2 stroke vs 4 stroke snowmobile 5 differences explained

Apr 15 2023

a 2 stroke engine generates power on every other stroke of the pistons in the engine while a 4 stroke engine generates power on every fourth stroke that may not mean much unless you understand how an engine works in the first place but they are two completely different designs

explore the science behind two stroke snowmobile engines

Mar 14 2023

the two stroke snowmobile engine is mechanically very simple but how it breathes is rather complicated a four stroke engine separates the intake compression power and exhaust strokes with the use of poppet valves but it only makes one power stroke every 720 degrees of rotation of the crankshaft
