economics builds on the authority clarity and real world relevance of economics by gregory mankiw and mark taylor two of the world s leading economists to create an introductory economics textbook fully focused on the curriculum and pedagogical needs of business economics students business economics has a superb logical structure the classic ten principles approach to economics is retained and right at the outset the text considers the business environment so immediately establishing the book s business focus both microeconomics and macroeconomics are then comprehensively covered and each perspective is carefully mined for insights directly relevant to business economics students a final part examines the implications of economic globalization for the conduct of business internationally business economics is a global textbook with a particular focus on europe the middle east and africa it is replete with examples from all these regions this text is ideal for use on both business economics degrees and on business economics modules on business engineering and social science courses at undergraduate level it is also ideal for use on mba courses principles of economics continues to be the most popular and widely used text in the economics classroom the 4th edition features a strong revision of content in all 36 chapters while maintaining the clear and accessible writing style that is the hallmark of the highly respected author the 4th edition also features an expanded instructor s resource package designed to assist instructors in course planning
