Bunyan Characters (3rd Series) 2019-12-17 scholars of early christian literature acknowledge that oral traditions lie behind the new testament gospels while the concept of orality is widely accepted it has not resulted in a corresponding effort to understand the reception of the gospels within their oral milieu in this book kelly iverson reconsiders the experiential context in which early christian literature was received and interpreted he argues that reading and performance are distinguishable media events and significantly that they produce distinctive interpretive experiences for readers and audiences alike iverson marshals an array of methodological perspectives demonstrating how performance generates a unique experiential context that shapes and informs the interpretive process iverson s study explores the dynamic oral environment in which ancient audiences experienced the gospel stories he shows why an understanding of oral performance has important implications for the study of the nt as well as for several issues that are largely unquestioned by biblical scholars

Introducing the Lessons of the Church Year 2009-09-01

The Seven Wounds of Christ 2017-07-24 inspired by analogies between the construction of heresy and the representation of madness described by michael foucault in in histoire de la folie à l âge classique madness and civilization the notion of heresy in greek literature in the second and third centuries demonstrates how the concept of heresy emerges in the work of justin matyr it shows that this invention created a concept capable of dominating every current suspected of endangering ecclesial harmony and transformed the tradition of greek historiography of philosophical schools by combining it with the apocalyptic theme of diabolical conspiracy le boulluec examines how this model is refined by irenaeus then modified by clement of alexandria and origen first published in 1985 as d hérésie dans la littérature grecque iie iiiesiècles this newly translated work includes a substantial new introduction surveying literature in the previous decades in line with walter bauer s pioneering book which overturned the confessional model making heresy a later falsification of orthodoxy it shows that the notion of heresy was invented in the second century and then refined in order to remove all legitimacy from diversity and pluralism in the fields of doctrine and practice le boulluec studies rhetorical practices and polemical assimilations to highlight key debates on the relationship between philosophy christianity and judaism and to examine the conflict of interpretations that drive the exegesis of the bible in constructing an orthodoxy

The Notion of Heresy in Greek Literature in the Second and Third Centuries 2022-07-21 the idea of the resurrection of the physical body and the eternal continuation of life with this body in a future paradisiacal kingdom of god on earth is one of the most enigmatic of religious ideas it fully contradicts our knowledge of the transitoriness of all things in this universe according to the author the origin for this idea lies in certain forms of otherworld experiences as for example reported by people who had near death experiences encounters with the dead in brilliantly beautiful bodies and the experience of paradisiacal seemingly earthly landscapes he observes that cultures with a pre modern cosmology sometimes projected such otherworld experiences onto this world to distant and unknown locations on earth these experiences were the blueprint for an expectation of paradisiacal conditions on earth the author establishes parallels between the reports of otherworld experiences and the eschatological ideas of zoroastrianism judaism and christianity he shows that otherworld experiences can indeed foster the expectation of paradisiacal conditions on earth by referring to the ghost dance movement of the lakota people in 1890 he presumes that the confusion of worlds proved fatal not only for the lakota people but also for jesus of nazareth

Resurrection 2020-11-26 christians in general and preachers of prophecy in particular attribute the fulfillment of hundreds of old testament messianic prophecies to jesus of nazareth often these claims arise in the uncritical environment of christian churches or popular literature that is treating messianic prophecy people with critical thinking abilities and those endowed with a skeptical nature often have key questions that remain unaddressed in such environments these thinkers and skeptics are the people that will be most interested in this work the primary question addressed is this do critically acceptable historical evidential reasons exist for believing that jesus christ is the direct fulfillment of some specific old testament messianic texts approaching this question within a framework that eliminates any possibility of staged prophetic fulfillment and those that may occur by mere chance or collusion produces results that must be taken seriously even with these strict criteria jesus emerges as the only viable candidate to fulfill some of the prophecies included in this study for other prophetic texts the evidence is not as abundant or convincing however even these texts yield several minimal facts that directly impinge on new testament claims about jesus

