### **The Dental Press - The John McLean Archive A Living History of Dentistry**

**Witness Seminar 5** 2014-03 this is the transcript of a witness seminar held at the british dental association in september 2012 it records the contribution made by the media and dental press to the practice of dentistry within the united kingdom from the start of the national health service to the present time the discussion included a range of major participants in the politics and management of dentistry during this time including some editors of dental periodicals it is one of a series of seminars held as part of the john mclean history of dentistry archive organised between the british dental association and the history of dentistry unit at king s college london to study the profession especially since the time of the establishment of the national health service in 1948

**The British Dentist** 2015-06-10 though the prospect may fill us with dread most of us need dental treatment at some stage and the reality is that better care has never been available as this fully illustrated book shows early dentistry was amateurish and limited to barber surgeons travelling tooth pullers and blacksmiths with patients often suffering as much from the cure as the malady and even as things improved in the eighteenth century fashionable dentures were still made from the teeth of dead soldiers or even of the poor this authoritative introduction looks at this whole grisly history as well as at the increasing professionalism seen from the late nineteenth century onwards which has led to very dramatic improvements in dental treatment including modern dentures amalgam fillings anaesthetics and orthodontics and to the current boom in cosmetic dentistry

### The Regulation of the Dental Profession by the General Dental Council - The John McLean Archive A Living History of Dentistry Witness Seminar 1

2014-03 this transcript of a witness seminar one of a series of five provides an intriguing and instructional collection of memoires and insights from senior members of the dental profession and others especially since the inception of the nhs such seminars capture the knowledge of witnesses to the events discussed these seminars and associated activities form part of a history of dentistry made possible by a significant donation from the eponymous sponsor of the john mclean archive of living dental history dr john mclean was a unique icon of british dentistry he was a leader of the profession holding many prestigious positions including president of the bda and an expert on dental materials operative dentistry and prosthodontics he authored over 100 papers for peer reviewed journals the seminars are part of a fitting memorial to a great man and provide information that cannot easily be obtained in books and clinical and research journals

The Changes in Dentistry Since 1948 2014-03 this is the transcript of a witness seminar held at the british dental association in october 2011 it records the major events and changes within the practice of dentistry within the united kingdom from the start of the national health service to the present time the discussion

*Handbook of Primary Care Ethics* 2017-09-25 with chapters revolving around practical issues and real world contexts this handbook offers much needed insights into the ethics of primary healthcare an international set of contributors from a broad range of areas in ethics and practice address a challenging array of topics these range from the issues arising in primary care interactions to working with different sources of vulnerability among patients from contexts connected with teaching and learning to issues in relation to justice and resources the book is both interdisciplinary and inter professional including not just standard philosophical clinical ethics but also approaches using the humanities clinical empirical research management theory and much else besides this practical handbook will be an invaluable resource for anyone who is seeking a better appreciation and understanding of the ethics in of and for primary healthcare that includes clinicians and commissioners but also policymakers and academics concerned with primary care ethics readers are encouraged to explore and critique the ideas discussed in the 44 chapters whether or not readers agree with

all the authors views this volume aims to inform educate and in many cases inspire chapter 4 of this book is freely available as a downloadable open access pdf at taylorfrancis.com under a creative commons attribution cc by 4.0 license Dental Economics 2008 issues for 1962 include as a separate section the association's annual roster

**The Journal of the American Dental Association** 1981 the publication of victor klemperer's secret diaries brings to light one of the most extraordinary documents of the nazi period in its cool lucid style and power of observation said the new york times it is the best written most evocative most observant record of daily life in the third reich i will bear witness is a work of literature as well as a revelation of the day by day horror of the nazi years a dresden jew a veteran of world war i a man of letters and historian of great sophistication klemperer recognized the danger of hitler as early as 1933 his diaries written in secrecy provide a vivid account of everyday life in hitler's germany what makes this book so remarkable aside from its literary distinction is klemperer's preoccupation with the thoughts and actions of ordinary germans berger the greengrocer who was given klemperer's house anti hitlerist but of course pleased at the good exchange the fishmonger the baker the much visited dentist all offer their thoughts and theories on the progress of the war will england hold out who listens to goebbels how much longer will it last this symphony of voices is ordered by the brilliant grumbling klemperer struggling to complete his work on eighteenth century france while documenting the ever tightening nazi grip he loses first his professorship and then his car his phone his house even his typewriter and is forced to move into a jews house the last step before the camps put his cat to death jews may not own pets and suffer countless other indignities despite the danger his diaries would pose if discovered klemperer sees it as his duty to record events i continue to write he notes in 1941 after a terrifying run in with the police this is my heroics i want to bear witness precise witness until the very end when a neighbor remarks that in his isolation klemperer will not be able to cover the main events of the war he writes it's not the big things that are important but the everyday life of tyranny which may be forgotten a thousand mosquito bites are worse than a blow on the head i observe i note the mosquito bites this book covers the years from 1933 to 1941 volume two from 1941 to 1945 will be published in 1999

*Arkansas Dental Journal* 1958 total hip replacement effectively began in the uk in 1938 and has led to widely used commercially successful mass produced devices that relieve pain for an ever increasing period the witness seminar chaired by mr alan lettin discussed the remarkable postwar collaboration of british surgeons engineers and manufacturing firms in the development of efficient alloys surgical procedures instruments and the implementation of clean bacteria reduced air in enclosed operating theatres as illustrated by successful prostheses and techniques developed in norwich kenneth mckee wrightington sir john charnley

stanmore john scales redhill peter ring and exeter robin ling and clive lee early failures such as loosening from infection osteolysis and wear debris stimulated the search for improved materials and fixation methods as well as the addition of antibiotics to bone cement to reduce infection national hip registers that record the survival of different implants were adopted in europe in the 1970s 2003 in the uk and they pinpoint the successful devices as measured by survival and low rates of revision an introduction to the volume by dr francis neary and professor john pickstone and appendices on materials by professor alan swanson on international standards by mr victor wheble and of details of selected prosthesis supplement the transcript
