augustinian thought in the book of psalms are to be found the history of the people of israel the theology and spirituality of the old covenant and a treasury of human experience expressed in prayer and poetry so too does the work of expounding the psalms recapitulate and focus the experiences of augustine s personal life his theological reflections and his pastoral concerns as bishop of hippo publisher s website a superb new translation brings the words of augustine the preacher stirringly to life when the great saint augustine was called from his country home to become bishop of hippo in the fourth century his new responsibilities took him away from the solitude of his writing and into the glare of the public eye the author of two of the greatest works of religious literature confessions and city of god augustine became a shepherd to the people inspiring and enlightening them with his sermons his skills as a speaker were as great if not greater than his skills as a writer according to his friend possidius those who read what augustine wrote on the divine topics do get something out of them but those who saw and heard him in person they were the ones who got heaven and earth sermons to the people collects the homilies on the liturgical seasons of the church saint augustine delivered over the course of his lifetime this image edition includes the first sermons in that vast collection from advent christmas new year s and the epiphany newly translated by william griffin they address timeless concerns including the problems of materialism and the intellectual difficulties of faith griffin renders the sermons with such immediacy it is as though he had been present when augustine spoke to his flock as the psalms are a microcosm of the old testament so the expositions of the psalms can be seen as a microcosm of augustinian thought in the book of psalms are to be found the history of the people of israel the theology and spirituality of the old covenant and a treasury of human experience expressed in prayer and poetry so too does the work of expounding the psalms recapitulate and focus the experiences of augustine s personal life his theological reflections and his pastoral concerns as bishop of hippo publisher s website of all his works it is augustine s sermons that give us the best portrayal of this brilliant and profoundly spiritual man presenting and interpreting the divine mysteries to his own people recent research has explored how past interpretation can help contextualize current interpretation as well as provide a more colorful and theologically meaningful understanding of scripture in st augustine s interpretation of the psalms of ascent gerald mclarney examines augustine of hippo s d 430 interpretation of the ascent motif in sermons on psalms 119 133 he looks at the delivery transmission and broader context of the sermons as well as examining the sermons as they stand no description available first published in 1902 this book was prepared with special regard to the preliminary examination of candidates for holy orders gathers selections from st augustine s autobiographical confessions sermons on christian life and the psalms and his discussion of the secular and christian views of happiness this is the extended and annotated edition including an extensive biographical annotation about the author and his life the sermons of st augustine besides their other excellencies furnish a beautiful picture of perhaps the deepest and most powerful mind of the western church adapting itself to the little ones of christ in them he who has furnished the mould for all the most thoughtful minds for fourteen hundred years is seen forming with loving tenderness the babes in christ very touching is the child like simplicity with which he gradually leads them through what to them were difficulties watching all the while whether he made himself clear to them keeping up their attention pleased at their understanding dreading their approbation and leading them off from himself to some practical result very touching the tenderness with which he at times reproves the allowance which he makes for human infirmities and for those in secular life if they will not make their infirmities their boast or in allowed duties and indulgences forget god but his very simplicity precludes the necessity of any preface his sermons explain themselves they appear from a passage in the commentary on the psalms to have been often taken down in writing at the time by the more attentive sort of hearers as were those of st chrysostom possidius states that this was done from the commencement of his presbyterate and that thence through the body of africa excellent doctrine and the most sweet savour of christ was diffused and made manifest the church of god beyond seas when it heard thereof partaking of the joy in 1990 new city press in conjunction with the augustinian heritage institute began the project known as the works of saint augustine a translation for the 21st century the plan is to translate and publish all 132 works of saint augustine his entire corpus into modern english this represents the first time in which the works of saint augustine will all be translated into english many existing translations were often archaic or faulty and the scholarship was outdated new city press is proud to offer the best modern translations available the works of saint augustine a translation for the 21st century will be translated into 49 published books to date 41 books have been published by ncp containing 93 of the works of saint augustine a translation for the 21st century augustine s writings are useful to anyone interested in patristics church history theology and western civilization publisher the legacy of augustine of hippo 354 430 continues to shape western christian language about both the trinity and the church yet scholars rarely treat these two topics as related in his work in augustine the trinity and the church adam ployd argues that augustine s ecclesiology drew upon his

