1995-03 incidents involving rescue from road vehicles  
are dramatically increasing in frequency there are some  
3500 deaths on the road each year with 35 000 serious  
injuries modern motor vehicles are becoming safer for  
occupants due to advancement in technology so persons  
are more likely to survive high impact speeds but are  
also more likely to become entrapped the fire and  
rescue service as the primary rescue service requires  
national guidance to ensure a similar standard of  
response anywhere in the uk this manual is designed to  
highlight current best practice with regard to vehicle  
rescue techniques and first responder trauma care each  
chapter forms an independent reference source but the  
publication as a whole forms a complete guide chapters  
cover vehicle design and construction dealing with  
incidents safety procedures operational procedures
