Trustees at Work *2019-12-01*

americans now depend more heavily upon credit than any other society on earth or any other time in history borrowing has become a way of life for millions of families and it is hard to imagine a time when charge accounts did not exist nonetheless it would be a mistake to assume that because a wallet filled with plastic instead of cash is a relatively new phenomenon americans have not been borrowers and lenders since the colonization of the new world author peter j coleman proves otherwise in one form or another notes of hand book credit commercial paper mortgages land contracts settlers borrowed to pay their passage from europe to buy and clear land to build and operate mills to purchase slaves and to gamble and drink debtors prison awaited those who could not pay their debts and a pauper s grave

received the unfortunate who lacked the private means to feed and clothe himself in prison while the debtors prisons described in this book no longer exist the author maintains that our credit oriented society has yet to devise cheap efficient equitable and humane methods of enforcing contracts for debt

A Guide to Consumer Insolvency Proceedings in Europe *2019*

since 1979 the world has witnessed a remarkable cycle of personal insolvency law reform changes in capitalist economies financial crises and political interest groups all contributed to this cycle of reform this book examines the role of interest groups and distinct narratives in shaping reform in different countries while drawing attention to the role of timing path dependency and unintended consequences in the development of personal insolvency law the book presents case studies of personal insolvency law in the us france sweden and england

and wales it then analyses how following the great recession of 2008 international financial institutions paid greater attention to the significance of household debt in contributing to financial instability and the role of individual insolvency law in providing a fresh start personal insolvency law reform became part of eu responses to the eurozone crisis and the eu has proposed harmonisation of individual insolvency law to promote entrepreneurialism this book examines the extent to which these developments represent an emerging international commonsense about personal insolvency and its relationship to neo liberalism finally this book discusses whether the international emergence of individual personal insolvency law represents a progressive step or a band aid for the costs of neo liberal policies where a significant number of people live close to the precipice of over indebtedness
