**Motherhood Lost** 2010-03-15 in the early twentieth century americans often waxed lyrical about mother love signaling a conception of motherhood as an all encompassing identity rooted in self sacrifice and infused with social and political meaning by the 1940s the idealization of

motherhood had waned and the nation's mothers found themselves blamed for a host of societal and psychological ills in mom rebecca jo plant traces this important shift by exploring the evolution of maternalist politics changing perceptions of the mother child bond and the rise of new approaches to childbirth pain and suffering plant argues that the assault on sentimental motherhood came from numerous quarters male critics who railed against female moral authority psychological experts who hoped to expand their influence and women who strove to be more than wives and mothers all for their own distinct reasons sought to discredit the longstanding maternal ideal by showing how motherhood ultimately came to be redefined as a more private and partial component of female identity plant illuminates a major reorientation in american civic social and familial life that still reverberates today

**Mom** 2014-12-01 to celebrate the twentieth anniversary of sharon hays landmark book the cultural contradictions of motherhood this collection will revisit hays concept of intensive mothering as a continuing yet controversial representation of modern motherhood in hays original work she spoke of intensive mothering as primarily being conducted by mothers centered on children's needs with methods informed by experts which are labourintensive and costly simply because children are entitled to this maternal investment while respecting the important need for connection between mother and baby that is prevalent in the teachings of attachment theory this collection raises into question whether an over investment of mothers in their children's lives is as effective a mode of parenting as being conveyed by representations of modern motherhood in a world where independence is encouraged why are we still engaging in intensive motherhood

*Demanding Equality* 2010-03-02 entering the vigorous debate about the nature of the american welfare state the wages of motherhood illuminates ways in which a maternalist social policy emerged from the crucible of gender and racial politics between the world wars gwendolyn mink here examines the cultural dynamics of maternalist social policy which have often been overlooked by institutional and class analyses of the welfare state mink maintains that the

movement for welfare provisions while resulting in important gains reinforced existing patterns of gender and racial inequality she explores how angloamerican women reformers as they gained increasing political recognition promoted an ideology of domesticity that became the core of maternalist social policy focusing on reformers such as jane addams grace abbott katherine lenroot and frances perkins mink shows how they helped shape a social policy premised on moral character and cultural conformity rather than universal entitlement according to mink commitments to a gendered and racialized ideology of virtuous citizenship led women s reform organizations in the united states to support welfare policies that were designed to uplift and regulate motherhood and thus to reform the cultural character of citizens the upshot was a welfare agenda that linked maternity with dependency poverty with cultural weakness and need with moral failing relegating poor women and racial minorities to dependent status maternalist policy had the effect of strengthening ideological and institutional forms of subordination in mink s view the legacy of this benevolent and invidious policy continues to inflect thinking about welfare reform today

**Yoga for Motherhood** 2018-08-06 becoming a mother profoundly alters one's perception of the world as lindsay buchanan learned firsthand when she gave birth suddenly attentive to representations of mothers and mothering in advertisements fiction film art education and politics she became intrigued by the persuasive force of the concept of motherhood an interest that unleashed a host of questions how is the construct defined how are maternal appeals crafted presented and performed what do they communicate about gender and power how do they affect women her quest for answers has produced rhetorics of motherhood the first book length consideration of the topic through a feminist rhetorical lens although both male and female rhetors employ motherhood to promote themselves and their agendas buchanan argues it is particularly slippery terrain for women on the one hand affording them authority and

credibility but on the other positioning them disadvantageously within the gendered status quo rhetorics of motherhood investigates that paradox by detailing the cultural construction and performance of the mother in american public discourse tracing its use and impact in three case studies and by theorizing how when and why maternal discourses work to women s benefit or detriment in the process the reader encounters a fascinating array of issues including birth control civil rights and abortion and rhetors ranging from diane nash and margaret sanger to sarah palin and michelle obama as buchanan makes clear motherhood is a rich site for investigating the interrelationships among gender power and public discourse her latest book contributes to the discipline of rhetoric by attending to and making a convincing case for the significance of this understudied subject with its examination of timely controversies contemporary and historical figures and powerful women rhetorics of motherhood will appeal to a wide array of readers in rhetoric communications american studies women s studies and beyond

**The Wages of Motherhood** 2021-04-08 this book examines contemporary media stories about women who kill their children by analyzing media texts motherhood blogs and journalistic interviews the book seeks to understand better maternal violence and the factors that lead women to harm their children the central thesis of this book is that media practices have changed dramatically during the past 50 years as has society s views on appropriate feminine behavior yet definitions of characteristics of good mothers remain largely defined by 1950s sit coms victorian ideals and christian theology the book contends that in spite of media saturation in american society and the media s increased opportunities to tell complex and nuanced stories news media narratives continue to situate maternal violence as rare unfathomable and unpredictable the news media s shift in focus from public service to profit making industry has encouraged superficial coverage of maternal violence as reporters look for stories that sell not stories that explain motherhood blogs in contrast offer an opportunity for women to tell their own stories about motherhood based on experience interviews with journalists offer insights into how the structure of their jobs dictates media coverage of this intimate form of violence
