the annual colloquium on information retrieval research provides an opportunity for both new and established researchers to present papers describing work in progress or nal results this colloquium was established by the bcs irsg b tish computer society information retrieval specialist group and named the annual colloquium on information retrieval research recently the location of the colloquium has alternated between the united kingdom and continental europe to re ect the growing european orientation of the event the colloquium was renamed european annual colloquium on information retrieval research from 2001 since the inception of the colloquium in 1979 the event has been hosted in the city of glasgow on four separate occasions however this was the rst time that the organization of the colloquium had been jointly undertaken by three separate computer and information science departments an indication of the collaborative nature and diversity of ir research within the universities of the west of scotland the organizers of ecir 2002 saw a sharp increase in the number of go quality submissions in answer to the call for papers over previous years and as such 52 submitted

papers were each allocated 3 members of the program committee for double blind review of the manuscripts a total of 23 papers were eventually selected for oral presentation at the colloquium in glasgow which gave an acceptance rate of less than 45 and ensured a very high standard of the papers presented

a thorough treatment of the statistical methods used to analyze doubly truncated data in the statistical analysis of doubly truncated data an expert team of statisticians delivers an up to date review of existing methods used to deal with randomly truncated data with a focus on the challenging problem of random double truncation the authors comprehensively introduce doubly truncated data before moving on to discussions of the latest developments in the field the book offers readers examples with r code along with real data from astronomy engineering and the biomedical sciences to illustrate and highlight the methods described within linear regression models for doubly truncated responses are provided and the influence of the bandwidth in the performance of kernel type estimators as well as guidelines for the selection of the smoothing parameter are explored fully nonparametric and semiparametric estimators are explored and illustrated with real data r code for reproducing the data examples is also provided the book also offers a thorough introduction to the existing methods that deal with randomly truncated data comprehensive explorations of linear regression models for doubly truncated responses practical discussions of the influence of bandwidth in the performance of kernel type estimators and guidelines for the selection of the smoothing parameter in depth examinations of nonparametric and semiparametric estimators perfect for statistical professionals with some background in mathematical statistics biostatisticians and mathematicians with an interest in survival analysis and epidemiology the statistical analysis of doubly truncated data is also an invaluable addition to the libraries of biomedical scientists and practitioners as well as postgraduate students studying survival analysis

2006

this book focuses on fault diagnosis for linear discrete time varying ldtv systems and its applications in modern engineering processes with more weighting placed on the development of theory and methodologies a comprehensive and systematic study on fault diagnosis for ldtv systems is provided covering h optimization based fault diagnosis h filtering based fault diagnosis parity space based fault diagnosis krein space technique aided fault detection and fault estimation and their typical applications in linear nonlinear processes such as satellite attitude control systems and ins gps systems this book benefits researchers engineers and graduate students in the fields of control engineering electrical and electronic engineering instrumentation science and optoelectronic engineering
