The Psychological Development of Girls and Women 2014-11-27

choice recommended read this thoroughly revised new edition updates sheila greene s original transformative account of the psychological development of girls and women and the central role of time in shaping human experience greene critically reviews traditional and contemporary theoretical approaches ranging from orthodox psychoanalysis to relational and post modern theories and argues that even those that claim to focus on development have presented a view of women s lives as fixed and determined by their nature or their past these theories she believes should be rejected because of their inherent lack of validity and their frequently oppressive implications for women essential but often neglected insights from the more compelling developmental and feminist theories are woven together within a theoretical framework that emphasizes temporality emergence and human agency the result is a liberating theory of women s psychological development as constantly emerging and changing in time rather than as static and fixed by their nature socio cultural context and personal history updated for a new generation of readers the psychological development of girls and women will continue to be essential reading for students and researchers in the psychology of women developmental psychology and women s studies

Catalogue of the Library of Congress 1862

the election of barack obama as president led some to suggest that not only has us society made significant strides toward racial equality but it has moved beyond race or become post racial in fact studies have exposed numerous contradictions between the ways white americans answer questions on surveys and how they respond to similar questions during in depth interviews how do we make sense of these contradictions in white race discourse preserving racial privilege in a post racial society john d foster examines the numerous contradictions sixty one white college students exhibit as they discuss a variety of race matters foster demonstrates that the whites interviewed possess a sophisticated method of communication to come across as ambivalent tolerant and innocent while simultaneously expressing their intolerance fear and suspicion of nonwhite americans whether intended or not this ambivalence assists in efforts to preserve social inequities while failing to address racial injustices while many scholars have written about the racetalk of whites few have succeeded in bridging both the theoretical and methodological gaps between whiteness scholars and discourse analysts white race discourse presents evidence that these white americans are bureaucrats of whiteness in that they defend the racial status quo through their discourse it will be a valuable addition to the library of students and scholars of race studies and linguistics who research us race relations and discourse analysis

Catalogue of Additions Made to the Library of Congress, from December 1, 1861 to December 1, 1862 1862

a weekly review of politics literature theology and art

Catalogue of Additions Made to the Library of Congress 1862

this volume s focus on the environmental accounting of supply chain processes is of particular relevance because these processes supply data about the environmental impact of relationships between business organisations an area where the boundary separating internal and external accounting is ill defined here contributors advocate what they term accounting for cooperation as a more environmentally positive complement to the paradigmatic practice of accounting for competition

Additions (Catalogue of additions) made to the Library of Congress 1862

the industrial revolution 4 0 will not only cause job losses but will also create new workspaces that may not exist today it also needs to be considered by accountants in government because the processes of budget planning budget execution and financial reporting have used a large number of information systems in the era of the industrial revolution 4 0 the changes will be faster marked by the emergence of such systems as supercomputers smart robots cloud computing big data systems genetic engineering and the development of neurotechnology that allows humans to optimize brain function further industrial revolution 4 0 will disrupt the accounting profession this proceedings provides selected papers research on government accounting accountability and integrity public sector accounting financial accounting accounting information system auditing and assurance corporate sustainability forensic and management accounting public and corporate finance taxation and customs open innovation in public sector accounting the proceedings provide details beyond what is possible to be included in an oral presentation and constitute a concise but timely medium for the dissemination of recent research results it will be invaluable to professionals and academics in the field of accounting finance and the public sector to get an understanding of recent research

The Literary World 1881

the year before he wrote his famous book on fixed stars vivian robson 1890 1942 wrote this one in it he put the distillation of four years intense work spent in the british museum reading room where he studied very nearly every astrology book ever written in english and latin to this day he is virtually the only man to have ever undertaken a study of this magnitude what makes the student s text book of astrology unique is its unparalleled wealth of detail topics include personal appearance character and mind health and accidents finance occupation and much more for each robson gives specific rules of judgment and then supplies aphorisms collected from many ancient sources the result is one of the most comprehensive astrology books ever written i n private conversation he would talk for hours on the science of which he was a master indeed his knowledge not only of astrology but of many other sciences was phenomenal and few who enjoyed his conversation could fail to go away with an enhanced knowledge of whatever subject had been under discussion he will be remembered best by his two chief books a student s text book of astrology and the fixed stars and constellations in astrology of these the former is deservedly popular and the latter is a classic containing as it does a mass of information dating from the days of greek mythology up to modern times c e o carter i have heard him converse knowledgeably on a dozen and one different subjects i really believe he knew something about everything but so far as astrology was concerned his versatility showed forth in a phenomenal knowledge of his subject to converse on astrology with him even if only for one short hour was inevitably to gain something new and valuable in the way of experience and information dorothy ryan in this memorial edition obituaries by charles carter and george h bailey prof hugh s torrens monograph curator turned astrologer an appreciation by dorothy ryan an afterword by the publisher david r roell a newly prepared index robson s death certificate and more the finest of all of vivian robson s books back in print at last
