includes part 1 number 2 books and pamphlets including  
serials and contributions to periodicals july december lists  
all publications issued in 1941 46 received int the library  
of the public documents division too late for inclusion in  
the current monthly catalog and certain publications received  
in 1947 which were declassified etc the code of federal  
regulations is the codification of the general and permanent  
rules published in the federal register by the executive  
departments and agencies of the federal government this work  
expounds for those in practice and beyond the rules of  
international law governing the inter state use of force jus  
ad bellum determines when a state or group of states may  
lawfully use force against or on the territory of another  
state and when such action violates international law the  
bedrock of the law is found in the charter of the united  
nations but the interpretation and application of many of the  
rules codified in the charter particularly by the  
international court of justice are contested accordingly the  
book clarifies the law as it stands today explaining its many  
complexities and controversies such as when non state actors  
may be attacked in another state and when consent is validly  
given to foreign intervention the interrelationships between  
jus ad bellum and the law of armed conflict international  
humanitarian law the law of neutrality and international  
human rights law are also illuminated along with important  
concepts such as the responsibility to protect and  
humanitarian intervention
