been developed to assess the exchanges between therapists and patients  
seventeen major direct process systems are presented in detail and are  
summarized with ample citations to the literature the final section of the book  
offers an exhaustive listing and concise description of various indirect measures of  
psychotherapy process which do not assess the verbatim interview exchanges of  
the participants in therapy but rather assess the participants perceptions via self  
report or standard analogue procedures this book is a basic sophisticated and  
exhaustive coverage of psychotherapy process and content analysis that will  
become the standard and authoritative source for anyone interested in the process  
of psychotherapy whether as student researcher or practitioner
