in a style reminiscent of the master storytellers of yore charless caraway recounts the story of his life as a man and a boy on small farms in saline and jackson counties particularly around eldorado makanda and etherton switch he makes no bones about the hardships of those old days first helping his father eke out a living from the land then scrambling for a living as a sharecropper and fruit picker as he scrimped and saved for the day when he and his young wife bessie mae rowan caraway could buy a piece of land of their own the one room school the general store the trips by wagon over roads that choked you in summer and swallowed you in winter the home that burned all are described in a matter of fact yet moving way many of the locations buildings and people are represented in equally unromanticized photographs from the family s collection some of the stories and photos recall the common disasters of the frontier drought flood and the tornado of 1925 it is clear from these stories that each aspect of life exacted a price but the caraways paid that price without regret and rallied to go on their way charless and his family and friends fill this book with courage strength and an unshakable faith in the value of human endeavor

in the 1950s and 60s john w allen told the people of southern illinois about themselves about their region its history and its folkways in his series of newspaper articles it happened in southern illinois each installment of the series depicted a single item of interest a town a building an enterprise a person an event a custom originally published in 1963 legends lore of southern illinois brings together a selection of these articles preserving a valuable body of significant local history and cultural lore during territorial times and early statehood southern illinois was the most populous and most influential part of the state but the advent of the steamboat and the building of the national road made the lands to the west and north more easily accessible and the later settlers struck out for the more expansive and fertile prairies the effect of this movement was to isolate that section of the state known as egypt and halt its development creating what allen termed an historical eddy bypassed as it was by the main current of westward expansion and economic growth its culture changed very slowly methods practices and the tools of the pioneer continued in use for a long time the improved highways and better means of communication of the twentieth century brought a marked change upon the region and daily life no longer differed materially from that of other areas against such a cultural and historical backdrop mr allen wrote these sketches of the people of southern illinois of their folkways and beliefs their endeavors successes failures and tragedies and of the land to which they came there are stories here of slaves and their masters criminals wandering peddlers politicians law courts and vigilantes and of boat races on the rivers allen also looks at the region s earlier history describing american indian ruins monuments and artifacts as well as the native population s encounters with european settlers many of the vestiges of the region s past culture have all but disappeared surviving only in museums and in the written record this new paperback edition of legends lore of southern illinois brings that past culture to life again in allen s descriptive engaging style

jane adams focuses on the transformation of rural life in union county illinois as she explores the ways in which american farming has been experienced and understood in the twentieth century reconstructing the histories of seven farms she places the details of daily life within the context of political and economic change adams identifies

contradictions that on a personal level influenced relations between children and parents men and women and bosses and laborers and that more generally changed structures of power within the larger rural community in this historical ethnography adams traces two contradictory narratives one stresses plenitude rich networks of neighbors and kin the ability to supply families from the farm the generosity shown to those in need while the other stresses the acute hardships and oppressive class gender and age inequities that characterized farm life the new deal and world war ii disrupted both patterns as the increased capital necessary for successful farming forced many to move from agriculture to higher paid nonfarm work this shift also changed the structure of the farm household as homes modernized and women found work off the farm adams concludes that large scale bureaucracies leveled existing class distinctions and that community networks eroded as farmers came to realize an improved standard of living
