Capitalism and Classical Social Theory, Third Edition 2019-05-31 in this third edition of capitalism and classical social theory john bratton and david denham build on the classical triumvirate karl marx mile durkheim and max weber by extending the conversation to include early female theorists such as mary wollstonecraft and charlotte perkins gilman as well as the writings of w e b du bois and g h mead connecting current headlines in the political mainstream to concepts like alienation anomie class gender race and the environment capitalism and classical social theory sheds light on how classical social theories may be applied and understood within a contemporary context this revised and expanded third edition features topical discussions of socio economic shifts in the post trump and post brexit world and uses original excerpts and additional readings to further contextualize the significance of classical social theory today

**Integrated Reporting** 2019-01-04 this book critically examines the implementation and adoption of integrated reporting ir in organizations and corporations a relatively new area of policy and practice ir has rapidly gained considerable prominence since the formation of the international integrated reporting committee in 2010 the book analyzes the outcomes and benefits as well as the shortfalls of integrated reporting it offers an introduction to the foundations of ir and a comprehensive overview of its use through a number of detailed case studies lastly it discusses the outlook for further developments in sustainability accounting and reporting

**Corporate Social Responsibility in Difficult Times** 2023-06-30 it has been fairly traumatic for everyone and every organization over the last couple of years as we have had to deal with the coronavirus pandemic it has certainly been a shock to the economic system of the world from which many are still recovering equally it has affected social systems and the environment the effects of which are still being felt and will be felt for some time to come in addition there has been a fairly general economic crisis around the world as people struggle and adapt to the new environment certainly there have been and will be changes which are likely to become permanent while recovering from one crisis however another is becoming more significant as climate change and its effects start to become ever more apparent so it seems inevitable that difficult times will continue into the future this book therefore sets out to examine aspects of the changes to corporate and institutional behaviour which have come about by the difficult times of needing to deal with past and future crises the international origins of the contributors to this volume make this very original taking some of the best ideas from around the world this approach is based on the tradition of the social responsibility research network srnet org which in its 20 year history has sought to broaden the discourse and to treat all research as inter related and relevant to business this tradition has always been to explore the subject widely and to seek relevant solutions while also sharing best practice

*Social and Environmental Disclosure by Chinese Firms* 2014-03-26 given the increased social and environmental problems in china this book looks into the social and environmental disclosure practices of socially responsible chinese listed firms by constructing a stakeholder driven three dimensional disclosure index the book contains a three part study the first part explores the current status of social and environment disclosure practices the second part empirically examines the relationship between corporate social and environmental disclosure and various influencing factors i e stakeholders power and corporate characteristics the third part empirically examines the link between corporate social responsibility csr reporting i e publishing a csr report and the quality of the csr report and socially responsible reputation the book finds that the csr report provided more stakeholder relevant social and environmental disclosure than the annual report it also finds that corporate characteristics such as firm size profitability and industry classification are all statistically significant factors influencing social and environmental disclosure of the chinese firms studied shareholders significantly influenced firms social and environmental disclosure and creditors significantly influenced firms disclosure related to their environmental performance the final part of the study reports that publishing a csr report and csr reporting quality had a positive influence on firms socially responsible reputation and that the ceo chairman duality negatively influenced firms socially responsible reputation the book also highlights that financial performance and firm size were the two corporate characteristics that had a positive influence on corporate socially responsible reputation this book will be of interest to those who are keen to learn more about corporate social responsibilities in the context of chinese firms

Social Responsibility and Sustainability 2019-01-14 this book comprehensively describes social responsibility and sustainable development with contributions from scientists and representatives from industry working in the field the papers are innovative cross cutting and many share practice based experiences some of which may be replicable elsewhere prepared by the inter university sustainable development research programme iusdrp and the world sustainable development research and transfer centre wsd rtc it reiterates the current need to promote social responsibility social responsibility and sustainable development are two different concepts whose integration over the years has led to significant advances in the way enterprises see and perceive their operations it is not only about policies or steps taken to meet legal requirements but is also about social equality and environmental accountability also bearing in mind the links with eco efficiency innovation and the health and wellbeing of workers according to iso 26000 social responsibility is the responsibility of an organisation for the impacts of its decisions and activities on society and the environment through transparent and ethical behaviour that a contributes to sustainable development including health and the welfare of society b takes into account the expectations of stakeholders c is in compliance with applicable law and consistent with international norms of behaviour d is integrated throughout the organisation and practised in its relationships but even though the relations between social responsibility and sustainability are strong it is still necessary to encourage organisations to adhere to or at least follow the principles of sustainable development in their operations giving something back to the community as such there is a need for a better understanding of how social responsibility is related to sustainable development and of the identification of processes methods and tools that may help the integration of these two important elements there is also a real need to showcase successful examples of how to structure behaviour and institutional practice in line with the sustainability challenges we face today chapter reviewing the stakeholder value creation literature towards a sustainability approach is available open access under a creative commons attribution 4.0 international license via link.springer.com

