Prisoners' Rights

2017-07-05

this volume brings together a selection of the most important published research articles from the ongoing debate about the moral rights of prisoners the articles consider the moral underpinnings of the debate and include framework discussions for a theory of prisoners rights as well as several international documents which detail the rights of prisoners including women prisoners finally detailed analysis of the moral bases for particular rights relating to prison conditions covers areas such as health solitary confinement recreation work religious observance library access the use of prisoners in research and the disenfranchisement of prisoners

Prisoners' Rights

2017

prisons and imprisonment have become a commonplace topic in popular culture as the setting and rationale for fiction and documentaries and most people seem to have a clear notion of what it is like in prison ranging from the idea of the prison cell as a cosy nook with fast internet access to that of a dungeon with a hard bed and a diet of bread and water but what is prison really like do prisoners have the same rights as everyone else what are the similarities and differences between prisons in different european countries this book answers all of these questions whilst also presenting cutting edge research on the living conditions of long term prisoners in europe and considering whether these conditions meet international human rights standards bringing together leading experts in the field with comprehensive coverage of the issues in belgium croatia denmark england finland france germany lithuania poland spain and sweden this book offers the first

comparative study on the subject whereas past research in this area has concentrated on the anglo american experience this book offers a truly comparative european approach and pays due attention to the differences in prison systems between the post soviet countries and continental europe this book will be key reading for academics and students of criminology criminal justice and penology and will also be of interest to students and practitioners of law

Long-Term Imprisonment and Human Rights

2014-07-11

the movement for prisoners rights is based on the idea that prisoners though they are deprived of liberty are entitled to other basic human rights what rights and privileges should be accorded to those who are incarcerated this work examines this issue from different perspectives incorporating excerpts from legal documents and court cases

Prisoners' Rights

2007

Corrections: Prisons, prison reform, and prisoners' rights: Wisconsin

1972

this book analyzes the development and current state of prisoners rights in england and the u s it examines the differences in the legal and social systems that have resulted in unequal development then discusses the provisions of the european convention on human rights which can be used as a basis of comparison in all three contexts the main rights that are claimed rest on notions of inhuman and degrading treatment involuntary servitude access to courts and jurisdiction over prison matters freedom of correspondence freedom of religion and property rights in addition two similarities between england and the united states are the judicial attitudes toward prisoners claims and prisoners rights of access to courts however english prisoners have access to a wider range of rights because american

prisoners are limited to federally protected constitutional rights nevertheless wide differences exist within the prison systems regarding how well prisoners rights are protected finally in both systems judges have concentrated largely on procedural issues and have tended to neglect the major issues of substantive justice ncjrs modified

Corrections: Prisons, Prison reform, and prisoners' rights: Massachusetts

1972

clear comprehensive practical advice provides prisoners with everything they need to know on conditions of confinement civil liberties in prison procedural due process the legal system how to litigate conducting effective legal research and writing legal documents this new edition is updated to include the most relevant prisoners rights topics and approaches to litigation types of legal remedies and how to effectively use those remedies

Corrections: Prisons, prison reform, and prisoner' rights: Michigan

1972

prisoners rights is an area of constitutional law that is often overlooked combining an historical and strategic analysis this study describes the doctrinal development of the constitutional rights of prisoners from the pre warren court period through the current rehnquist court like many provisions in the bill of rights the meaning of the eighth amendment s language on cruel and unusual punishment and the scope of prisoners rights have been influenced by prevailing public opinion interest group advocacy and most importantly the ideological values of the nine individuals who sit on the supreme court these variables are incorporated in a strategic analysis of judicial decision making in an attempt to understand the constitutional development of rights in this area fliter examines dozens of cases spanning 50 years and provides a systematic analysis of strategic interaction on the supreme court his results support the notion that justices do not simply vote their policy preferences some seek to influence their colleagues and the broader legal community in many cases there was evidence of strategic interaction in the form of voting fluidity substantive opinion revisions dissents from denial of certiorari and lobbying to form a majority coalition the analysis reaches beyond death penalty cases and includes noncapital cases arising under the eighth amendment habeas corpus petitions conditions of confinement cases and due process claims

