this book constitutes the proceedings of the workshops held in conjunction with safecomp 2023 held in toulouse france during september 19 2023 the 35 full papers included in this volume were carefully reviewed and selected from 49 submissions 8th international workshop on assurance cases for software intensive systems assure 2023 18th international workshop on dependable smart embedded and cyber physical systems and systems of systems decsos 2023 10th international workshop on next generation of system assurance approaches for critical systems sassur 2023 second international workshop on security and safety interactions sensei 2023 first international workshop on safety reliability trustworthiness of intelligent transportation systems srtoits 2023 6th international workshop on artificial intelligence safety engineering waise 2023 this volume presents a collection of articles on state of the art soft computing and ai applications that cover broad domains and many disciplines the authors explain the evolution of the mathematics behind the intelligent systems consider fuzzy logic and neural network applications and explore several ai applications proceedings from epric's 9th international conference on advances in materials technology for fossil power plants and the 2nd international 123himat conference on high temperature materials overall air force weapon system sustainment wss costs are growing at more than 4 percent per year while budgets have remained essentially flat the cost growth is due partly to aging of the aircraft fleet and partly to the cost of supporting higher performance aircraft and new capabilities provided by more complex and sophisticated systems such as the latest intelligence surveillance and reconnaissance isr platforms furthermore the expectation for the foreseeable future is that sustainment budgets are likely to decrease so that the gap between budgets and sustainment needs will likely continue to grow wider most observers accept that the air force will have to adopt new approaches to wss if it is going to address this problem and remain capable of carrying out its missions in this context the original intent of this 3 day workshop was to focus on ways that science and technology s t could help the air force reduce sustainment costs however as the workshop evolved the discussions focused more and more on air force leadership management authority and culture as the more critical factors that need to change in order to solve sustainment problems many participants felt that while s t investments could certainly help particularly if applied in the early stages to the left of the product life cycle adopting a transformational management approach that defines the user driven goals of the enterprise empowers people to achieve them and holds them accountable down to the shop level several workshop participants urged air force leaders to start the process now even though it will take years to percolate down through the entire organization these sustainment concerns are not new and have been studied extensively including recent reports from the national research council's air force studies board and the air force scientific advisory board note no further discount for this print product overstock sale significantly reduced list price six one hour workshops were developed based on the dietary guidelines for americans 2010 and 2008 physical activity guidelines for americans each workshop includes a lesson plan learning objectives talking points hands on activities videos and handouts the workshops are designed for community educators health promoters dietitians nutritionists cooperative extension agents and others to teach to adults in a wide variety of community settings other related products el camino hacia una vida saludable basada en las guias alimenticias para los estadounidenses the road to a healthy life based on the dietary guidelines for americans bilingual spanish populations kit can be found here bookstore gpo gov products sku 017 023 00226 1 no 104 117 contain also the regents bulletins the sherman crab flail tank was the powerful culmination of a series of mine clearing flail tanks developed during world war ii here david fletcher recounts how the sherman crabs were among the first tanks ashore on d day and as the war progressed they were in constant demand both for formal attacks and more incidental operations following the development of the tank and its use in the war he details the us army's initial lack of interest in the flail but how after cooperative actions with the british they too decided to adopt the type themselves in addition to its special mine clearing role the sherman crab was also capable of fighting in tank duels and this book includes dramatic accounts of its use by the famous 79th

armoured division and the us army the author explores the beginnings of the design in the matilda scorpion and baron flails developed for the valentine and m3 grant tanks through to the sherman and particularly the crab version this detailed account of one of the most interesting tanks in the funnies series is a delight for any modeller or tank enthusiast are the worlds of science and religion irreconcilable has modern science with its theory of evolution disproved the biblical account of the origin of life if one accepts the biblical account of origins does one then have to reject science scientist and christian believer ariel a roth argues that taken together science and religion give us a more complete and sensible understanding of the world around us our place in it and our ultimate meaning and fate roth examines such topics as the evidence for evolution and creation the flood the strengths and limitations of the scientific method and the reliability of scripture he concludes that the biblical model of a recent creation by god leaves fewer unanswered questions than either science s evolutionary model or any view between the two positions such as progressive creation or theistic evolution back cover includes entries for maps and atlases this work is an innovative treatise on the evangelical magazine market during the 1970s and 1980s and how it sustained religious community and ideology bassimir argues that community can be produced in discourse especially when shared rhetoric concepts and perspectives signal belonging the 1970s and 1980s were a tumultuous period in united states history in suit with a dramatic political shift to the right evangelicalism also entered the public discourse as a distinct religious movement and was immediately besieged by cultural appropriations and internal fragmentations this was also a time when americans in general and evangelicals in particular grappled with issues and ideas such as feminism and legal abortion restructuring traditional roles for women and the family the watergate crisis and the newly emerging christian right also threw politics into turmoil during this time there was a surge of readership for evangelical magazines such as christian today moody monthly eternity and post americans sojourners while each of these magazines and many other publications contributes to and participates in the overall dissemination of evangelical ideology they all also have their own outlooks and political leanings when it comes to hot button issues evangelical visions through a thoroughly researched lens makes important correctives to common understandings of evangelical discourse particularly regarding the key political initiatives of the religious right bassimir demonstrates that within the pages of these periodicals evangelicals hashed out a number of competing views on feminism abortion reproductive technologies and political involvement itself to accomplish this evangelical visions traces the emergence of evangelical social and political awareness in the 1970s to the height of its power as a political program the chapters in this monograph also delve into such topics as how evangelicals re envisioned gender norms and relations in light of the feminist movement and the use of childhood as a symbol of unspoiled innocence and the pure potential of humanity presently most accounts of evangelicalism cite evangelical magazines only very selectively and virtually no studies make substantive use of those magazines as objects of investigation bassimir s evangelical visions makes a much needed contribution to our understanding of evangelicalism in the late twentieth century by providing a nuanced picture of a religious subculture that is too often reduced to caricature this study is located at the intersection of history religious studies and media studies and will appeal to scholars and students of all of these fields mother pauline gentry is a modern day deborah willing to tackle any obstacle with the weapon of prayer she is a living testimony of how the lord has worked miracles as she dedicated her life to consecration and prayer mother maxine billingsley international president young women s christian council church of god in christ mother pauline gentry has been proven in prayer in reading this book your prayer life will soar to new heights seeing that breaking through barriers demonic forces and pulling down strong holds are possible this book is a must read dr lathan archie jr author of navigating through transition in the closet of prayer is a book written by evangelist pauline gentry filled with life changing spiritual revelations and prophecies it is perhaps one of the best and most authentic books on the market today with a unique compilation of miraculous testimonies from real people by name in real time these testimonies give a glimpse of the incredible mysteries of god the author is uniquely gifted to pray see spiritual visions and dream dreams of things and events to come it is a must read particularly for those seeking healing and deliverance from depression addictions etc rev dr charlene hill hogan assistant dean howard university in old testament exegesis a gap is widening between the adherents of the diachronic historical critical approach and those who out of dissatisfaction with both the results and the methods of this classical approach opt for a wide variety of synchronic approaches the ninth joint meeting of the dutch oudtestamentisch

werkgezelschap and the british society for old testament study held at kampen 28 31 august 1994 brought together partisans from both camps who engaged in a most interesting and fruitful debate on one of the major methodological issues confronting modern old testament scholarship this volume contains the papers read as well as some reports from the workshops with indices of texts and subjects
