permanent pacemaker implantation and its predictors in ***May 24 2024***

reversible cavb was not rare in patients admitted for cavb data on sbp on admission gender lvef and pre admission β blocker use may be important for assessing the requirement for permanent pacemaker implantation in the emergency care setting

cardiovascular medicine the university of tokyo hospital ***Apr 23 2024***

cardiovascular medicine our department provides medical care for patients with heart disorders vascular disorders hypertension congenital heart disease etc please check our website [cardiovasc m u tokyo ac jp](http://cardiovasc.m.u-tokyo.ac.jp) for further details

what kind of heart specialist do you need yale medicine ***Mar 22 2024***

if you need care from a specialized cardiologist such as a heart imaging specialist or surgeon the general cardiologist can coordinate your care we asked our yale medicine cardiologists to help us create a guide to 11 different types of heart specialists 1

cardiac resynchronization therapy journal of cardiology Feb 21 2024

cardiac resynchronization therapy crt has been established as a standard treatment for heart failure the effectiveness of crt has been shown in many clinical trials and realized in actual clinical practice nevertheless underutilization of crt is a major problem in the treatment of heart failure

heartlogic multisensor algorithm response prior to Jan 20 2024

the heartlogic multisensor algorithm boston scientific calculates the heartlogic score based on heart sounds nighttime heart rate thoracic impedance respiratory rate and patient activity level

angiographic findings and post percutaneous coronary Dec 19 2023

based on the post pci physiologic status 1327 patients 61 8 were in the optimal group 551 25 7 were in the suboptimal group and 269 12 5 were in the residual ischemia group the baseline clinical and procedural characteristics are shown in the table

bidirectional rotating biatrial tachycardia pmc Nov 18 2023

based on the ppi and biatrial activation map we diagnosed at1 as a bi at with the left atrial anterior wall right atrial septum and cs as a counterclockwise rotating circuit video 1

school of medicine tokyo women s medical university Oct 17 2023

we are actively providing latest optimal medical therapy and low invasive cardiovascular therapies we are committed to patient first treatment taking on evidenced based medicine and shared decision making

preprocedural physiological assessment of coronary disease Sep 16 2023

pathophysiological cad patterns were characterised using murray law based quantitative flow ratio μqfr derived indices acquired from pre pci angiograms the diffuseness of cad was defined by the pullback pressure gradient ppg index

derivation and validation of clinical prediction models for *Aug 15 2023*

early and rapid risk stratification of patients with acute heart failure (ahf) is crucial for appropriate patient triage and outcome improvements. We aimed to develop an easy-to-use in-hospital mortality risk prediction tool based on data collected from ahf patients at their initial presentation.

advanced cloud-based prediction models for cardiovascular *Jul 14 2023*

The initial preprocessing involved z-score normalization to reduce noise and verify the medical scaling factor. Heart disease-prone factor, which is estimated based on the entropy gain model, was used to marginalize the disease rate. Feature selection was then applied to reduce non-relevant features and improve the disease impact finding rate.

the masked right bundle branch block in the setting of a wide Jun 13 2023

Each JACC patient care pathway is an immersive multimedia case report depicting the integration of cross-specialty decision-making supported by evidence-based medicine within a single patient journey.

is systemic inflammation a missing link between *May 12* *2023*

based on model 2 model 3 additionally adjusted for smoking drinking leukocyte hemoglobin platelet weight tc egfr the history of hypertension dm chd angina heart attack and stroke kaplan meier curves were conducted to estimate survival over time progression with the log rank test used to assess the disparity among the various

what s next for value based care in cardiology avalere *Apr* *11 2023*

over the past several years value based care vbc has become increasingly established in cardiology bundled payment for care improvement advanced bpci advanced is the only medicare alternative payment model with specific cardiology episodes which accounted for 25 3 of all participant episode selections in 2023

cost effectiveness of cardiac rehabilitation in patients with

Mar 10 2023

background medical costs associated with cardiovascular disease are increasing considerably worldwide therefore an efficacious cost effective therapy which allows the effective use of medical resources is vital there have been few economic evaluations of cardiac rehabilitation or especially meta analyses of medical cost versus patient

when to see a cardiologist mayo clinic health system Feb 09 2023

if you are concerned about your cardiovascular system the first step is to discuss your symptoms with your primary care team who will determine if you need a referral to a cardiologist you also may be referred to learn about actions you can take to prevent heart disease

sex differences in debakey type i ii acute aortic dissection

Jan 08 2023

each jacc patient care pathway is an immersive multimedia case report depicting the integration of cross specialty decision making supported by evidence based medicine within a single patient journey

25 best cardiology sites and organizations openmd com Dec 07 2022

directory of the s best cardiology resources providing information on heart health and the circulatory system sites include american heart association british heart foundation and cardiology news

private equity backed cardiology group puts cloud based Nov 06 2022

cardiovascular associates of america cvausa a private equity backed cardiology management group based out of florida has launched a new collaboration with athenahealth designed to gives its cardiologists special access to cloud based technologies athenahealth is a boston based healthcare technology company known for its cloud based