Capitalist Punishment

2010-04-28

drawing on participatory action research conducted in sierra leone kosovo and the philippines human rights in prisons analyses encounters between rights based non governmental organisations and prisons it explores the previously under researched perspectives of prison staff and prisoners on their lives and relationships

Corrections: Prisons, prison reform, and prisoners' rights: California

1971

in recent years european prison law and policy have emerged as a force to be reckoned with this book explores its development and analyses the penological and human rights foundations on which it is based it examines the findings of the european committee for the prevention of torture the recommendations of the council of europe and the judgments of the european court of human rights from these sources it makes the general principles that underlie european prison law and policy explicit emphasising the principle of using imprisonment as a last resort and the recognition of prisoners rights the book then moves on to apply these principles to conditions of imprisonment regimes in prison contacts between prisoners and the outside world and the maintenance of good order in prisons the final chapter of

the book considers how european prison law and policy could best be advanced in future the authors argue that the european court of human rights should adopt a more proactive approach to ensuring that imprisonment is used only as a last resort and that a more radical interpretation of the existing provisions of the european convention on human rights will allow it to do so it concludes that the growing cooperation on prison matters within europe bodes well for the increased recognition of prisoners rights across europe in spite of some countervailing voices europe should increasingly be able to give an international lead in a human rights approach to prison law and policy in the same way it has done with the abolition of the death penalty

Imprisonment

1989

this work aims to provoke reflection on the english conception and treatment of prisoners rights through juxtaposition with prisoners rights in germany the systems are compared and placed against a wider social background and the methodological problems of comparative law are considered

Imprisonment Today and Tomorrow

1991-03

this is the third edition of the pioneering work that has become the standard text in the field the first edition was one of the earliest to establish that the newly developing international law of human rights could be set down as any other branch of international law it also incorporates the complementary fields of international humanitarian law and international criminal law while addressing the problems associated with their interaction with human rights law the book is more than a descriptive analysis of the field it acknowledges areas of unclarity or where developments may be embryonic solutions are offered recent developments have confirmed the value of solutions proposed in this edition and the previous one central to most of the chapters is the human rights norm of most salience in the treatment of prisoners namely the prohibition of torture and cruel inhuman or degrading treatment or punishment the early chapters focus on the period of first detention when detainees are most at risk of having information or confessions however unreliable extracted by unlawful means voices contemplating the legitimacy of such treatment to combat terrorism have been heard in the wake of the atrocities of 11 september 2001 the book finds that the evidence clearly suggests that the absolute prohibition of such treatment remains firm other chapters deal with problems of poor prison conditions and of certain extraordinary penalties notably corporal and capital punishment a chapter explores ethical codes for members of professions capable of inflicting or preventing the prohibited behaviour police and medical and legal professionals chapters are also devoted to the extreme practice of enforced disappearance and the contribution of the new convention on this phenomenon as well as to extra legal executions

The Law of Corrections and Prisoners' Rights in a Nutshell

1976

this book illuminates the decision making processes of the us supreme court through an examination of several prisoners rights cases in 1964 the supreme court declined to hear prisoners claims about religious freedom in 2014 the supreme court heard a case that led to the justices unanimous endorsement of a muslim prisoner s religious right to grow a beard despite objections from prison officials in the fifty year span between those two events the supreme court developed the law concerning rights for imprisoned offenders as demonstrated in this book the factors that shape supreme court decision making are well illustrated by prisoners rights cases this area of law illuminates competing approaches to constitutional interpretation behind the scenes interactions among the justices and the manipulation of legal precedents external actors also affect the supreme court and its decisions when the president appoints new justices and congress targets the judiciary with legislative enactments because of the controversial nature of prisoners rights issues these cases serve to illuminate the full array of influences over supreme court decision making

Prisoners' Rights in England and the United States

1989

rev ed of the rights of prisoners the basic aclu guide to a prisoner s rights david rudovsky 1973

Prisoners' Self-help Litigation Manual

2010

legal rights of prisoners is a timely book that addresses the constitutional rights of people in places of confinement more specifically it examines the amendments that inmates use and the case law that has developed to address their concerns the book examines the types of complaints and issues that prisoners bring before the courts moreover it explains the american court systems the process of justice and describes the remedies that prisoners use to redress the government furthermore the book discusses the defenses that general administrators use to justify their actions in the final analysis the book focuses on the future of correctional litigation
