Uncanny Bodies

2019-12-10

in 1931 universal pictures released dracula and frankenstein two films that inaugurated the horror genre in hollywood cinema these films appeared directly on the heels of hollywood s transition to sound film uncanny bodies argues that the coming of sound inspired more in these massively influential horror movies than screams creaking doors and howling wolves a close examination of the historical reception of films of the transition period reveals that sound films could seem to their earliest viewers unreal and ghostly by comparing this audience impression to the first sound horror films robert spadoni makes a case for understanding film viewing as a force that can powerfully shape both the minutest aspects of individual films and the broadest sweep of film production trends and for seeing aftereffects of the temporary weirdness of sound film deeply etched in the basic character of one of our most enduring film genres

The Cinema of Preston Sturges

2010-08-05

most published works on writer director preston sturges 1898 1959 have focused on the elements that made him a symbol of classic hollywood comedy or his contributions to the genre via such 1940s classics as the lady eve sullivan s travels and miracle of morgan s creek in contrast this critical study asserts that there are enough unexplained incongruities fragmentations and contradictions in sturges output to demand a re evalution of his place in film history as a predecessor and perhaps progenitor of later postmodern filmmakers four appendices offer a generous selection of previously unavailable material including an exclusive interview with the director s fourth wife sandy sturges

Scripted Affects, Branded Selves

2012-09-15

in scripted affects branded selves gabriella lukács analyzes the development of a new primetime serial called trendy drama as the japanese television industry s ingenious response to market fragmentation much like the hbo hit sex and the city trendy dramas feature well heeled young sophisticates enjoying consumer oriented lifestyles while managing their unruly love lives integrating a political economic analysis of television production with reception research lukács suggests that the trendy drama marked a shift in the japanese television industry from offering story driven entertainment to producing lifestyle oriented programming she interprets the new televisual preoccupation with consumer trends not as a sign of the medium s downfall but as a savvy strategy to appeal to viewers who increasingly demand entertainment that feels more personal than mass produced fare after all what the producers of trendy dramas realized in the late 1980s was that taste and lifestyle were sources of identification that could be manipulated to satisfy mass and niche demands more easily than could conventional marketing criteria such as generation or gender lukács argues that by capitalizing on the semantic fluidity of the notion of lifestyle commercial television networks were capable of uniting viewers into new affective alliances that in turn helped them bury anxieties over changing class relations in the wake of the prolonged economic recession

Play and the Human Condition

2008

in play and the human condition thomas henricks brings together ways of considering play to probe its essential relationship to work ritual and communitas focusing on five contexts for play the psyche the body the environment society and culture henricks identifies conditions that instigate play and comments on its implications for those settings offering a general theory of play as behavior promoting self realization henricks articulates a conception of self that includes individual and social identity particular and transcendent connection and multiple fields of involvement henricks also evaluates play styles from history and contemporary life to analyze the relationship between play and human freedom imaginative and stimulating play and the human condition shows how play allows us to learn about our qualities and those of the world around us and in so doing make sense of ourselves

The Epic in Film

1996-02

in the epic in film constantine santas argues that blockbuster and artistic are not mutually exclusive terms and perhaps more importantly that epic film is an inherently profound genre in its ability to tap into the dreams and fears of a nation and sometimes those of the human race why do we see dozens and dozens of films based on the king arthur legend why would a presidential hopeful borrow the phrase read my lips from clint eastwood s dirty harry why do war epics proliferate in times of war or national crisis why are epics as a whole the most popular movie genre whether you love gone with the wind and hate troy find akira kurosawa s films brilliant or marvel over the depth of the matrix trilogy if you re a film buff you will want to read this first book length treatment of the epic a wildly popular infinitely fascinating and critically

The Image of Celestina

2014-08-13

la celestina a spanish literary masterpiece second only in importance to don quixote in spanish literature has been shaped by the inclusion of images from its very first

edition in 1499 the subsequent five centuries were punctuated by many illustrated editions imaginary portraits of the eponymous procuress celestina by painters such as murillo goya and picasso and more recently screen and stage adaptations celestina became the prototype from which later representations of procuresses and bawds derived the image of celestina sheds light on the visual culture that developed around la celestina including paintings illustrations and advertisements enrique fernández examines la celestina as a mixed media text incorporating methods from disciplines such as art history and women s and cinema studies and considers a variety of images including promotional posters lobby pictures and playbills of theatrical and cinematic adaptations of the book using a visual studies approach the image of celestina ultimately illuminates the culture of celestina a mythical figure who surpasses the literary text in which she originated
