grimm language addresses a number of issues in the grimms fairy tales from a germanic linguist s point of view in sections dealing with the grimms use of regional dialect material various grammatical constructions and specific nouns and adjectives in their children s and household tales the author argues that the grimms were consciously or unconsciously following a number of objectives these included reinforcing the overall germanic impression of the tales though we now know that many of them had french inspiration striking the right balance between archaic and colloquial language to arrive at an ideal narrative style for what was arguably a new genre and promoting or at least reflecting stereotypes concerning the proper roles for boys and girls the book will be of interest not only to those interested in fairy tales and the grimms in particular but also more generally to those interested in the intersection between linguistics and literary scholarship

commonwealth caribbean business law breaks away from the traditional english approach of treating business law primarily as the law of ~~2023-01-11~~ and agency the book takes a panoramic view of the foundation ~~6/11~~ of various legal systems with a subsequent examination of different optimization in elliptic problems with applications to mechanics of deformable bodies and fluid mechanics operator theory advances and applications

areas of legal liability that may affect business activities these areas include contract law agency tort law criminal law and internet law as significant challenges confronting the business sector the book primarily targets the development of business law in several caribbean commonwealth jurisdictions but also where appropriate embraces the jurisprudence of other commonwealth nations such as the united kingdom canada and australia with respect to internet law the proliferation of judicial pronouncements emerging from the united states provided the platform for the only non commonwealth treatment of a topic the approach of the book is to use excerpts from judgments so as to allow students particularly the non legal student to understand legal principles as espoused by the judiciary without the filtering bias of authors

1993

the only authentic of persuasion the agenda spin model authors press 2022 man and woman are the persuading animals there is no overriding issue more important in most people s daily life life s pleasures and all of political matters than persuasion many if not most matters are largely wholly related to persuasion defined in this work on the agenda spin theory as the struggle of people to determine for their chosen audiences 1 what we talk about and 2 what it means persuasion is not the only determinant in life and there are some matters mostly outside of persuasive control such as congenital illness physical attacks weather death etc even these however will have elements of choice and certainly vary in spin and or interpretation this work unlike virtually every other work on this topic examines persuasion as within the power of the persuader not as the result of inexorable demands of reality except in the cases listed above
