Making Care Count 2011-02-17

there are fundamental tasks common to every society children have to be raised homes need to be cleaned meals need to be prepared and people who are elderly ill or disabled need care day in day out these responsibilities can involve both monotonous drudgery and untold rewards for those performing them whether they are family members friends or paid workers these are jobs that cannot be outsourced because they involve the most intimate spaces of our everyday lives our homes our bodies and our families mignon duffy uses a historical and comparative approach to examine and critique the entire twentieth century history of paid care work including health care education and child care and social services drawing on an in depth analysis of u s census data as well as a range of occupational histories making care count focuses on change and continuity in the social organization along with cultural construction of the labor of care and its relationship to gender racial ethnic and class inequalities debunking popular understandings of how we came to be in a care crisis this book stands apart as an historical quantitative study in a literature crowded with contemporary qualitative studies proposing well developed policy approaches that grow out of the theoretical and empirical arguments

In The Name of Liberalism 1999-09-02

why have british and north american governments adopted illiberal social policies during this century in the name of liberalism investigates examples of social policy in britain and the united states that conflict with liberal democratic ideals the book examines the use of eugenic arguments in the 1920s and 1930s the use of work camps in the 1930s as a response to mass unemployment and the introduction of work for welfare programs since the 1980s the book argues that existing accounts of american and british political development neglect how illiberal social policies are intertwined in the creation of modern liberal democratic institutions such policies are paradoxically justified in terms of the liberal democratic framework itself in the light of the books research the author suggests that there is a need to know more about the internal workings of democracies to justify the claim that liberal democracy represents the most attractive set of political institutions

Sex, Drugs, and Body Counts 2011-01-15

at least 200 000 250 000 people died in the war in bosnia there are three million child soldiers in africa more than 650 000 civilians have been killed as a result of the u s occupation of iraq between 600 000 and 800 000 women are trafficked across borders every year money laundering represents as much as 10 percent of global gdp internet child porn is a 20 billion a year industry these are big attention grabbing numbers frequently used in policy debates and media reporting peter andreas and kelly m greenhill see only one problem these numbers are probably false their continued use and abuse reflect a much larger and troubling pattern policymakers and the media naively or deliberately accept highly politicized and questionable statistical claims about activities that are extremely difficult to measure as a result we too often become trapped by these mythical numbers with perverse and counterproductive consequences this problem exists in myriad policy realms but it is particularly pronounced in statistics related to the politically charged realms of global crime and conflict numbers of people killed in massacres and during genocides the size of refugee flows the magnitude of the illicit global trade in drugs and human beings and so on in sex drugs and body counts political scientists anthropologists sociologists and policy analysts critically examine the murky origins of some of these statistics and trace their remarkable proliferation they also assess the standard metrics used to evaluate policy effectiveness in combating problems such as terrorist financing sex trafficking and the drug trade

Beyond Machiavelli 2000-04-26

policy analysis is a relatively young field created in the 1960s as a way to introduce data and rationality into the decision making process in *beyond machiavelli* beryl a radin compares policy analysis in the 1960s with its practice in the 1990s analyzing the transformations the profession has undergone since its birth and offering a provocative conception of its practice today all new professions go through a maturation process but radin points out that policy analysis is more susceptible to change because it is directly affected by shifting political values the united states of the 1960s was characterized by a strong belief in progress a trust in the public sector and a reliance on experts by the 1990s americans were less confident about the future not as trustful of the government and less willing to defer to so called experts even so the number and range of policy analysis jobs has grown markedly radin explores the significant changes that have taken place in the field including attitudes toward politics skills and methodologies required views about information and data and shifts in modes of decision making she includes profiles of six very diverse policy analysis organizations to illustrate these changes while some argue that the 1960s were the golden day of the profession when decision makers listened to experts radin argues that the earlier version of the field held to traditions of elitism and secrecy and that policy analysis in the 1990s pluralistic and open is a more democratic american profession

should a court order medical treatment for a severely disabled newborn in the face of the parents refusal to

