Tropical Fish Hobbyist

1992

this book transfers the newest service research concepts such as value co creation to family forestry context the book is aimed at as learning material for higher education students in western economies and as a handbook for forest scientists worldwide it has a strong theoretical base but also a practical orientation with examples of novel forest services from different regions and contexts the five parts of the book are i conceptualization of service approaches in family forestry ii market and policy environment iii public service and business innovations iv communication cooperation and organizations for services and v transitions governance each part begins with a chapter that is more conceptual and thus sets the stage for the subsequent chapters which then focus on a regional perspective or some more specific theme under the part's coverage

Freshwater and Marine Aquarium

1992

essentials of psychology introduces contemporary psychological research and caters to the varied needs of students and instructors the book is composed of 14 basic chapters which provide comprehensive coverage of theories and research within each of the traditional areas of psychology chapters are dedicated to topics that discuss the major divisions of psychology the physiological basis of behavior the ways people change and the ways they stay the same over time personality and behavior assessment and treatment of psychological problems psychologists students and teachers of psychology will find this textbook very invaluable
