The Psychology of Theft and Loss 2014-07-11 why do we steal this question has confounded everyone from parents to judges teachers to psychologists economists to more than a few moral thinkers stealing can be a result of deprivation of envy or of a desire for power and influence an act of theft can also bring forth someone's hidden traits paradoxically proving beneficial to their personal development robert tyminski explores the many dimensions of stealing and in particular how they relate to a subtle balance of loss versus gain that operates in all of us our natural aversion to loss can lead to extreme actions as a means to acquire what we may not be able to obtain through time work or money tyminski uses the myth of jason medea and the golden fleece to explore the dilemmas involved in such situations and demonstrate the timelessness of theft as fundamentally human the psychology of theft and loss incorporates jungian and psychoanalytic theories as well as more recent cognitive research findings to deepen our appreciation for the complexity of human motivations when it comes to stealing culminating in consideration of the idea of a perpetually present inner thief combining case studies jungian theory and analysis of many different types of stealing including robbery kidnapping plagiarism and technotheft the psychology of theft and loss is a fascinating study which will appeal to psychoanalysts psychologists psychiatrists social workers family therapists and students

Recovering from the Loss of a Loved One to AIDS 2001-06 real voices speak from the heart in a book that offers blessed comfort and practical help for those left behind after the death of a loved one to aids expert on grief katherine fair donnelly who has suffered many personal losses has also gained wisdom and strategies from hundreds of aids survivors who share their intimate and rue stories they tell how they handled the many challenges they faced this book offers immediate help both spiritual and practical survivors will learn that others have experienced such hurt and have found pathways to recovering

Understanding Loss 2015-09-16 loss and consequent grief permeates nearly every life changing event from death to health concerns to dislocation to relationship breakdown to betrayal to natural disaster to faith issues yet while we know about particular events of loss independently we know very little about a psychology of loss that draws many adversities together this universal experience of loss as a concept in its own right sheds light on so much of the work we do in the care of others this book develops a new overarching framework to understand loss and grief taking into account both pathological and wellbeing approaches to the subject drawing on international and cross disciplinary research judith murray highlights nine common themes of loss helping us to understand how it is experienced these themes are then used to develop a practice framework for structuring assessment and intervention systematically throughout the book this generic approach is highlighted through discussing its use in different loss events such as bereavement trauma chronic illness and with children or older people having been used in areas as diverse as child protection palliative care and refugee care the framework can be tailored to a range of needs and levels of care caring for people experiencing loss is an integral part of the work of helping professions whether it is explicitly part of their work such as in counselling or implicit as in social work nursing teaching medicine and community work this text is an important guide for anyone working in these areas

Federal Income Tax Treatment of Capital Gains and Losses 1951 with photographs artwork and stories this book is a resource for comforting and teaching children about this most difficult aspect of life book jacket

Pet Loss and Children 2005 how much influence does culture have on a mother's reactions to pregnancy loss at what stage is a fetus attributed with human status how does this affect the mother's reactions to the loss of a baby contemporary historical and oral history accounts from regions as diverse as rural north india urban america south africa and northern ireland provide a fascinating insight into the experience and management of miscarriage across a number of different cultures the authors explore how the social technological and medical context in which miscarriages occur can affect the ways in which women experience such an event in the west advances in medical technology a low infant mortality rate and a low birth rate

have raised expectations as to the successful outcome of each pregnancy in addition the early confirmation of pregnancy makes consequent pregnancy loss which might have gone unnoticed or unconfirmed in the past all the more difficult for mothers in the west yet mourning rituals and behaviour at a pregnancy loss which may be elaborate in some societies are generally considered to be inappropriate in many western societies differing social beliefs regarding the causes of miscarriage preventative measures and curative treatments are also examined medical anthropologists sociologists and health professionals will all find this book fascinating reading

Trauma, Loss and Bereavement 1999-10-18 this book explores the universal human existential trauma of original loss a trauma the author describes as arising from our primal human evolutionary loss of experiencing ourselves as innately belonging to and instinctively at home within the larger natural world in this trauma arose our existential awareness of impermanence and mortality along with the need to mourn that loss in order to create a sense of belonging and identity the book describes how the invention of art and group ritual became the collective ways we mourn our shared existential loss it describes as well how it is the art within the psychoanalytic practice that enables both patient and analyst to grieve their individual versions of our shared original loss drawing on the work of Winnicott Loewald and Ogden as well as art theory and religion this book offers a new perspective on the intersection of metaphorical artistic thinking and psychoanalysis this book will appeal to psychoanalysts psychotherapists and scholars of poetic visual and musical metaphor creativity evolution and history of art
