenge with teaching advertising by taking theory and applying it to what is going on in advertising agencies is that companies have always been very guarded about goals and measures advertising principles and practice has lifted the veil by focusing on effie award winners advertising campaigns that have won awards for their effectiveness from the american marketing association of new york these effie award winners reveal client goals and how these goals were reached no other book takes theory and shows students how it is applied today to produce effective advertising advertising that works
