**The Aging Networks, 8th Edition** 2014-12-10 this book provides a comprehensive and systematic state of the science review of major primary care delivery models how they address specific needs of older adults and available evidence for their efficacy written by experts in the field this book explores the patient centered medical home model pcmh in depth and dives into the complexities of the medical neighborhood it describes and analyzes primary care specifically directed toward special complex populations such as the health home for safety net patients with mental health needs and intensive primary care for older adults it reviews an array of primary care models related to dual eligible patients including the grace primary care consultation model and pace models it describes primary care with advanced practice nurses and physician assistants and explores in depth the massive effort within the va to develop the patient activated care team pact a va form of the pcmh that also has several offshoots that address complex older veterans and veterans with severe mental illness finally it illuminates rarely discussed primary care that occurs within the home and within long term care throughout the entire book experts navigate the workforce care quality and financing challenges of primary care for older adults primary care for older adults is a valuable resource for clinicians researchers patients caregivers and their advocates and policy makers who have an interest in designing promoting and implementing high quality primary care for older adults

Health Promotion for the Elderly 2000 the first comprehensive exploration on the subject of older men older men s lives offers a multidisciplinary portrait of men and their concerns in later life using both a life course and gendered perspective the contributors to this collection of original articles point out that the image and self image of men are continuously reconstructed over the life cycle they examine older men s position in society and the changes wrought in their status and roles over time their relationship with their spouses children grandchildren and friends are also explored as are policy implications of a gendered life cycle view of masculinity this volume also discusses faith development in older men masculinity identity from work to retirement older men s sexuality and older men s friendship patterns older men s lives will be of interest to professionals and students interested in gender men s studies gerontology and sociology this book begins to remedy the lack of information and provides data and research on aging men the strength of this book is the specificity of its focus by focusing solely on male concerns the book is able to identify issues in the male aging process and discuss them on their own terms rather than simply as a contrast to females clinical gerontologist

**Beat Depression to Stay Healthier and Live Longer** 2016-02-04 the number and percent of older people in developed countries continue to grow thanks to medical advances and decreases in fertility and mortality rates and that means that tomorrow s recreation and leisure professionals will be more challenged than ever to meet the needs of an increasingly older culturally diverse population leisure and aging theory and practice provides students and professionals with a balanced perspective of current knowledge as it presents cutting edge research from the fields of both gerontology and leisure studies written by authors from various disciplines who represent an international who s who in leisure and aging research this text explores theories in leisure and aging bridges the gap between research and application arming professionals with tools to navigate diverse cultures and offers insight into delivery of leisure services in older adult communities and long term care environments each chapter features learning objectives study questions case studies exercises and relevant readings the book is supplemented by online ancillaries including an instructor guide test package and a presentation package with photos illustrations and tables from the text together the text and online ancillaries help students connect theories and practice as they prepare for future roles in their chosen fields leisure and aging is presented in five sections part i introduces global perspectives on leisure and aging while part ii examines the relevance of leisure in an aging context part iii explores the effects of aging on physical psychological social and spiritual well being and health parts iv and v

delve into the role of community in aging and leisure and long term care and leisure written for undergraduate students professors and professionals in recreation leisure gerontology and aging leisure and aging provides a wealth of knowledge on various aspects of life for older people and the role of leisure in their lives the text helps students think critically about a phase of life that seems remote from their own and provides perspective to their understanding of aging and leisure

**Well-being Resource for Older Americans** 1992 understand the sequential stages in the aging process a journey called aging challenges and opportunities in older adulthood presents an insightful exploration of the years between the entry into older adulthood and death this text examines the significant changes and major landmarks of older persons between 60 and 90 grounded by a developmental framework based on empirical research this book presents a new way of looking at older adulthood describing the older adult years in intensely human terms through both anecdotes and research based findings to engage the reader as both guide and traveler using a series of sequential stages as a framework a journey called aging challenges and opportunities in older adulthood discusses the experiences of older adults addressing the challenges and opportunities presented at each stage this clear analysis can be used as a guide to help persons plan their own odyssey through the older years topics in a journey called aging challenges and opportunities in older adulthood include research and results of the study entering older adulthood the long stable stage of extended middle age early transition older adult lifestyle later transition the stable stage near the end of life the final transition a journey called aging challenges and opportunities in older adulthood is crucial reading for professionals who work with older adults including pastors attorneys facilities managers and program directors gerontology educators and students and older adults themselves their families and those who care for and about them

The Merck Manual of Health & Aging 2005-12-27 first published in 1996 the incidence of hiv aids in society has reached epidemic levels people of all ages are contracting the disease and with the advances in medication and treatment those with the disease are living longer this book discusses the unique issues facing older adults with hiv aids and addresses living with the disease

