this book insists that history matters what if current divisions in america rest in part on a fundamental divergence in the understanding of our history the book proposes the three most prominent christian curricula have played a role through the historical narrative promoted for almost fifty years becoming more widespread in different forms of alternative schooling from christian schools to voucher programs and homeschooling their narrative has been significant in defining americans understanding of the world and its history and exposes the efficacy of the alliance between certain religious interests conservative legislators and school boards and various corporate interests in reshaping education in the united states the campaign for a christian right history is analogous to the successful advocacy for intelligent design in public school science curricula many conservative institutions support both the inclusion of politically conservative and christian content into school curricula who are america s creationists what do they want why do they think jesus rode around on a dinosaur creationism usa reveals that common misconceptions about creationism have led americans into a full century of unnecessary culture war histrionics about evolution education and creationism in fact america does not now and never has had deep fundamental disagreement about evolution not about the actual science of evolution that is and not in ways that truly matter to public policy americans do have significant disagreements about creationism though and creationism usa offers a new way to understand those battles by describing the history of creationism and its many variations this book demonstrates that the real conflict about evolution is not between creationists and evolution the true landscape of american creationism is far more complicated than headlines suggest this book digs beyond those headlines to prove two fundamental facts about american creationism first by any reasonable definition almost all americans can be classified as creationists of one sort or another at the same time almost all americans including creationist americans want their children to learn rigorous mainstream evolutionary science taken together these difficult truths about american creationism point to a large and productive middle ground a widely shared public vision of the proper relationship between schools science and religion these facts aren t hidden yet they remain surprising to those who do not understand the real world of american creationism creationism usa explains the history and current state of america s true battles over creationism it offers a nuanced but simple prescription to solve them

1885 2010 instant new york times bestseller national bestseller an intimate window into the world of american evangelicalism fellow exvangelicals will find mccammon s story both startlingly familiar and immensely clarifying while those looking in from the outside can find no better introduction to the subculture that has shaped the hopes and fears of millions of americans kristin kobes du mez new york times bestselling author of jesus and john wayne the first definitive book that names the growing social movement of people leaving the church the exvangelicals growing up in a deeply evangelical family in the midwest in the 80s and 90s sarah mccammon was strictly taught to fear god obey him and not question the faith persistently worried that her gay grandfather would go to hell unless she could reach him or that her muslim friend would need to be converted and that she too would go to hell if she did not believe fervently enough mccammon was a rule follower and most of the time a true believer but through it all she was increasingly plagued by fears and deep questions as the belief system she d been carefully taught clashed with her expanding understanding of the outside world after spending her early adult life striving to make sense of an unraveling worldview by her 30s she found herself face to face with it once again as she covered the trump campaign for npr where she witnessed first hand the power and influence that evangelical christian beliefs held on the political right sarah also came to discover that she was not alone she is among a rising generation of the children of evangelicalism who are growing up and fleeing the fold who are thinking for themselves and deconstructing what feel like the alternative facts of their childhood rigorously reported and deeply personal the exvangelicals is the story of the people who make up this generational tipping point including sarah herself part memoir part investigative journalism this is the first definitive book that names and describes the post evangelical movement identifying its origins telling the stories of its members and examining its vast cultural social and political impact

children's success at any age the first comprehensive study of amish understandings of the natural world this compelling book complicates the image of the amish and provides a more realistic understanding of the amish relationship with the environment before william jennings bryan successfully prosecuted john scopes in the infamous scopes monkey trial he was a prominent antievolution agitator in florida in going ape brandon haught tells the riveting story of how the war over teaching evolution began and unfolded in florida one of the nation's bellwether states it still simmers just below the surface waiting for the right moment to engulf the state the saga opens with the first shouts of religious persecution and child endangerment in 1923 tallahassee and continues today with forced delays and extra public hearings in state level textbook adoptions these ceaseless battles feature some of the most colorful culture warriors imaginable a real estate tycoon throwing his fortune into campaigns in miami lawmakers attempting to insert the mandatory teaching of creationism into bills and pastors and school board members squabbling in front of the national media that descends into their small town the majority of participants however have been and still are average people and haught expertly portrays these passionate citizens and the sense of moral duty that drives each of them given a social climate where the teaching of evolution continues to sharply divide neighbors and communities going ape is a must read for anyone concerned with the future of public education in the wake of the covid 19 pandemic more families than ever before are considering or reevaluating homeschooling lea ann garfias homeschooling mom of six and herself a homeschool graduate has all the information you need to succeed she guides you through your toughest questions including should i homeschool my kids how do i get started what books should i buy what do i do in the first day the first year how do i know if my child is on track if homeschooling is successful what do i teach in each subject at every age what is my own best way of teaching and how can my child learn his own way what if my child has a learning disability what are the dangers of homeschooling and how do i avoid them will homeschooling help my family draw closer to god and to each other this complete reference guide will provide you with everything you need to successfully tackle homeschooling in your own style filling your experience with confidence grace and the joy of learning this transdisciplinary collection engages with key issues of social exclusion inequality power and knowledge in the context of covid 19 for a more equitable and inclusive human future the cespedes parents jan and vicki and all 5 of their daughters ivana 23 belicia 22 briana 20 giana 19 and eliana 9 share memories of their homeschool journey and how they were able to accomplish amazing achievements while still so young they will each share thoughts about their philosophy of education daily routines the things they enjoyed most the things they would have done differently books and resources they used tips for acceleration etc the father jan cespedes who is suffering with terminal cancer wanted to write this as a legacy book and a tribute to his wife and daughters vulnerability and transparency are seen throughout the story of parents who felt inept to take on such a daunting task as the home educating of their daughters and more importantly of the discipleship of their hearts critically assessing growth based models of innovation policy this enlightening study sparks new debate on the role and nature of responsible innovation drawing on insights from economics politics and science and technology studies it proposes the concept of responsible stagnation as an expansion of present discussions about growth degrowth responsibility and innovation within planetary limitations this important intervention explores real world relationships between the political economy innovation policy and concepts of responsibility and will be an invaluable resource for individuals and civil society organizations who seek to promote responsible innovation gadangmes of ghana claim through oral history that they are descendants of ancient hebrew israelites they refer to themselves as