Sustainability Accounting 2018-04-06 advances in environmental accounting management aims to advance knowledge of the management of corporate environmental impacts it aims to increase the awareness of management accounting practitioners investors and other stakeholders of the financial and social consequences of corporate environmental impacts

*Corporate Governance, Capital Markets, and Capital Budgeting* 2013-07-31 the primary contribution of this book is to integrate the important disciplines which simultaneously impact the investment appraisal process the book presents a study that develops a new approach to investment appraisal which uses a multiple objective linear programming molp model to integrate the selected disciplines which include capital markets corporate governance and capital budgeting the research covers two case studies one in the e commerce sector and another in the airline industry in which the above disciplines are integrated readers from the areas of corporate governance regulation and accounting would find the survey of different approaches and the new integrated optimization approach particularly useful

**The Third World Beyond the Cold War** 1999-04-01 the third world beyond the cold war presents an overview of the changes brought about in third world countries since the end of the cold war the book does so in two ways by highlighting major areas of change in the third world and using regional case studies as a means of isolating changes specific to certain regions the themes chosen by the editors economics politics security are not of course exhaustive but are broadly interpreted so as to encompass the major areas of change among third world countries the regional case studies asia pacific latin america south asia africa the middle east were selected to bring out both the themes and the diversity of experience the essays written by leading scholars in the field of international relations caters for a variety of constituencies those who seek the big picture in understanding the third world in international relations those who look for general patterns explanations and trends in third world politics and those who seek up to date information and analysis on the progress of different regions

*Corporate Social Responsibility Reporting in China* 2017-10-25 in recent years corporate social responsibility csr reporting in china has been experiencing a rapid development and the number of social reports issued by chinese enterprises shows a sharp increasing trend this book investigates the evolution of such reporting practice in the country and the reasons behind it in addition it also examines

the reporting quantity and quality of chinese enterprises by applying the gri global reporting initiative as an evaluation tool in response to policy documents so as to obtain the government's recognition and to strive for more resources state owned enterprises private enterprises and foreign invested companies have made substantial efforts in social reporting in terms of quantity and coverage however it appears that there is still room for enhancing the quality of disclosure the book also highlights the central government's economic political and social roles in promoting encouraging and controlling the development of csr reporting

**Financial Accounting Theory** 2003-02 a new text covering the most widely accepted accounting theories and which is specifically written for third year accounting theory undergraduate and postgraduate courses beginning with an overview of various financial reporting decisions that entities face it outlines reporting that is regulated and unregulated

**Corporate Social Responsibility Reporting in Developing Countries** 2016-05-13 historically the study of corporate social responsibility csr reporting has largely been within the context of western economies however in the wake of highly publicized incidents such as bhopal and the struggle of the ogoni people in nigeria many large corporations now claim to be taking steps to improve their environmental and social performance within developing countries using the lens of stakeholder theory this book examines whether the current practice of csr reporting in developing countries is motivated by a desire to discharge accountability to all relevant stakeholders or whether it is being driven by the imperative of advancing corporate economic interests while concepts like csr reporting have become more fashionable they vary widely in different national contexts this book therefore clarifies the types and roles of csr reporting and the underlying corporate motivations the author considers the current csr reporting practices in a number of developing countries with particular attention given to illuminating a case study of bangladesh

*Global Perspectives on Risk Management and Accounting in the Public Sector* 2016-01-18 the effects of recent economic and financial crises have reached an international scale a number of different nations have experienced the fallout of these events calling into question issues of accountability and reform in public management global perspectives on risk management and accounting in the public sector is a pivotal reference source for the latest research on current developments and future directions of the regulation financial management and sustainability of public institutions featuring discussions on risk assessment transparency and information disclosure this book is ideally designed for regulatory authorities researchers managers and professionals working in the public domain