Primary Care for Older Adults 2017-10-03 the past few years have witnessed widespread acceptance of the notion that few elderly individuals are willing to stand by silently in the process of growing and to relinquish whatever actual controls autonomy or control beliefs they had in the past increasingly old age is viewed as the dynamics of growth in mastery control and self efficacy on the one hand and a relative decline in psychological and physical resources on the other it is the intent of this volume to communicate both aspects of these changes and to offer a comprehensive review of the cross fertilization of the field of gerontology and the psychology of reactance freedom and control leading psychologists and social science researchers from the united states canada and europe give their views on the meaning and application of control related constructs having specific implications for the field of human aging they address themselves to one or more of the major themes issues or concerns which currently figure in discussions of control beliefs and control constructs as they apply to aging and old age written primarily for scholars researchers and developmental theorists interested in the complexities and generativity of control constructs and their applications for the psychological well being of older adults the data and issues presented will be equally informative to gero psychologists and mental health professionals concerned with healthy adaptive functioning of the elderly

**Older Men's Lives** 1994-06-07 first published in 1990 routledge is an imprint of taylor francis an informa company

**CareWise for Older Adults** 1996-06 this book treats the implications of productive aging as challenges it combines the theories of gerontology with practical considerations and acknowledging the contributions of leading researchers in the field of aging as baby boomers are aging they can hope to maintain a quality of life that previous generations have not enjoyed *A Professional's Guide to Older Adults' Life Review* 1988 the first three chapters of this book contain gerontological information concerning the aging process demographics changes in the style of living of aging persons and vulnerabilities encountered this volume explicates fundamental beliefs in the need for active engagement socially physically cognitively and emotionally

**Leisure and Aging** 2011-12-12 the authors of these papers vary in age nationality and professional background they share a belief that all too often older people are not treated justly or fairly and also a belief that this is particularly true with regard to a proper respect for their

dignity as people and a proper allocation of medical and social resources their papers in various ways give evidence as to what is happening and arguments based on philosophical ethics as to why it is wrong the authors also have a range of proposals backed by argument and evidence and drawing on factual material as well as philosophical argument as to what could be done to improve the situation this is a book for anyone whether themselves elderly looking after an older person professionally involved in working with older people or simply realising that one day they will be old who wants to learn about what is wrong with the present situation and how it might be made better

**A Journey Called Aging** 2007 this book examines the long term consequences of improvements in life expectancy in the mid 20th century which are partly responsible for the growth of the elderly population in the developing world rapid demographic changes in child and infant mortality due to the reduction in and better treatment of disease were not often accompanied by parallel increases in standard of living lower mortality led to greater survival by those who had suffered poor early life conditions as a consequence the early life of these survivors may explain older adult health and in particular the projected increase in adult health disease and diabetes recent dietary changes may only compound such early life effects this study presents findings from historical and survey data on nearly 147 000 older adults in 20 low middle and high income countries which suggest that the survivors of poor early life conditions born during the 1930s 1960s are susceptible to disease later in life specifically diabetes and heart disease as the evidence that the aging process is shaped throughout the entire life course increases this book adds to the knowledge regarding early life events and older adult health

*HIV & AIDS And The Older Adult* 2020-04-14 the role of measurement and the benefits of outcome measures are defined as important tools used to document change in one or more constructs over time help to describe a client s condition formulate a prognosis as well as to evaluate the effects of occupational therapy intervention occupational therapy assessments for older adults 100 instruments for measuring occupational performance presents over 100 outcome measures in the form of vignettes that encompass a brief description of each instrument a review of its psychometric properties its advantages and disadvantages administration procedures permissions to use author contact information as well as where and how to procure the instrument occupational therapy assessments for older adults by dr kevin bortnick narrows down the list of possible choices for the occupational therapy student or clinician to only those with an amount of peer review bibliographic citations as well as acceptance within the profession the text also includes research based information with text citations and has over 100 tables diagrams and figures included in the review of each outcome measure description a brief record of the measure psychometrics a review of the level of research evidence that either supports or does not support the instrument including such items as inter rater intra rater and test retest reliabilities as well as internal consistencies and construct validities among others advantages synopsis of the benefits of using the measure over others including its unique attributes disadvantages a summary of its faults for example the amount of research evidence may be limited or the measure may be expensive administration information regarding how to administer score and interpret results permissions how and where to procure the instrument such as websites where it may be purchased or journal articles or publications that may contain the scale summary a brief summation of important information occupational therapy assessments for older adults 100 instruments for measuring occupational performance encourages occupational therapy and occupational therapy assistants to expand their thinking about the use of appropriate outcome measures with older adult populations using the appropriate outcome measure based on evidence can aid in the promotion of health well being and participation of clients

