this book is the first sustained investigation of the political dimension in the work of j g ballard a product of and reaction to the cultural socio economic moment commonly designated as the postmodern condition ballard s oeuvre is read as a continuous and developing meditation on the postmodern examining it specifically as an expression of late capitalism the book shows that at the heart of this meditation lies the question of resistance drawing on a wide range of concepts and ideas taken from the field of critical theory it argues that in the face of a world marked by an unprecedented expansion of capital in which modernity s grand narratives have been invalidated and in which received forms of political struggle have lost their effectiveness ballard s fiction commits itself to a deliberately irrational and extreme pataphysical thought in order to develop a new discourse of resistance against past readings that have construed ballard s writing as non political decadent or quietist the study thus reveals ballard as a thoroughly political author committed to a subversive politics in this way the book also constitutes a timely intervention in the ongoing discussion concerning the nature and state of the political

It traces the development of his ideas from his early works to his later, more explicitly political novels. The author argues that Ballard's work is fundamentally political, even if it is often dismissed as mere pulp or science fiction. The book is a valuable resource for anyone interested in the intersection of literature and politics in the mid-20th century.

Ballard's work is a complex and often controversial exploration of the human psyche and the impact of technology and urban space. His writing is characterized by a stark, almost clinical style, and a focus on the darker, more disturbing aspects of human nature. Ballard's work is a testament to the power of the imagination and the ability of the human mind to create a world that is both terrifying and fascinating.
