The Little Book that Still Saves Your Assets 2012-10-02 protect assets during times of crisis with this new edition of the new york times bestseller when the first edition of this book appeared it was before the economic crash this new edition shows how david darst s particular kind of asset allocation helped his investors during that volatile period it also contains a discussion of downside and risk tolerance and new self tests for determining your risk tolerance and finally it reveals how the asset allocation model has changed since 2008 in all of these areas the author will continue to include new insightful anecdotes like those that peppered the first edition shows how to tap into the use of asset allocation strategies to protect your investments offers updated information on downside and risk tolerance the next step resource from a managing director of morgan stanley and the bestselling author david darst includes a foreword by jim cramer david darst reveals how to use asset allocation to increase your portfolio that tap into the investment strategies of the wealthy

Good Guys and Bad Guys 2011-08-30 the greatest columns and profiles by the bestselling coauthor of all the devils are here what s it like to be a top tobacco executive when your kid asks you about smoking how did a young liberal arts major become the hottest tech stock analyst of the 90s and why did he self destruct how did one family s dysfunction change the media landscape some people think business journalism is all about balance sheets income statements and earnings per share but if you want to answer the really interesting questions about heroes and hucksters visionaries and madmen and other larger than life characters you need a reporter like joe nocera for more than

twenty five years nocera has shed new light on the giants of the business world warren buffett t boone pickens bob nardelli as well as on the less famous but equally fascinating he builds stories around their motivations personalities and deepest characters and instead of just pigeonholing them as good guys or bad guys he explores the gray areas in between

The Little Book That Beats the Market 2005-11-15 praise for the little book that beats the market a landmark book a stunningly simple and low risk way to significantly beat the market michael steinhardt the dean of wall street hedge fund managers simply perfect joel has made beating the market both simple and clear one of the most important investment books of the last 50 years michael f price mfp investors llc and called wall street s foremost value investor by fortune magazine a guide to beating the market for all ages two years in business school won t teach you how to beat the market two hours with the little book that beats the market will let joel greenblatt founder and a managing partner at gotham capital with average annualized returns of 40 for over twenty years show you how beating the market can be made simple and easy the little book that beats the market does more than simply set out the basic principles for successful stock market investing it provides a magic formula that is easy to use and makes buying good companies at bargain prices automatic though the formula has been extensively tested and is a clear breakthrough in the academic and professional world the commonsense method is convincingly explained using sixth grade math skills plain language and humor readers will learn how to use this low risk method to beat the market and professional managers by a wide margin along the way readers will also learn how to view the stock market why success eludes almost all individual and professional investors and why

the formula will continue to work even after everyone knows it

The Big Secret for the Small Investor 2011-05-09 acclaim for joel greenblatt's new york times bestseller the little book that beats the market one of the best clearest guides to value investing out there wall street journal simply perfect one of the most important investment books of the last fifty years michael price a landmark book a stunningly simple and low risk way to significantly beat the market michael steinhardt the dean of wall street hedge fund managers the

best book on the subject in years financial times the best thing about this book from which i intend to steal liberally for the next edition of the only investment guide you ll ever need is that most people won t believe it that s good because the more people who know about a good thing the more expensive that thing ordinarily becomes andrew tobias author of the only investment guide you ll ever need this book is the finest simple distillation of modern value investing principles ever written it should be mandatory reading for all serious investors from the fourth grade on up professor bruce greenwald director of the heilbrunn center for graham and dodd investing columbia business school

