The Death Penalty 2009-06-30 the death penalty arouses our passions as does few other issues some view taking another person s life as just and reasonable punishment while others see it as an inhumane and barbaric act but the intensity of feeling that capital punishment provokes often obscures its long and varied history in this country now for the first time we have a comprehensive history of the death penalty in the united states law professor stuart banner tells the story of how over four centuries dramatic changes have taken place in the ways capital punishment has been administered and experienced in the seventeenth and eighteenth centuries the penalty was standard for a laundry list of crimes from adultery to murder from arson to stealing horses hangings were public events staged before audiences numbering in the thousands attended by women and

men young and old black and white alike early on the gruesome spectacle had explicitly religious purposes an event replete with sermons confessions and last minute penitence to promote the salvation of both the condemned and the crowd through the nineteenth century the execution became desacralized increasingly secular and private in response to changing mores in the twentieth and twenty first centuries ironically as it has become a quiet sanitary technological procedure the death penalty is as divisive as ever by recreating what it was like to be the condemned the executioner and the spectator banner moves beyond the debates to give us an unprecedented understanding of capital punishment s many meanings as nearly four thousand inmates are now on death row and almost one hundred are currently being executed each year the furious debate is unlikely to diminish the death penalty is invaluable in understanding the american way of the ultimate punishment table of contents comprehensive treatment of the topic hugo adam bedau boston review reviews of this book despite the gruesome nature of the book s topic it is difficult to stop reading banner s research is fascinating his writing style compelling given the emotional nature of the subject few people known to me are wishy washy about whether the death penalty is moral or immoral banner walks the line of neutrality skillfully without seeming evasive steve weinberg legal times reviews of this book stuart banner s the death penalty is a tour de force remarkable for its neutrality as it traces the ways in which the death penalty has been applied and for what kinds of crimes from the colonial era to the present banner writes like a historian who believes perspective is best gained by dispassionately setting out what happened and letting everyone come to his or her own conclusions i think in this book that works wonderfully on a subject in which emotions run so high it seems awfully useful to have a dispassionate voice after all if banner allowed his own feelings on the death penalty pro con or somewhere in the middle to be known the book easily could be dismissed as a diatribe he doesn t and it can t judith neuman beck san jose mercury news reviews of this book law professor banner offers a persuasive examination of the evolution of capital punishment from colonial times onward he makes murderers and that we risk the lives of innocent people who might otherwise live if we refuse to execute those deserving that punishment jeffrey reiman argues that although the death penalty is a just punishment for murder we are not morally obliged to execute murderers since we lack conclusive evidence that executing murderers is an effective deterrent and because we can foster the advance of civilization by demonstrating our intolerance for cruelty in our unwillingness to kill those who kill others reiman concludes that it is good in principle to avoid the death penalty and bad in practice to impose it

Ultimate Punishment 2007-08-30 the death penalty is one of the country's most controversial issues the fairness of its application is debated in coffeehouses classrooms political arenas and the media however despite its representation in the media most death cases receive surprisingly little national media attention in fact of the 1000 people executed in the united states since 1977 and the 3 500 inmates currently awaiting execution only a handful of cases can be recalled by the public those that are memorable are so because only a few are dramatically represented in the media why is it that those that receive the most serious penalty are virtually nameless while the death penalty in general is one of the most discussed aspects of the criminal justice system what makes some executions more newsworthy than others what are the implications of this coverage for the public's understanding of this significant issue this book looks at those death row cases that received the most intensive media coverage from the 1970s through the present and why at the same time it focuses on changes in public opinion about the death penalty and how newspaper coverage and evolving mass sentiment relate to one another kudlac covers such celebrated cases as karla faye tucker timothy mcveigh aileen wuornos john wayne gacy and others that captured the attention of the american public and affected public opinion about the death penalty through the help of the media he considers issues such as religion politics race gender and class as he reveals the reasons for our attention to certain cases above others the book concludes with a consideration of where we

Death Watch 2004-11-18 why does the united states continue to employ the death penalty when fifty other developed democracies have abolished it why does capital punishment become more problematic each year how can the death penalty conflict be resolved in the contradictions of american capital punishment frank zimring reveals that the seemingly insoluble turmoil surrounding the death penalty reflects a deep and long standing division in american values a division that he predicts will soon bring about the end of capital punishment in our country on the one hand execution would seem to violate our nation s highest legal principles of fairness and due process it sets us increasingly apart from our allies and indeed is regarded by european nations as a barbaric and particularly egregious form of american exceptionalism on the other hand the death penalty represents a deeply held american belief in violent social justice that sees the hangman as an agent of local control and safeguard of community values zimring uncovers the most troubling symptom of this attraction to vigilante justice in the lynch mob he shows that the great majority of executions in recent decades have occurred in precisely those southern states where lynchings were most common a hundred years ago it is this legacy zimring suggests that constitutes both the distinctive appeal of the death penalty in the united states and one of the most compelling reasons for abolishing it impeccably researched and engagingly written contradictions in american capital punishment casts a clear new light on america s long and troubled embrace of the death penalty