authorize it how does the law apply to a neighborhood that objects to a group home for developmentally disabled people does equality mean treating everyone the same even if such treatment affects some people adversely does a state requirement of employee maternity leave serve or violate the commitment to gender equality martha minow takes a hard look at the way our legal system functions in dealing with people on the basis of race gender age ethnicity religion and disability minow confronts a variety of dilemmas of difference resulting from contradictory legal strategies strategies that attempt to correct inequalities by sometimes recognizing and sometimes ignoring differences exploring the historical sources of ideas about difference she offers challenging alternative ways of conceiving of traits that legal and social institutions have come to regard as different she argues in effect for a constructed jurisprudence based on the ability to recognize and work with perceptible forms of difference minow is passionately interested in the people different people whose lives are regularly mis shaped and mis directed by the legal system s ways of handling them drawing on literary and feminist theories and the insights of anthropology and social history she identifies the unstated assumptions that tend to regenerate discrimination through the very reforms that are supposed to eliminate it education for handicapped children conflicts between job and family responsibilities bilingual education native american land claims these are among the concrete problems she discusses from a fresh angle of vision minow firmly rejects the prevailing conception of the self that she believes underlies legal doctrine a self seen as either separate and autonomous or else disabled and incompetent in some way in contrast she regards the self as being realized through connection capable of shaping an identity only in relationship to other people she shifts the focus for problem solving from the different person to the relationships that construct that difference and she proposes an analysis that can turn difference from a basis of stigma and a rationale for unequal treatment into a point of human connection the meanings of many differences can change when people locate and revise their relationships to difference she asserts the student in a wheelchair becomes less different when the building designed without him in mind is altered to permit his access her book evaluates contemporary legal theories and reformulates legal rights for women children persons with disabilities and others historically identified as different here is a powerful voice for change speaking to issues that permeate our daily lives and form a central part of the work of law by illuminating the many ways in which people differ from one another this book shows how lawyers political theorist teachers parents students every one of us can make all the difference

Making Constituencies 2021-11-12

public division is not new in fact it is the lifeblood of politics and political representatives have constructed divisions throughout history to mobilize constituencies since the turn of the twenty first century the idea of a divided united states has become commonplace in the wake of the 2020 election some commentators warned that the american public was the most divided it has been since the civil war political scientists political theorists and public intellectuals have suggested that uninformed misinformed and disinformed voters are at the root of this division some are simply unwilling to accept facts or science which makes them easy targets for elite manipulation it also creates a grass roots political culture that discourages cross partisan collaboration in washington yet manipulation of voters is not as grave a threat to democracy in america as many scholars and pundits make it out to be the greater threat comes from a picture that partisans use to rally their supporters that of an america sorted into opposing camps so deeply rooted that they cannot be shaken loose and remade making constituencies proposes a new

theory of representation as mobilization to argue that divisions like these are not inherent in society but created and political representatives of all kinds forge and deploy them to cultivate constituencies

Creating and Implementing Public Policy 2015-12-14

in order to address major social policy problems governments need to break down sectoral barriers and create better working relationships between practitioners policymakers and researchers currently major blockages exist and stereotypes abound academics are seen as out of touch and unresponsive policymakers are perceived to be justifying policy decisions and the community sector seeks more funding without demonstrating efficacy these stereotypes are born out of a lack of understanding of the work and practices that exist across these three sectors drawing on ground breaking research and partnerships with contributions from senior public servants this book explores the competing demands of different actors involved in policy change it challenges current debates assumptions and reflects a unique diversity of experiences combined with differing theoretical perspectives it provides a uniquely practical insight for those seeking to influence public policy this innovative text provides essential reading for community sector practitioners academics and advanced level students in public policy social policy and public administration as well as for public service professionals

The Dilemmas of Ethnic Policy 2017-01-03

the dilemmas of ethnic policy a global perspective argues that ethnic conflict increases or decreases in relation to changes in the social structure and the location and distribution of political power ethnic grievances derive from lack of access to valued resources and elites play a crucial role in allocating those resources this book examines the experiences of five countries with a history of ethnic conflict former yugoslavia bosnia herzegovina guyana trinidad and tobago and the united states it finds that in many cases solutions adopted to mitigate ethnic conflict have unintended consequences often supposed solutions confuse cause and effect and in fact worsen ethnic conflict attempts to address identity issues by pandering to them often led to further ethnic demands this book argues that based on the experiences of the countries under examination the best course is to adopt policies that encourage alliances between and among ethnic groups