**Psychological Perspectives of Helplessness and Control in the Elderly** 1988-12-01 provide a comfortable living environment for the aging aging in place designing adapting and enhancing the home environment gives you a complete examination of current trends in adaptive home designs for older adults as a therapist designer architect builder home planner social worker community organizer or gerontologist aging in place will show you innovative home designs and studies for creating environments that offer optimal living for aging adults complete with diagrams floor plans and tables aging in place helps you to improve the quality of life for the elderly by offering them state of the art designs that encourage independence and dignity this unique and exciting book covers topics such as universal design which strives to create everyday environments and products like door handles and light switches that are usable by all people to the greatest extent possible regardless of age or ability aging in place will also show you how

to use follow up visits by occupational therapists to ensure successful use of home modifications create environments that are helpful for vision rehabilitation by using controlled lighting and color schemes evaluate the quality of life for elderly people living in personal dwellings specialized housing and nursing homes explore architectural barriers and the uses of helping devices for elderly people examine research critiques of adaptive toilet equipment investigate modifications that have been made in homes for the elderly in india analyze ways in which elderly people have changed their homes to make the telephone more accessible aging in place is a complete guide to understanding the needs and latest trends in optimizing the living space of elderly persons the book gives you access to several studies on elderly people s environmental needs and preferences in regard to modifications in personal and public dwellings this information will assist you with better serving the elderly by helping them live more independently

Introduction to Educational Gerontology 1990 should benefits for older people be based on age or need do programmes that serve only older people people deflect resources that should go to other people some of the contributors to this volume argue that social service programmes should be based on need rather than defined groups of people apart from anything else age based programmes confirm negative stereotypes of older people and lump them into an undifferentiated group but would the reform of social services along these lines jeopardize the recent progress made in the condition of older people new thoughts and new information are provided in support of both arguments here is a ringside seat at a critical juncture in the social reconstruction of old age *Productive Aging* 2001-04-27 covering epidemiology evidence based risk assessment and falls prevention strategies this book will be invaluable to all involved with health care of the elderly

Recreational Services for Older Adults 2002-10-01 praise for the eighth edition this small volume is not only an excellent learning tool but also a must have handbook for aging professionals in many fields noeren a shugrue research associate university of connecticut center on aging farmington ct educational gerontology this classic text more relevant than ever as our population rapidly ages delivers comprehensive and up to date knowledge about aging services in the u s written for both students and practitioners of gerontology along with all professionals involved in the well being of older adults this highly accessible book provides a current and detailed description and analysis of local to global services for older people with or without cognitive physical or social needs the ninth edition is updated to reflect critical changes to legislation health care and recent trends it focuses on the strengths and diversity of older adults and the role our multilayered aging networks play in advocacy community independence and engagement commentary and critical thinking challenges from policymakers program directors and educators facilitate high level reasoning and independent analysis of aging networks past present and future the ninth edition also offers enhanced resources including a test bank instructor s manual powerpoint slides and links to video additionally the print version of the book includes free searchable digital access to the entire contents new to the ninth edition fully updated to reflect historical context recent trends and challenges and future considerations addresses the effects of our current political and ideological landscape on aging networks including a call to action examines the current status of medicare and medicaid meals on wheels and the impact of the aca discusses long term services and supports disaster preparedness and climate change caregiving as a human right and lgbtq services and support presents new case studies providing evidence based best practice initiatives and new innovations delivers enhanced instructor resources including test bank instructor s manual power point slides and video links key features focuses on the strengths of older adults and the role our multilayered aging networks play in advocacy community independence and engagement provides commentary and critical thinking challenges from policy makers program directors and educators to facilitate high level analysis addresses changing demographics and future challenges offers voices from the field boxes and critical thinking topics and questions to encourage reflection and discussion

Justice for Older People 2012-01-01 aging in the designed environment is the key sourcebook for physical and occupational therapists developing and implementing environmental designs for the aging the physical environment remains one of the most overlooked areas in environmental design in order to move beyond this status quo persons responsible for planning elderly environments must develop a new understanding of ways in which their influence can improve the older adult s physical and mental functioning occupational and physical therapists as well as other health care professionals will benefit tremendously from the information presented in this unique volume

designers developers and others with minimal health care background will also find a wealth of possibilities within aging in the designed environment many concerns are dealt with in the book s five sections the first section describes the implications that occur when there are changes in vision hearing taste smell touch and the kinesthetic systems recommendations for environmental adaptation and modifications which may compensate for the changes in each of these systems are suggested the second section stresses the relationship between behavior and environment a variety of environmental attributes comfort privacy accessibility control security dignity and their impacts are discussed along with information on ways that attributes can be incorporated into the living settings of older people in section three the focus is on the older person living independently in his or her own home and section four covers exclusively the design and selection of chairs for older adults new ways to assess and evaluate the home to promote independence beyond the traditional activities of daily living are addressed the last section deals with redesigning the existing long term care facility the author examines some of the environmental conditions existing in specific facilities and provides recommendations to compensate for these circumstances
