walter anthony rodney 23 march 1942 13 june 1980 was a guyanese historian political activist and academic his notable works include how europe underdeveloped africa first published in 1972 rodney was assassinated in georgetown guyana in 1980 biography early career walter rodney published how europe underdeveloped africa in 1972 to wide acclaim not only was the book ground breaking in the area of african studies it became required reading not only in universities across africa but also in secondary schools rodney a popular opposition figure in guyana known as much for his sharp critiques of capitalism as his disapproval of the u s backed government of prime minister forbes burnham was killed when a bomb exploded in the car driven by his brother only 38 years old when he was killed dr walter rodney was an internationally acclaimed author of six scholarly books and numerous academic articles that documented the devastating effects of slavery and colonial imperialism in africa and the caribbean how europe underdeveloped africa is a 1972 book written by walter rodney that describes how africa was deliberately exploited and underdeveloped by european colonial regimes one of his main arguments throughout the book is that africa developed europe at the same rate that europe underdeveloped africa rodney argues that a combination of power the walter rodney papers span the years 1960 1987 with the bulk of the collection from the period 1970 1979 the collection provides insight into walter rodney s life as a scholar and an activist primarily revealed through his writings and teaching on friday june 13 1980 while traveling in his car with his younger brother donald walter anthony rodney was assassinated by a bomb in georgetown guyana he was 38 years old donald rodney survived to become the only living witness of this state sponsored assassination walter rodney one of the most important guyanese intellectual and political figures of the 20th century was born on march 23 1942 in georgetown guyana walter rodney s how europe underdeveloped africa is a major contribution to african historiography the book provides evidence of how capitalism inspired subjugationism is historically the common denominator for old imperialism new imperialism post imperialism in

1968 students had been massacred in a massive protest in Mexico their contemporaries in France had allied with workers in Paris to effectively shut down the city Black Power was in vogue in the U.S. and Walter Rodney redefined it to include Indians and all racially oppressed communities. Walter Rodney's examination of African underdevelopment and the resultant development of Europe is extremely well done and very convincing. Crucially, he explores the fact that Africa was on a developmental trajectory of its own both prior to the period of the slave trade and to colonization. Walter Rodney: What They Don't Want You to Know is an original 72-minute documentary featuring a murder, Cold War conspiracies, Black Power, the end of the empire, and how that connects to the policing, surveillance practices, and social movements of today. This is the first film where Walter's widow reveals the personal impact on him in his short life. The Guyanese intellectual Walter Rodney emerged as one of the leading thinkers and activists of the anticolonial revolution leading movements in North America, the African continent, and the Caribbean. *Groundings with My Brothers* is a key work from one of the Caribbean's greatest scholars, Doctor Walter Rodney. His works aided Caribbean young men to gain a keen insight into our geopolitical reality as it relates to regional and international politics. Walter Rodney makes a convincing case that European colonial activities not only abused and exploited the peoples of Africa but also did very little to develop their colonies beyond facilitating the exploitation process. Walter Rodney is widely known for his seminal work *How Europe Underdeveloped Africa*, first published in 1972. It has been translated into Portuguese, German, and Japanese and is used as a text in numerous colleges and universities in the United States. *How Europe Underdeveloped Africa* is a nonfiction book by Walter Rodney, a historian and political activist from Guyana, originally published in 1972. This influential book describes how European regimes exploited Africa for their own enrichment while simultaneously creating insurmountable obstacles to economic, political, and social progress on the continent. Walter Rodney was an internationally renowned historian of colonialism and a leader of Black Power and Pan-African movements across the diaspora, most notably the Guyanese Working People's Alliance. His life and work brought together struggles for independence on the African continent with the strivings of the Black working classes of North America. This classic work, published in the heady days of anti-colonial revolution, *Groundings with My Brothers* follows the global circulation of emancipatory ideas from the Black students of North America to the Rasta counterculture of Jamaica and beyond. Walter Rodney has 23 books on Goodreads with 73268 ratings. Walter Rodney's most popular book is *How Europe Underdeveloped Africa*.
