1982-01-01

i could have done with a copy of ad astra in december 2015 tim peake a wonderful wise and witty guide for space explorers everywhere richard osman a must read both for intrepid space explorers and misty eyed dreamers now to space hannah fry few people are more knowledgeable celebratory and witty about space travel than dallas campbell adam rutherford need some space for almost all human history we ve been firmly rooted to the earth and sure it s got some good things going for it nice views friendly inhabitants good coffee air but what if you want to get off whether you ve got itchy feet and need a bit of a break or you re looking for a complete change of scene this book has all the information you ll need to leave with free expert advice from the men and woman who can actually make it happen do i need a passport how do i know if i

have the right stuff can i take my dog what spacesuit do i need where am i going to go what am i going to eat as well as being a deeply impractical guide to getting off the planet this is an eclectic and beautifully illustrated mix tape of space travel stories both real and imagined from the migrating lunar geese that flew us to the moon in the 1600 s to elon musk s wild plan to get humans to mars en masse in the future from the history of early rocket science to the soviet tortoises that secretly won the space race a collection for anyone who has looked up in wonder at the stars and then wondered how to get there the next best thing to actually heading off into space jim al khalili few people are more knowledgeable celebratory and witty about space travel than dallas campbell adam rutherford if like me you dream of going into space this is definitely the place to start the journey dan snow a must have volume for astronauts and armchair astronauts alike helen sharman obe funny factual and beautiful shaun keavney read it make notes and be ready when the day comes helen czerski

the idea of a joint eso australia meeting on the large number of exciting new facilities that are or will soon be available in the southern hemisphere arose quite naturally in the optical and the near infrared the very large telescope vlt will soon be operational in the radio the australia telescope compact array is going to be upgraded to higher frequencies 20 and 100 ghz together with an improvement in very long baseline interferometry vlbi facilities other major facilities such as the large millimetre array and the lkt are being planned moreover new deep surveys are underway in the southern hemisphere the southern hubble deep field the eso imaging survey bispan oramic deep surveys with the uk schmidt telescope and the anglo australian telescope aat 2df galaxy qso redshift survey in the optical and the parkes multibeam hi survey and molonglo observatory synthesis telescope most wide field continuum survey at radio wavelengths with all these new facilities important progress will be made regarding important issues such as the large scale structure of the universe the very early universe and the associated first epoch of galaxy formation the generation of large databases and the opportunity for sensitive follow up observations in complementary wavebands mean that coordinated radio infrared and optical projects in the southern hemisphere are likely to become increasingly attractive and important

Whitaker's Cumulative Book List

1986

limestone is a highly successful and widely used building material found in many important historic buildings and new monuments around the world whilst its success reflects its durability under a wide range of environmental conditions there are still important questions surrounding the selection use and conservation of building limestones in order to make best use of new limestone today and to conserve old limestone most effectively we need to bring modern research methods to bear on understanding the characteristics of different limestones what mortars to use and how key limestones have responded to polluted atmospheres this volume brings together recent interdisciplinary research on these issues illustrating the diversity of innovative techniques that are now being applied to furthering our understanding of building limestones
