most up to date and important cases dealing with professional negligence arising in a wide range of professions from surveyors and estate agents to doctors solicitors and accountants over the past twenty years the volume of international litigation and arbitration has increased exponentially as the number of new international courts and tribunals has proliferated the diversity and volume of advocates appearing before the international courts has also increased with this increase the ethical standards that apply to counsel have become a growing field of interest to practitioners of public international law problems threatening the integrity of the international judicial process and concerns about divergent ethical standards amongst counsel have multiplied in the international judicial system prompting early attempts by senior members of the international bar to articulate common ethical standards professional ethics at the international bar examines the question of how to articulate common ethical standards for counsel appearing before international courts and tribunals and the legal powers and practical ability of international courts to prescribe and enforce such standards it conducts original research into both the theory and practice of the issues arising from this nascent process of professionalization using various sources including interviews with judges registrars and senior practitioners it argues that the professionalization of advocacy through the articulation of common ethical standards is both desirable and feasible in order to protect the integrity and fairness of the international judicial process christopher c langdell 1826 1906 is one of the most influential figures in the history of american professional education as dean of harvard law school from 1870 to 1895 he conceived designed and built the educational model that

leading professional healthcare professionals face an increasing threat of litigation from parties whom they have never met in their daily medical practice and who look nothing like the traditional patient the so called non patient may take many forms for example a person who is injured or killed by a mentally ill physically disabled or diseased patient a wrongfully accused parent in a child neglect abuse case or a local authority which is put to the expense of caring for a negligently treated patient this book explores the legal principles and conundrums which arise when determining a healthcare professional's liability in negligence towards a wide variety of non patients the topic is assuming increasing legal importance and relevance given the potential for many non patient claims to give rise to class actions litigation and in light of the legislative and human rights interventions and the frequent appellate judicial consideration which non patient claims have attracted in recent times the aim of the book is to have utility for both legal and medical professionals for academics and students of comparative medical negligence and tort law and for law reformers who may be interested in adopting certain features of statutory models elsewhere which pertain to some non patient claims such as those based upon good samaritan conduct important parallels or counterpoints from other common law jurisdictions in which courts and commentators have grappled with the legal complexities of non patient claims are also discussed and critically analyzed formed in 1825 the nova scotia barristers society is the second oldest law society in common law canada after the law society of ontario yet despite its founders ambitions it did not become the regulator of the legal profession in nova scotia for nearly seventy five years in this institutional history of the nova scotia barristers society from its inception to the legal profession act of 2005 barry cahill provides a chronological exploration of the profession's regulation in nova scotia and the critical role of the society based on extensive research conducted on internal documents legislative records and legal and general interest periodicals and newspapers professional autonomy and the public interest demonstrates that the inauguration of the nova scotia barristers society was the first giant step on the long road to self regulation highlighting the inherent tensions between protection of professional self interest and protection of the larger public interest cahill explains that while this radical innovation was opposed by both lawyers and judges it was ultimately imposed by the liberal government in 1899 in light of emerging models of regulation in the twenty first century professional autonomy and the public interest is a timely look back at the origins of professional regulatory bodies and the evolution of law affecting the legal profession in atlantic canada the professional negligence and liability reports provides cases dealing with professional negligence arising in a wide range of professions from surveyors and estate agents to doctors solicitors and accountants this book on professional ethics in legal profession in india can also be called as model code of conduct for lawyers it is an attempt too reconcile the various precedents and various sources including personal views and rules framed by various bodies it may be recalled that the rules of bar council of india only provide for some basic matters and does not exhaustively deal with all aspects and most of the cases of misconduct fall in general conduct of unbecoming of an advocate this attempt is aimed at clearing this haze to some extent and with a note that proper exhaustive and statutory rules shall soon occupy the field professional ethics are not only important to practice of law but it is also forms part of curriculum in competitive examinations such as judiciary or for qualifying in the examination for the rolls of advocate on record of supreme court of india therefore this book is must read for law students lawyers aspiring judges and those preparing for examinations like advocate on record of supreme court of india or subordinate judiciary this volume contributes to the latest studies in legal discourse studies by presenting a descriptive and interpretive analysis of english