Journal of the Society of Arts 1859 for generations scholars who study the letters of st paul have argued about being in christ and justification by faith as though they were competing theologies they have argued about faith as divine gift or human work and more recently the faith of jesus christ has been called into question harrisville proposes a provocative and simple solution to these issues by examining scholarly assumptions and presenting the faith of st paul as a dynamic and life changing power participation in christ and righteousness by faith are actually complimentary expressions for the same concept the apostle s faith was not self engendered but a gift that transformed him into a believer taking a more organic approach to understanding the faith of st paul this book provides a path toward reconciling entrenched positions and providing a fresh perspective by presenting the apostle s concept of faith as a transformative gift of divine power

Journal of the Royal Society of Arts 1859 the fourth century was different than the previous centuries due to two big heresies the first one was the heresy of arius who denied the divinity of the son this heresy led to the council of nicea in 325 in which the church fathers affirmed the divinity of the son of one substance with the father the second heresy was that of the tropici who denied the divinity of the holy spirit and said that the holy spirit was a creature or an angel at that time athanasius was one of the most important leaders in the life of the church he wrote against the tropici as he addressed them in his letters to serapion these letters are the major work of athanasius concerning the holy spirit the spirit of truth explains the way that athanasius dealt with the heresy and elucidates the pneumatology of athanasius s use of the gospel of john and 1 john it also discusses athanasius s understanding of tradition scripture and hermeneutical principles in his defense of the godhead particularly the divinity of the holy spirit for athanasius the holy spirit is eternal divine uncreated and one with the father and the son

Is Jesus of Nazareth the Predicted Messiah? 2019-02-04 the gospel of john is often found at the center of discussions about the bible and its relation to christian theology it is difficult to quantify the impact john s gospel has had on both the historical development of christian doctrine and the various expressions of christian devotion all too often however readers have failed to understand the gospel as an autonomous text with its own unique story to tell more often than not the gospel of john is swept into a reading approach that either conflates or attempts to harmonize with other accounts of jesus life this book emphasizes the uniqueness of john s story of jesus and attempts to provide readers with a road map for appreciating the historical context and literary features of the text the aim of this book is to help others become better more perceptive readers of the gospel of john with an ability to trace the rhetoric of the narrative from beginning to end embed container position relative padding bottom 56 25 height 0 overflow hidden max width 100 embed container iframe embed container object embed container embed position absolute top 0 left 0 width 100 height 100

The Faith of St. Paul 2019-03-15 diakonia studies closes the account on john n collins's 40 years of involvement in groundbreaking linguistic research and argumentation concerning the nature and functioning of christian ministry dispute has swirled around the greek term diakonia for 50 years once seen as enshrining the new testament value of loving christian service what jerome murphy o connor called one of the dogmas of new testament scholarship the word was exposed by dieter georgi in 1964 as arguably meaning something quite different in 1974 john n collins published his first paper on the issue pointing to inadequacies in georgi's brief account then in 1990 collins published his exhaustive semantic survey diakonia re interpreting the ancient sources his re interpretation was variously hailed as devastating provocative unfashionable and a scholarly avalanche whose conclusions are inescapable since then the book has stood at the center of the collins debate meanwhile collins's findings have been incorporated in the authoritative danker greek english lexicon of the new testament diakonia studies examines in a non technical way i e without appeal to particulars of greek the reasons why theologians need not only to review cherished readings of leading new testament passages but also to reassess what some passages might really be saying about the nature and delivery of ministry these third millennium issues are the matter of the final papers in the volume reminding churches of the ministry they have received and of their filed away commitments to an ecumenically charged ministry among the topics considered are ordained and lay ministries the tension between office and charism and prospects for deacons when a diakonia of loving service no longer defines their call

The Spirit of Truth 2023-09-12 the roman self in late antiquity for the first time situates prudentius within a broad intellectual political and literary context of fourth century rome as marc mastrangelo convincingly demonstrates the late fourth century poet drew on both pagan and christian intellectual traditions especially platonism vergilian epic poetics and biblical exegesis to define a new vision of the self for the newly christian roman empire mastrangelo proposes an original theory of prudentius's allegorical poetry and establishes prudentius as a successor to vergil employing recent approaches to typology and biblical exegesis as well as the most current theories of allusion and intertextuality in latin poetry he interprets the meaning and influence of prudentius's work and positions the poet as a vital author for the transmission of the classical tradition to the early modern period this provocative study challenges the view that poetry in the fourth century played a subordinate role to patristic prose in forging christian roman identity it seeks to restore poetry to its rightful place as a crucial source for interpreting the rich cultural and intellectual life of the era