trinitarian theology to a surprising degree this connection appears most clearly in a series of sermons augustine preached in 406 407 against the donatists the rival christian communion in north africa as he preached augustine deployed scriptural interpretations derived from his latin pro nicene predecessors but he adapted these trinitarian arguments to construct a vision of the charitable unity of the catholic church against the donatists to condemn the donatists for separating from the body of christ for example augustine appropriated a pro nicene christology that viewed christ s body as the means for ascent to his divinity augustine also further identified the love that unites christians to each other and to christ in his body as the holy spirit who gives to us what he eternally is as the mutual love of father and son on the central issue of baptism augustine made the sacrament a trinitarian act as christ gives the spirit to his own body the book ultimately shows that for augustine the unity and integrity of the church depended not upon the purity of the bishops or the guarded boundaries of the community but upon the work of the triune god who unites us to christ through the love of the spirit whom christ himself gives in baptism for augustine that the word became flesh transformed a merely human understanding of the virtues and grounds all virtue in humility the way of humility augustine s theology of preaching explores how this truth became a new paradigm for understanding the scriptures and thus how augustine embodied the virtue in the preaching of the scriptures one of augustine s most devoted students possidius said that anyone can learn from reading augustine but those were able to profit still more who could hear him speak in church and see him with their own eyes truly he was indeed one of those of whom it is written speak this way and act the same way the way of humility searches for evidence of the virtue of humility in action through the preaching of the humble word in the sermons of augustine many know of augustine through his more famous treatises but few have encountered the doctor of grace where he had his most immediate impact preaching the way of humility follows the sermons through several traditional theological loci ecclesiology christology soteriology to uncover what can be learned about augustine s theology through the way he preached to a mixed audience of urbanites and rustics many of whom did not have the benefit of a formal education throughout the book we see the interplay between augustine s action in speech and augustine s more direct statements on his theology of preaching through handing over christ in his sermons he became himself an example of humility for the congregation on their journey toward the final end for all people the beatific vision augustine s interpretation is spiritual his were not scholarly or academic concerns and john leinenweber s translation is fresh and accessible capturing the clarity brilliance and inspired passion of the original john has said many things stated augustine and almost all of them concern love the first six of the ten homilies were delivered on the days of the easter octave this period proved too short for augustine to cover the whole of the letter and he preached four additional homilies later in the spring in his confessions augustine spoke of his great longing as a youth to love and be loved a topic that appealed greatly to his listeners during the course of delivering these homilies he was interrupted time and again by applause and shouts of enthusiasm the ten homilies are broken up into twenty four short chapters for example the commandment of love two loves of god and of the world christ and antichrists unanswered prayer god is love god has loved us first love casts out fear his are in large part moral teachings dealing with such topics as prayer our enemies fear of god the church the world so important in saint john s writings what does one actually do to love god and others what are the pitfalls of loving how can one learn to love more throughout the homilies augustine s great desire to love and be loved and to live eternally with god are eloquently expressed believing himself ignorant of scripture he had initially considered himself ill prepared for the priesthood augustine s subsequent tireless studies unleashed a stream of biblical commentaries that led him to be ranked with thomas aquinas as one of the greatest teachers the western church has ever produced and one of its greatest fathers his towering intellect molded the thought of western christianity and his ideas dominated the thinking of the western world for a thousand years after his death augustine wrote profusely explaining and defending the faith called doctor of grace his best known works are his confessions one of the greatest spiritual classics of all time and city of god an exposition of a christian philosophy of history this is the extended and annotated edition including an extensive biographical annotation about the author and his life this edition includes the two books that st augustine wrote as explanations on the sermon on the mount which our lord delivered and which are written down in matthew 5 7 teaching christianity is the most original book augustine ever wrote it is not so much a treatise or scholarly work but an instruction manual on how to teach christianity he wrote this how to book for those who would be preaching and explaining christianity it is entirely based on the bible and helps the reader express its truths of faith with soundproof methodology it is a book that will help readers to communicate their message in a clear and effective way edmund hills new translation of augustines treatise on christian doctrine is superb his early and mature thought on how to understand scripture and how to communicate that understanding to others is set forth clearly and attractively the translator has shown great discernment in his choice of words and in their placement this makes for a smooth reading extremely valuable are the scholarly endnotes provided after each of the four books the new title chosen by edmund hill namely teaching christianity indicates that augustine is here instructing the african clergy probably the bishops how to preach effectively to their congregations the treatise is not focused on doctrine sr mary t clark rscj manhattanville college president society for medieval and renaissance philosophy
