Discover simple strategies for protecting your personal and confidential information on and offline with this essential and easy-to-understand guide. We all know that the internet can serve as a hotbed for identity theft, but it isn't the only place where your privacy can be breached. In fact, there are lots of ways you can protect your privacy or diminish it that have little or nothing to do with access to the internet: your home, your photos, your trash can, your kids, your favorite restaurant or store, and even you. You have the ability to unknowingly reveal your private information to everyone, from thieves to busybodies, but you don't need to hire a specialist to keep your information safe. You can do it yourself with these 200 easy-to-implement tactics, some of which include shredding hard copies of bills, turning off Bluetooth when not in use, using a firewall, hiding spare keys in an unusual place, and keeping your information secure. Lies in your hands make sure you're not putting yourself at risk in your daily habits with this essential guide.

ABA Journal 1951-08-20

For most people, drawing up a will, making sure their inheritance is secure for their spouse, children, grandchildren, or other family members, is a top priority. And though they may think they're taking care of their loved ones' future with the traditional planning, a will offers the reality is that down the line, their designated heirs may never see a dime. As attorney and estate planning expert Armond Budish explains in *Why Wills Won't Work*, good estate planning in the twenty-first century requires more than the old one-size-fits-all approach of filling out a few legal documents. In this book, he illustrates his customized safe method, the only solution that will safeguard assets for your family exclusively, beginning with an assessment quiz that helps readers determine their particular needs, risks, and goals along with the options available. *Why Wills Won't Work* addresses how to protect a child's inheritance in a divorce, the steps to take now to avoid death taxes later, how to safeguard an inheritance for grandchildren, how to keep probate court, creditors, and potential lawsuits from depleting an inheritance, how to plan in advance for a disabled child or one who can't manage money, and what documents you really need and how to choose a lawyer. Easy to follow and reader-friendly with illuminating real-life stories throughout, *Why Wills Won't Work* is the essential guide for readers who want to be sure now that their family's future inheritance is airtight.

The Car Owner's Manual You REALLY Need 2019-01-08

Watch those car guys. Even used an Apple. These guys used steel. Watch those car guys provides a window into the hectic, fast-moving, and free-wheeling world of the automobile business.

during the post war period the absence of standardized factory prices for automobiles provided the dealer with the opportunity to manipulate prices in order to confuse customers quick sales by any manner were the primary objective the pre war practice of providing good service at fair prices for the purpose of repeat business was all but gone marty stein is transformed from a respectful college sophomore into a devious automobile dealer the greed and irresponsibility in his life parallels the practices evolving in the automobile business his fifteen year journey from a college sophomore to a felon leaves behind a wake that contains scores of deceived and disgruntled customers a lover who almost dies from a bungled abortion a son he may never see and the suicide of a trusting friend that was to a large extent marty's fault