The Little Book of Sideways Markets 2010-11-17 it s hard to talk clearly about investing and make sense to ordinary readers at the same time katsenelson gives a lucid explanation of today s markets with sound advice about how to make money while avoiding the traps that the market sets for exuberant bulls and frightened bears alike thomas g donlan barron s a thoroughly enjoyable read provides a clear framework for equity investing in today s sideways and volatile markets useful to everyone clear thinking and clear writing are not often paired well done dick weil ceo janus capital group the bible for how to invest in the most tumultuous financial market environment since the great depression a true guidebook for how to build wealth prudently david rosenberg chief economist strategist gluskin sheff associates inc a wonderful grounded read for new and seasoned investors alike katsenelson explains in plain english why volatility and sideways markets are a stock picker s best friend the motley fool fool com praise for active value investing this book reads like a conversation with vitality deep insightful inquisitive and civilized nassim nicholas taleb author of the black swan thoroughly enjoyable

for the thoughtful and often entertaining way in which it is delivered katsenelson takes his reader step by step into the mind of the value investor by relating in a fictional addendum to fiddler on the roof the story of tevye s purchase of golde the cow he also describes his own big time gambling evening he was willing to lose a maximum of 40 and that of a half drunken rowdy fellow blackjack player to stress the importance of process he then moves on to the fundamental principles of active value investing what differentiates this book from so many others on value investing is that it describes sometimes through the use of case studies the thinking of a value investor not just his models or his metrics but his assessments katsenelson is an empiricist who weighs facts looks for contraindications and makes decisions he makes value investing come alive this may be a little book but it s packed with insights for both novices and experienced investors and it is a delight to read seeking alpha

The Idle Investor 2015-06-08 3 simple strategies to earn high returns and beat the professionals would you like to use a simple low risk investing system that beats market indexes and fund manager performance over the long term but requires only a few minutes of your time each month does it sound like a lot of hard work it s not even the laziest investor can achieve it the idle investor includes three straightforward diy strategies for long term investing all you have to do is follow the simple rules each method requires only a limited amount of your time and they all make use of easily accessible low cost funds the reasons why the strategies work and everything else you need to know to put them into practice is explained clearly with numerous worked examples the three strategies are 1 the bone idle strategy part of your portfolio is allocated to shares and part is allocated to bonds with adjustments only required twice a year the rest of the time you do nothing 2 the summer hibernation strategy for

part of the year your portfolio is allocated to shares and for part of the year it is allocated to bonds once again adjustments to the portfolio are only required twice per year the rest of the time you do nothing 3 multi asset trending strategy a simple trend following method determines whether to hold your portfolio in shares or bonds for this strategy you will need to check your investments and make adjustments once a month even on the very few occasions each year when action is required twice a year for strategies 1 and 2 and once a month for strategy 3 you ll only spend a few minutes checking your portfolio and making simple changes the activity levels range from yearly rebalancing for the laziest investor through to monthly reallocation for those who are more active how much you do depends on how lazy you are feeling testing the three idle investor strategies for the period 1990 to 2012 resulted in average annual returns of up to 28 compare this to a buy and hold approach of investing in uk shares which would have delivered 8.5 per year over the same period and you can see that being idle doesn't mean being unsuccessful if you are looking for a straightforward investing method that lets you get on with your life while your money grows in the background then become an idle investor

The Laws of Wealth 2021-11-25 foreword by morgan house psychology and the secret to investing success in the laws of wealth psychologist and behavioral finance expert daniel crosby offers an accessible and applied take on a discipline that has long tended toward theory at the expense of the practical readers are treated to real actionable guidance as the promise of behavioral finance is realized and practical applications for everyday investors are delivered crosby presents a framework of timeless principles for managing your behavior and your investing process he begins by outlining 10 rules

that are the hallmarks of good investor behavior including forecasting is for weathermen and if you're excited it's probably a bad idea he then goes on to introduce a unique new classification of behavioral investment risk that will enable investors and academics alike to understand behavioral risk in a coherent and comprehensive manner the laws of wealth is a finance classic and a must read for those interested in deepening their understanding of how psychology impacts financial decision making should be read by all those new to investing jim o shaughnessy international bestselling author don't let your mind ruin your investing outcomes louann lofton the motley fool step away from cnbc and into financial therapy meredith a jones author women of the street
