High School Comprehensive English Review 2019-09-25

from the author s introduction the books have always been there they have added nuance depth and richness to my life when i speak of reading i am not talking about an expediency but a glorious adventure the reading to which i refer is like a drug rush a phenomenon reading is a much more vital experience than watching films or playing video games the author s words ignite your psyche and create a multidimensional multisensory experience which can be totally fulfilling totally absorbing because i cannot imagine a life without books book reviews are an essential part of radiating who and what i am reading is a voyage of discovery and though a true reader wants the freedom to discover new worlds without restriction a map with a few landmarks is a useful tool to save time all i can do is point out what paths i have followed and what those paths mean to me reviews are one way of

fine tuning your discernment to ensure that your reading experience is time well spent we are each of us microcosms in the great vastness of the larger universe and reading is one way we have of closing the gap
