Department of Defense Appropriations for 1971 1970 standard operating procedure is an utterly original collaboration by the writer philip gourevitch we wish to inform you that tomorrow we will be killed with our families and the film maker errol morris the thin blue line the fog of war they have produced the first full reckoning of what actually happened at abu ghraib standard operating procedure reveals the stories of the american soldiers who took and appeared in the haunting digital snapshots from abu ghraib prison that shocked the world and simultaneously illuminates and alters forever our understanding of those images and the events they depict drawing on more than two hundred hours of errol morris s startlingly frank and intimate interviews with americans who served at abu ghraib and with some of their iraqi prisoners as well as on his own research philip gourevitch has written a relentlessly surprising account of iraq s occupation from the inside out rendering vivid portraits of guards and prisoners ensnared in an appalling breakdown of command authority and moral order gourevitch and morris have crafted a nonfiction morality play that stands to endure as essential reading long after the current war in iraq passes from the headlines by taking us deep into the voices and characters of the men and women who lived the horror of abu ghraib the authors force us whatever our politics to re examine the pat explanations in which we have been offered or sought refuge and to see afresh this watershed episode instead of a few bad apples we are confronted with disturbingly ordinary young american men and women who have been dropped into something out of dante s inferno this is a book that makes you think and makes you see an essential contribution from two of our finest nonfiction artists working at the peak of their powers
