100 Ideas for Lesson Planning

2007-03-10

lesson planning and preparation is one of the most important aspects of teaching it is also one of the hardest aspects to learn student teachers for example often find it difficult to gauge how to pitch or pace a lesson this book provides solutions it not only provides easily understood practical ideas but also sets them in a coherent overall framework based on the ideas that planning and preparation are part of a total cyclical process involving pedagogy curriculum learning and assessment planning and preparation are personal matters related to an individual teacher but this does not mean that teachers cannot learn from each other or that thinking about planning and preparation is arbitrary coverage includes often neglected areas such as the affective curriculum language across the curriculum and homework

Lesson Planning

2009

from the publisher are you looking to construct a lesson plan that will help k 12 students master new content concepts and skills lesson planning a research based model for k 12 classrooms can help by guiding you in the selection of research based instructional strategies and types of materials designed to consider all learners needs part i establishes the theoretical foundations of the ideas used in the lesson planning process part ii is a step by step guide to developing direct and inquiry based lesson plans meeting the needs of all learners woven throughout each chapter the authors address the diverse needs of students intasc standards correlation guide appears on the inside front cover to help readers quickly identify the lessons that meet each standard connections to the intasc standards are woven throughout each chapter s content and activities unit connections explain how the chapter s content is used in the development of a unit technology in education tie a feature throughout the book provide practical help in the lesson planning process including rubric generating sites lesson plan templates ideas for lesson activities and links to useful classroom materials reality check a feature in each chapter provides advice from practicing classroom teachers who represent a range of subjects and grade levels your turn feature at the end of each chapter helps you create your own standards based lesson plan in both direct and indirect instruction formats

Lesson Planning for Effective Learning

2013-10-16

lesson planning is the essential component of every teacher s practice and the development of a teacher s skill is built explicitly on a rigorous approach to planning this goes beyond just written plans and includes a process of mental preparation anticipation rehearsal and performance all essential elements of the craft of teaching this book offers heaps of useful advice and key ideas related to planning an effective lesson with clear links between the preparation of writing a lesson plan and the delivery of that lesson plan through your teaching this book explores common components of lesson planning including learning objectives learning outcomes starters teaching activities and plenaries the lesson plan document what it can and can t do teaching style and your role in bringing lesson plans to life within your classroom common pitfalls including time management over and under running optimum learning time and activity sequencing broader strategies such as differentiation personalisation and assessment sample lesson planning documents from real teachers whatever age of pupils you are teaching or whatever subject you are teaching this book helps you develop a clear and concise approach to lesson planning that is an essential and integral part of becoming an effective teacher this is essential reading for all teachers teacher educators and policy makers for new entrants to the profession it offers the opportunity to think beyond the notion of folk pedagogies and to consider how a more powerful theoretical framework might underpin lesson planning it presents essential analysis as to why common approaches to teaching and learning have emerged and become embedded this provides a great opportunity for more experienced teachers to develop a deeper critical understanding of their practice punctuated with reflective questions it enables the reader to reconceptualise planning and pedagogy and to engage in theorised reflection on practice kate laurence institute of education university of london uk at last a plain speaking book on effective lesson planning lesson planning for effective learning by martin fautley and jonathan savage combines theoretical perspectives with really useful instantly useable examples from everyday practice despite the scholarly approach the 200 pages of this little book retain an essentially conversational quality ensuring that it is equally accessible to students academics and learning enthusiasts alike andrew r mackereth headteacher heart of england school lesson planning is one of the most fundamental duties of teachers no matter what their subject age phase or experience in their latest book martin fautley and jonathan savage start with practice and in deconstructing what teachers do every day apply their deep thinking and reasoned consideration they are adept at weaving a wide range of thoughts experiences and theory into the mix making this readily accessible and

ultimately a very helpful book martin and jonathan make much of the novice expert continuum i m not sure where i fit but i certainly experienced a number of penny dropping moments that immediately led me to reflect and sharpen up my own planning i ve been reminded of the huge complexities that there are in planning effective lessons both the private preparation and the public performance elements it is impossible to read very far into this book without realising that planning for effective learning has little to do with the administrative task of completing a planning pro forma important and necessary though that is this book makes it abundantly clear that pedagogy and pedagogical content knowledge underpin planning for effective learning although as the authors point out much lesson planning is invisible what they do so well here in the words of russell and loughran is to make the tacit explicit above all this book articulates something of what it is to be professional for teachers of all types i heartily recommend this book simon spencer birmingham city university uk russell t loughran j 2007 enacting a pedagogy of teacher education values relationships and practices london routledge this book gives fantastic insight and practical strategies for teachers at all points within their career in order to encourage and embed reflective practice for outstanding practitioners and senior leaders it provides case studies and examples which will stimulate discussion and provide starting points from which to develop policy at whole school level and influence and develop practice at an individual teacher level a must have resource for any school teaching and learning group library hayley mcdonagh senior leader golden hillock school birmingham former la senior adviser working with schools in ofsted category
