open science unesco Sep 05 2023

in the fragmented scientific and policy environment a global understanding of the meaning opportunities and challenges of open science is needed for its fair and equitable operationalization at the individual institutional national regional and international levels

unesco recommendation on open science unesco Aug 04 2023

open science is a set of principles and practices that aim to make scientific research from all fields accessible to everyone for the benefits of scientists and society as a whole
