we are in a real sense our stories who we are what we think and how we

act are all shaped by the many large and small stories that make up the discourse embedded in our multi sensory social experience it is this postmodern understanding of identity and reality that has prompted the authors to fashion a new way of thinking about doing research in faith communities today particularly through a doctor of ministry program it is our belief that in order for faith communities to define themselves and to know what to do in ministry they must first understand the multiple stories which intersect with a given ministry situation in their specific context

the fantastic in religious narrative from exodus to elisha argues that perspectives drawn from literary critical theories of the fantastic and fantasy are apt to explore hebrew bible religious narratives the book focuses on the narratives marvels monsters and magic rather than whether or not the stories depict historical events the exodus narrative ex 1 18 and a selection of additional hebrew bible narratives num 11 14 judg 6 8 1 kings 17 19 2 kings 4 7 are analysed from a fantasy theoretical perspective the fantasy perspective helps to make sense of elements of these narratives that although prominently featured in the stories have previously often been explained by being explained away these case studies can illuminate hebrew bible religion and offer wider perspectives on religious narrative generally in light of the fantasy theoretical approach these hebrew bible stories with the exodus narrative at the centre read not as foundational stories affirming triumphantly and unambiguously the bond between the deity his people and their territory but rather as texts that harbour and even actively encourage ambiguity and uncertainty not necessarily prompting belief orientation and a sense of meaningfulness but also open ended reflection and doubt the case studies suggest that other religious narratives both in and beyond the judaic tradition may also be amenable to interpretation in these terms thus questioning a dominant trend in myth studies the results of the analyses lead to a discussion of the role of ambiguity uncertainty and transformation in religious narrative in broader perspective and to a questioning of the emphasis in the study of religion on the capacity of religious narrative for founding and maintaining institutions orienting identity and defending order over disorder the book suggests the wider importance of incorporating destabilisation disorientation and ambiguity more strongly into theories of what religious narrative is and does
